

MILLERSVILLE
REVIEW

Published by Millersville University of Pennsylvania Winter 1998-99

HAPPENINGS

All events are free unless otherwise indicated. More information is available in the University's Cultural Events Calendar, available by calling 717-872-3586.

Cultural Entertainment

For ticket information, call 717-872-3811, 8 a.m.-4:30 p.m., Monday-Friday. Performances begin at 8 p.m. in Lyte Auditorium at Alumni Hall, unless otherwise indicated.

- Thursday, February 4, 8 p.m.— Ballet *Hispánico of New York*; public tickets: adults, \$20; children under 18, \$10
- Saturday, March 13, 8 p.m.— Mavis Staples; public tickets, \$10

Lectures

- Tuesday, February 9, 7:30 p.m.— Dr. Lani Guinier; author and professor, Harvard Law School; Lehr Room, Gordinier Hall; Carter G. Woodson Lecture, sponsored by First Union Bank. For information, call 872-3586.
- Tuesday, February 23, 7:30 p.m.— Dr. Jewell Parker Rhoades; author, director of Graduate Program for Creative Writing; Arizona State University; Myers Auditorium, McComsey Hall; Hazel I. Jackson Lecture. For information, call 872-3586.
- Wednesday, March 17, 7 p.m.— Dr. Thomas Sergiovanni, Lillian Radford Professor of Education and Administration, Trinity University (Texas); Lehr Room, Gordinier Hall; Anna Funk Lockey Education Lecture. For information, call 717-872-3586.
- Tuesday, March 30, 9:30 a.m.— Dr. Priscilla W. Laws, professor of physics, Dickinson College; Reighard Multipurpose Room, SMC; Women in Math & Science Lecture, sponsored by Warner Lambert and the Glenna Hazeltine Endowment. For information/tickets, call 717-872-3407.
- Holocaust Conference
April 18-19: the 19th annual Holocaust Conference. Speakers and events TBA

Political Lecture Series

Date, time and location TBA. For information, call 717-872-3488.

U.S. Representative William Goodling

Black Culture Celebration

- March 9, 7:30 p.m.— "Solo Songs of African-American Women Composers"; performed by Sebronette Barnes, Ph.D., Professor of Fine Arts, Cheyney University; Lyte Auditorium in Alumni Hall

Latino Celebration

- Thursday, February 25, 7 p.m.— "Here to Stay: Dominicans as an Ethnic Minority in the USA"; Dr. Silvio Torres-Saillant and Dr. Ramona Hernandez, CUNY Dominican Studies Institute; Myers Auditorium, McComsey Hall

Art Exhibits

Ganser Library Art Gallery

- January 25 - February 17: Print and Drawing Invitational
- February 21 - March 19, John Markowitz: Paintings

Sykes Gallery

- January 4 - 29, Student Work
- February 1 - 19, Allen Linder: Sculpture
- February 22 - March 12, Robert Andriulli: Works on Paper
- March 15 - April 16, Brant Schuller: "Building a Strong Nation"

Theatre

- University Theatre presents *The Comedy of Errors*, by William Shakespeare; Rafters Theatre, March 4, 5, 6, 7, 11, 12, 13 at 8 p.m. Phone reservations starting February 15 at 717-872-3129.
- All Campus Musical Organization presents *Fame, The Musical*, conceived and developed by David DeSilva; book by José Fernández; lyrics by Jacques Levy; music by Steve Margoshes; Lyte Auditorium in Alumni Hall; April 8, 9, 10 at 8 p.m.; April 11 at 2 p.m. After February 1, call 717-871-2169 for more show and ticket information. Tickets on sale March 8 at SMC ticket window.

Music

All events in Lyte Auditorium in Alumni Hall and are free unless otherwise noted.

February

- 14 Faculty Recital by Madeleine Darmiento, viola. 7:30 p.m.
- 21 Faculty Recital by Jean Bradel Berlin, soprano, and Ross Ellison, organ. 7:30 p.m.
- 27 Jazz Fest de 'Ville. MU Jazz Ensemble and Alumni Jazz Band. Admission charge. 8 p.m.

March

- 7 Recital by Millersville Faculty Trio: Anita Renfroe, piano; Madeleine Darmiento, violin; Peter Brye, violoncello. 7:30 p.m.

