**MILLERSVILLE UNIVERSITY
PARKING REGULATIONS
2018-2019**

The Millersville University Police Department is responsible for enforcing Parking and Traffic Regulations. These Regulations were established to provide the University Community with a safe and orderly environment in which to conduct its business and studies.

1. General Information

- 1.1 The authority to regulate traffic and parking comes from Title 18, Section 7505 (Violation of Governmental Rules Regarding Traffic) of the Consolidated Pennsylvania Statutes, which allows each Commonwealth agency to promulgate rules and regulations governing both parking and vehicular traffic on properties under the jurisdiction of that agency. The Commonwealth sets fines and costs for violations of such regulations.
- 1.2 It should be noted that Title 75, The Pennsylvania Vehicle Code, is enforced on all properties of the University, and that all roadways are considered highways for enforcement purposes. The Vehicle Code defines a highway as “The entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel. The term includes a roadway open to the use of the public for vehicular travel on grounds of a college or university or public or private school or public or historical park.”
- 1.3 The University Police have joint jurisdiction with Millersville Borough Police in certain areas located around University Property. Under PA Act 48, the Municipal Police Jurisdiction Act, 42 PA.C.S., Chap 89, Sub Chap. D., relating to statewide municipal police jurisdiction, also applies.
- 1.4 Parking fees and fines are set by the University and are used to offset the cost of maintaining the University’s parking system, including parking lot maintenance, signage and equipment. Questions concerning the fees and the use of the funds should be directed to the Budget Office.
- 1.5 Parking regulations help to ensure that there is an orderly system in place for all who use vehicles when coming to campus. They also ensure the safe operation of all vehicles while at the University. You are encouraged to voluntarily comply with these regulations; individuals who disregard them will receive appropriate penalties and sanctions.
- 1.6 Physical parking facilities and areas are provided through the University Office of Finance and Administration. You may view the University’s projected Master Plan including parking, online at <http://muweb.millersville.edu/~finadmin/FMP.jpg>. The Office of Finance and Administration is open Monday to Friday from 8 a.m. to 4:30 p.m. and is located in the Dilworth Building or by calling 717-871-4087.
- 1.7 Management of available parking facilities, and promulgation and enforcement of parking regulations, is provided by the University Police Department. The University Police Department is open Monday through Friday from 8 a.m. to 4:30 p.m. For the first week of the fall and spring semesters, the Department is open Monday through Thursday from 8 a.m. to 6 p.m. each day. Office hours will return to normal on Friday of the first week.

- 1.8 The University Police Department is located in the Lebanon House at 237 North George Street. The Department business phone number is 717-871-4357. For all other emergencies, dial 911 from campus phones and off-campus phones. Additional information is available at the Police Department website at <http://www.millersville.edu/~police>.

2. Accidents and Inoperable Vehicles

- 2.1 Accidents that involve vehicles and that occur on University property and where there is an injury, no matter how slight, or the vehicle is inoperable must be reported immediately to the University Police Department.
- 2.2 University police must be notified of any vehicle that becomes inoperable; 4-way flashers or notes on the vehicle are not considered sufficient notice. The driver must return to, and stay with the vehicle (unless you are advised otherwise by the dispatcher) until a University police officer arrives to determine if there is a hazard. If he/she determines the vehicle is a hazard, the operator must arrange to have it removed immediately.
- 2.3 Any vehicle that is determined to be a hazard by University police can be removed at the request of the Department. The owner of the vehicle will be responsible for any charges associated with the removal and any parking ticket that is issued.
- 2.4 Vehicles found in violation of parking regulations will not have fines excused because the vehicle is determined to be inoperable, if the operator of the vehicle failed to notify the department of its location and condition.
- 2.5 All vehicles that do not display a valid registration and/or certificate of inspection, or appear to be physically inoperable are subject to removal from campus properties by the Department. This includes those displaying a valid parking permit.
- 2.6 Removal of all vehicles will be at the owner's expense, and will take place pursuant to all appropriate sections of Pennsylvania Title 75.

3. Alternate Vehicles

- 3.1 Persons who need to drive an alternate vehicle to campus when a registered vehicle is temporarily unavailable can stop by the university police department and pick up a free one day pass.
- 3.2 Temporary parking permits, which must be displayed on the rearview mirror, allow the same parking privileges as the registrant's regular permit unless specified on the permit.
- 3.3 An additional secondary vehicle permit can be purchased for \$15. The shuttle service for this will be expanded to include most of those areas noted under the commuter restrictions. Watch for newly printed schedules and bus routes. It is the responsibility of the violator to obtain a copy of a lost or misplaced Notice of Violation. Appeals will be handled in accordance with the University Parking Appeals procedures in effect at that time.

15.2 The decisions for appeals are based upon legal elements only; e.g., whether a violation was committed, and/or whether the cited action constitutes a violation under proper authority. Appeals submitted due to factors within the driver's control (e.g., time management, forgot permit, didn't get permit yet, couldn't find a space, etc.) will be disapproved.

15.3 If the specific cause of the violation is beyond the vehicle operator's control, such as vehicle breakdown or medical emergency, then the causative necessity being forced upon the operator becomes an element of appeal. Documentation is required for all appeals based on causative necessity.

15.4 If you feel that you have been treated unfairly under appeal, you may request a new (de novo) hearing before the University Traffic Safety Committee. The request must be in writing and addressed to the University Police Department within 72 hours after receiving notice of the decision. The request must have on one side, your name, address and telephone number, and on the other side, the ticket number, permit number and the reason for the second appeal. The decision of the University Traffic Safety Committee is final. The University Traffic Safety

Committee may deny an appeal and charge the violator with a lesser offense to reflect the most appropriate violation.

15.5 Violations of the Pennsylvania Vehicle Code, which are beyond the authority of the University, may not be appealed; examples of these are as follows:

- Handicapped parking
- Parked against the flow of traffic
- Less than 20 feet from a crosswalk
- Within 30 feet of a stop sign
- Parked on privately owned premise without permission

15.6 You can file your appeal online. If you wish to appeal your parking ticket online, please use the following address:
