THE BOOK NOOK

Discovering the Scientist Within: Research Methods in Psychology

Gary Lewandowski '98

In this breakthrough first edition, authors Gary Lewandowski, Natalie Ciarocco, and David Strohmetz draw on their extensive classroom experiences to introduce research methodology in a highly effective, thoroughly engaging new way, maximizing students' familiarity with every step of the process.

Scott Richardson '99, Gender Lessons: Patriarchy, Sextyping & Schools

Richardson argues that schools - a powerful and wide reaching publicly funded mechanism - should be engaged in social (re) imagination that disbands the antiquated girl/boy and feminine/masculine binary so that kids might have a chance at being themselves.