Foreign Film Series

Shown in Myers Auditorium, McComsey Hall, Sundays at 7 p.m. Free admission.

- February 21, *Nueba Yol* (Dominican Republic).
- March 14, double feature (Germany): Men, 6 p.m., Fox and His Friends, 7:45 p.m.

Women's Film Series

Shown in Myers Auditorium, McComsey Hall, Thursdays at 7 p.m. Free Admission.

- February 18, *Eve's Bayou*

The *Millersville Review* is published by Millersville University of Pennsylvania of the State System of Higher Education and mailed free to Millersville alumni, faculty, staff and other friends of the University.

State System of Higher Education:

James H. McCormick, chancellor

Board of Governors:

F. Eugene Dixon Jr., chair, Kim E. Lyttle, vice chair, R. Benjamin Wiley, vice chair, Syed R. Ali-Zaidi, Muriel Berman, Jason P. Bozzone, Jeffrey W. Coy, Daniel P. Elby, Lawrence J. Flint, Glenn Y. Forney, Charles A. Gomulka, Eugene W. Hickok Jr., F. Joseph Loeper, Rocco A. Ortenzio, Tom Ridge, Jere W. Schuler, Patrick J. Stapleton, John K. Thornburgh and Christine J. Toretti.

MU Council of Trustees:

Mr. Charles W. Hash Sr., chair, Dr. Gail D. Edwards, Mr. James W. Harris, Dr. Joseph E. Hennessey, Ms. Caroline M. Hoffer, Dr. William B. McIlwaine, Ms. Margaret A. Sayago, Mr. Nelson Sears, Mr. Robert Torres, Ms. Sue A. Walker, Mr. Paul G. Wedel, and Dr. James H. McCormick, ex officio.

President of the University:

Dr. Joseph A. Caputo

Alumni Association:

Cheryl Youtz '69, president; Michael Henry '83, president-elect; Harry Lines '40, treasurer; and Mary Lehr '58, secretary.

A commitment made

MU's first-ever capital campaign, Commit to Opportunity, came to a successful conclusion on June 30, some \$3.5 million over goal. Here, the Review offers a glimpse at the many ways in which the campaign improved educational opportunities for students, and how it changed the University.

11

Reshaping the 'Ville

Academic core areas, pedestrian malls, new facilities, new traffic patterns—the Facilities Master Plan is more than a vision and is well on its way to reshaping the physical configurations of MU.

CAMPUS NEWS

Carabasi exhibit brings images, music

"Lamont Steptoe, Poet" (above) was part of *Traces*, an interdisciplinary exhibition of Thomas Carabasi's art photography—organized by Robert Lowing, art—presented at MU in November and December. Carabasi's photographs of landscapes and nudes have received national acclaim as some of the finest large format, toned photographic prints produced over the last two decades.

After the opening reception, the artist expressed himself in a different medium when he and his ensemble—comprising some of the Philadelphia area's finest musicians—retired to Lyte Auditorium in Alumni Hall, where they regaled the audience with a program of jazz music and poetry.

MU/University of North London Establish Academic Partnership

The establishment of a Millersville University/University of North London (UNL) academic partnership, which sets a general framework of cooperation between the two institutions, was documented formally during a signing ceremony in Biemesderfer Center on November 8.

On hand for the event were MU President Joseph Caputo, UNL Vice Chancellor Brian Roper and UNL North American Programs Director Christopher Rolfe.

The creation of the partnership caps a year of research, visits, and negotiations between the two universities, according to Dr. Kirsten Bookmiller, MU director of international affairs. "It promises to be one of the most exciting foreign institutional partnerships for MU to date, with wide-ranging benefits for students, faculty and the University as a whole." The multifaceted agreement covers several areas, including exchange of faculty and administration, cooperative efforts in joint academic programs, exchange of research information and exchange of academic materials.

On the cover:

A view of the Hash Building, formerly Myers Hall, renovated with funds raised by the capital campaign. The building will be part of the McCollough Communication Complex.

VIEWS

Blessed with vision

I want to compliment you on the fascinating article in your fall issue 1998 regarding the University's Robert A. Lyon Permanent Art Collection.

Your University is indeed blessed with much talent and energetic people who have a vision and set out to accomplish it, and, what's more, even brought it to fruition. The collection seems beautiful and diversified, in fact, something for everyone, and I am pleased to see how grand you are making it.

Dr. Muriel M. Berman
Allentown

Dr. Berman is a member of the State System Board of Governors.

Honors student receives distinguished scholarship

Meron Wollie, a senior physics major and member of the University Honors Program, has been awarded a \$10,000 Duracell/National Urban League Scholarship and an opportunity to participate in an internship to be decided next spring.

Wollie, who wants to work as a mission control specialist or engineer with NASA, was among 20 students from across the nation who received the scholarships and

internship opportunities during a recent awards program held at the National Urban League Convention in Philadelphia.

A member of the University Gospel Choir who serves as a volunteer mathematics tutor, she worked as a lab assistant in the physics department and as a computer and system tech support aide at MU's computer help desk. Currently, she is an intern with DuPont, Wilmington, Delaware.

Lecture part of effort to curb binge drinking

A throng of students (above) crowded into Lehr Room at Bolger Conference Center to hear the man who concocted the term "binge drinking" talk to them about new approaches to the old problem in the first Blue Shield/HealthGuard Lecture.

Armed with statistics and insights, Dr. Henry Wechsler (right), director of the College Alcohol Studies Program, Harvard University School of Public Health, presented the findings of his 1993 and 1997 studies of

binge drinking (five or more drinks in a row for men, four or more for women). He then went on to outline a twelve-step program for universities that want to rein in student alcohol consumption.

On the same day, October 14, MU Vice President for Student Affairs Robert Thomas announced the formation of a Task Force on Alcohol Abuse. The campus- and community-based effort, will be charged with finding effective means to reduce alcohol abuse among young people, a nationwide problem made manifest by the recent highly publicized alcohol-poisoning deaths of students at other institutions.

University receives Governor's Highway Safety Award

The University has received a Governor's Highway Safety Award, honoring its long-time support of the DUI Council of Lancaster County and the activities it conducts.

The award, which was presented at the Governor's Highway Safety Conference, October 16, was in the category of "Safety Education," one of 12 in which individuals and organizations

were recognized after being nominated by colleagues.

The nomination letter, composed by Barbara Zortman of the area's Center for Traffic Safety, states that "on numerous occasions they have opened their doors to allow for Council-sponsored events, often waiving customary fees." Noted specifically were "Prom Styles '97," a program designed to prove that

University rated in U.S. News, Kiplinger's

MU recently won a rating in two national publications which rank U.S. colleges and universities.

For the second consecutive year, MU was ranked as one of "Top Regional Public Schools" in the nation, according to a recent survey conducted by *U.S. News & World Report* and published in its August 31, 1998, issue, and *Kiplinger's* list MU among the 100 top value public institutions of higher education.

In the *U.S. News* 12th annual "America's Best Colleges" guidebook—a review of some 1,400-plus four-year accredited colleges and universities—Millersville was again ranked 4th among "regional public schools" in the north (the list includes institutions from New Jersey, New York, Massachusetts, Maryland and Pennsylvania). MU was among 54 colleges or universities from four regions—North, South, Midwest and West—to make the top regional public school rankings, which were based on academic reputation, retention, faculty resources, student selectivity, financial resources, graduation rate performance and alumni giving.

Kiplinger's first ever college value survey—limited to state colleges and universities—was published in the personal finance magazine's September 1998 issue.

Ranked 87th among the 600 or so four-year colleges and universities nationwide, Millersville is among six state-supported universities from Pennsylvania that made the list.

teens can have an evening of fun and entertainment while remaining substance-free; the DUI Council's Second Annual Lancaster County Forum on Underage Drinking; the University's annual Health and Wellness Fair in the fall; and MU's Wellness Week in the spring, when local organizations conduct demonstrations/lectures on drug and alcohol abuse.

CAMPUS NEWS

MU People

Crystal Bailey-Brown, is the new assistant women's basketball coach. Formerly the head women's basketball coach at Middlesex County College in New Jersey, she joined the

Millersville staff in August.

For a detailed biography, see "Sports."

Dr. Sy Brandon, received a 1998-99 ASCAP (American Society of Composers, Authors & Publishers) Award, the second consecutive year in which he has been so honored.

ASCAP confers the award to reflect its continuing commitment to assisting and encouraging writers of serious music. The awards (Brandon's totals \$250) are granted by an independent panel and are based upon the unique prestige value of each writer's catalog of original compositions, as well as recent performances of those works in areas not surveyed by the society.

Dr. Robert J. Labriola, dean of graduate studies and extended programs, will retire January 1, 1999.

Labriola came to Millersville in 1969 and since that time—in addition to his current post—has held several University administrative positions, including certification officer, director of the Educational Development Center and director of educational development and field services. One of his many contributions to Millersville is the Summer Happening program, which serves thousands of educators each year with workshops throughout the Commonwealth.

Colin McLeod, chairperson of the Department of Development Studies and director of academic advisement, retired May 22. When McLeod joined the MU staff in 1978, he

was involved with the Act 101 Program and academic advisement, and served as coordinator for the writing center where he taught classes for the English department.

Dr. Anita Pflum, professor of elementary and early childhood education, will retire January 1, 1999. Pflum began working at MU in 1970 as a teacher and team leader for the Jenkins School. In the intervening years, she taught a variety of courses, including those which focused on creative experiences for young children and current trends in elementary education, and co-authored the book, *The New Open Education*.

Margaret E. Sayago of Nazareth is the new student trustee on the Council of Trustees. A sophomore secondary education major at MU, she was nominated by Governor Tom Ridge and confirmed by the State Senate. She replaces Shawn M. Dirk, who graduated in May.

At Millersville, Sayago is a member of the Student Senate and the women's rugby team and works as a residence hall assistant. While a student at Nazareth Area High School, she performed with the marching and concert bands, was a member of the Drama Club, and participated in track and field.

Fred Thompson, former boys' basketball coach at Dundalk (Md.) High School near Baltimore, is the interim head men's basketball coach for the 1998-99 season. Prior to that, he was head coach at Meridian (Miss.) Community College. He replaces Richard Zvosec, who resigned to accept a coaching position at St. Peter's College, Jersey City, N.J.

See "Sports" for more information on Thompson.

Dr. William H. Skelly, professor of industry and technology, will retire in January. Skelly joined the University's

industry and technology staff in 1973. In addition to his many classroom duties, he served his discipline in other capacities: president of the Industrial Arts Association of

Pennsylvania and a member of the organization's task force which presented testimony to the Pennsylvania State Board of Education concerning the proposed revision to chapter five of the State Curriculum Regulations. Among his career honors, he received IAAP's Distinguished Service Award.

Correction

In the summer 1998 issue, the article on **Robert Ambacher, Ph.D.**, incorrectly stated that he was the author of some 150 articles and reviews. In fact, the 150 includes talks he presented, as well as articles and reviews he wrote. Also, among the honors he received, Ambacher was a Fulbright Scholar.

Books

Dr. Osman Suliman, economics, edited a book, *China's Transition to a Socialist Market Economy* (with contributions from both MU and Jiangxi University faculty), as part of the exchange program between the economics department, MU and Jiangxi University of Finance and Economics, China. The book is published by Quorum Books, Greenwood Publishing Group.

Dr. Mícheál Houlihan, music, wrote *Zoltan Kodaly: A Guide to Research*, published by Garland Publishing and co-authored with Dr. Philip Tacka of Georgetown University.

Deaths

Beatrice U. Datesman, who retired as assistant professor of library science in 1972, passed away on August 14 at the age of 89. A graduate of Hood College and Syracuse University, she taught at various high schools and at Syracuse before coming to Millersville in 1950.

Upon her retirement, a scholarship fund was established in her honor. Miss Datesman, who herself contributed annually to this fund and met virtually all recipients of the award, requested

MU People *continued*

that, in lieu of flowers or other recognitions of her passing, contributions be made in her memory to the Beatrice U. Datesman Scholarship Fund, part of the MU Foundation.

Information about contributing to the fund can be found by calling the Office of Development at 717 872-3820.

Frank R. Bellaire, founder of the MU Meteorology Program, passed away on September 25, at St. Joseph Hospital, after being stricken ill at the Pucillo swimming pool. A member of the earth sciences faculty from 1967 to 1974, he also served as a faculty senator.

He graduated from the Massachusetts Institute of Technology in 1942 and earned degrees from the University of Michigan and the University of Hawaii. A U.S. Navy veteran of World War II and the Korean War, he retired from the U.S. Naval Reserve in 1969 at the rank of commander.

Lee E. Boyer, former professor of mathematics and chair of the department, passed away on October 13 in Richboro at the age of 98. The Boyer Computer Center was named after him.

On the MU faculty from 1934 to 1957, he researched the stained glass windows in Biemesderfer Center, and he wrote the section on the windows for the book published about the building and its history, *Centerpiece of the Campus*.

Boyer went on to serve as a mathematics advisor and director of the Bureau of State Colleges in the Pennsylvania State Department of Education, and later taught mathematics at Harrisburg Area Community College.

During his career, he served as a director of the National Council of Teachers of Mathematics and as president of the state organization. He also wrote two history education booklets and student cooperative projects, as well as three college mathematics textbooks and a book about the Susquehanna River.

J. Robert Moore, 67, died August 7 in Milwaukee. An assistant professor of economics at Millersville from 1968-1971, he taught finance and economics at the University of Wisconsin Milwaukee from 1971 until his retirement in 1990 as director of the Executive MBA-EC program.

Empty Bowls dinner draws 500 to help fight hunger

Over 500 people attended the Empty Bowls Dinner, held in the Student Memorial Center on October 29, helping to raise approximately \$4,000 to feed the hungry.

Proceeds from the dinner, part of MU's "A Community of Learners" 1998-99 Academic-Year Theme, will go to the South Central Pennsylvania Food Bank, the Spanish American Civic Association, Crispus Attucks, and the Water Street Rescue Mission.

All told, 750 bowls were crafted over the summer and fall by variety of organizations and individuals from the local and University communities.

"People resonated with the theme," said Sara Lindsley, coordinator of the

Empty Bowls Project, "and all seemed to have enjoyed themselves."

Lindsley expressed gratitude to all those who worked to develop the program, which was a first for Millersville, as well as to the persons who supported the effort by attending. Work is already under way for next fall's event.

Nobel Laureate denounces invasion and annexation

Nobel Laureate Jose Ramos-Horta (below) shined the spotlight on human rights when he gave the Harriet Kenderdine Lecture on November 9.

Ramos-Horta, who shared the 1996 Nobel Peace Prize with his countryman, Bishop Carlos Filipe Ximenes

Belo, spoke about the the illegal invasion and annexation of his homeland, East Timor, by Indonesia some 23 years ago. In exile since that time, Ramos-Horta suffered the death of four of his 11 siblings, who were among the 200,000 East Timorese that died between 1976 and 1981 as a direct result of the invasion.

The speaker stressed the important role that smaller countries such as Norway, Costa Rica and Portugal, "whose strength was their moral integrity," can play in mediating conflicts when the superpowers have failed. "Diplomacy and mediation are not prerogatives of the major powers."

The lecture, was sponsored by the League of Women Voters of Lancaster County and MU's Center for Politics and Public Affairs.

A COMMITMENT MADE

It was born of necessity and an entrepreneurial spirit.
It was born of a strong desire
to stay true to the promise of Millersville University
—quality, affordable education accessible to all qualified students—
in the face of decreasing support from the Commonwealth.
The capital campaign was an idea whose time had to come,
for the sake of the University's future.

Editor's Note: This story is an edited version of the final report of the capital campaign, written by Pamela Rohland.

In 1991, President Joseph A. Caputo convened a University-wide committee to discuss the needs of faculty, staff and students. After many hours in countless meetings, the group narrowed the list to those projects that were absolutely necessary in order for the University to continue in the 21st century the mission it began with its founding in the 19th: Several aging, heavily used buildings desperately needed expansion and renovation. New equipment needed to be purchased, especially in the areas of science, communication and technology. New programs needed to be developed and older ones strengthened. More outreach into the community was needed. Students needed more scholarships.

Cost of the proposed projects: \$24 million.

It seemed like a daunting and almost impossible goal for a regional public university's first capital campaign, but thanks to a new approach to facilities construction by the state, the impossible was within reach. Shared funding of public funds to match privately raised university funds narrowed the gap and provid-

ed an incentive for private gifts: The state would provide matching funds while the University launched a capital campaign to raise its share of the money for facilities improvements.

The approach was a momentous one for the University; it marked the beginning of a new era, with the institution taking the initiative to raise significant sums of money from the private sector.

Some five-and-a-half years after the campaign was publicly announced, the campaign ended after raising some \$27.5 million, \$3.5 million over goal. Many projects have been completed, and others are still underway, but no doubt remains that the campaign marked a watershed in its evolution.

Hundreds of people played a role in the capital campaign. Alumni, friends, trustees, faculty, staff, students, all devoted time and energy to making a better future possible. To illustrate what was achieved and how, and to share the celebratory spirit which has infused the University community, this article highlights some of those who gave and some of those who benefited from the giving.

"[The capital campaign] had as much of a psychological effect as the addition of bricks and mortar. We've broken free of the old idea that we're dependent on the state to provide everything for us."— Charles Scharnberger, Ph.D., earth sciences

A COMMITMENT MADE

"Students who are looking around for a meteorology program, will look more favorably at Millersville than they have in the past. The new facilities can visually impress on students that we're serious about meteorology."— Dr. Richard Clark, earth sciences

A Wide-Open Future

As Professor Richard Clark puts it, "The future is wide open."

That's what the capital campaign has done for the burgeoning science programs at Millersville, which had long since run out of room to grow.

"Look at the numbers," says Dean of Science and Mathematics Al Hoffman. In 1962, when the Roddy Science Center was built, Millersville had only 300 majors and 25 faculty members in the School of Science and Mathematics. Today, more than 1,700 students major in the sciences and 90 scientists and mathematicians are on the faculty.

"For the first time in our history, we will have space for state-of-the-art TV and audio production, and video editing studios, and there will be new equipment. This will allow us to integrate more production experience into the classroom, and it will give more opportunities for students to get their hands on equipment."— Diane Umble

The new facility will include— among other things—a weather station and research lab for meteorology, an inorganic chemistry lab, a technology lab for the nursing program, and even a "fly room" for housing fruit flies and other insects used in experiments. The upgraded facilities and equipment offer the potential for offering master's degree programs in areas such as air pollution or atmospheric chemistry.

Expectations to Be Fulfilled

"We're all in a state of hopeful expectation," says Diane Umble, Ph.D., chair of the communication & theatre department. "Our work conditions have been really grim. Myers Hall is over 100 years old, and it hasn't seen a major renovation in a very, very long time."

The January 1999 completion of renovations to Myers Hall, home to the communications and theatre department, go far beyond providing for creature comforts.

Much of the new equipment will be digital, rather than analog, reflecting the change in the industry. Experience working with digital equipment will improve the quality of students' work at MU and better prepare them for the realities of today's workplace, according to Umble.

In addition, the department will have its own multimedia computer lab and two new studios devoted to the fledgling MU cable television station.

When completed, the former Myers Hall—now the Hash Building—and its neighbor, Bassler Hall, will be known as the Clair and Velma McCollough Communication Complex.

A Chorus of Support from Alumni

From walls to seats to stage, Lyte Auditorium, the site of many musical

"I hope this demonstrates to all alumni that they can make a difference with their financial support."—Mrs. Cheryl Youtz, president, MU Alumni Association

lessons and performances on campus, got a facelift as a direct result of funds raised by the Alumni Association.

"The MU Alumni Association has a long history of supporting Lyte Auditorium and the programs in it," says Alumni Association President Cheryl Youtz. "Our initial pledge to the capital campaign was used to expedite renovations in the auditorium. In order to stress the importance of continuing to 'set an example,' the association renewed a pledge of \$100,000."

In honor of the association's efforts, the building was renamed Alumni Hall, although the name of the performance facility remains Lyte Auditorium.

The first step in renovating the auditorium was to remove asbestos to protect the health of students, faculty and visitors, according to Dr. Daniel M. Heslink, associate professor of music and department chair. Then, a round of acoustical and other improvements began.

"New acoustic shells and acoustic clouds dramatically changed the ability of performers to hear correctly on stage," Heslink says. "Soft musical passages can be accurately heard in all locations on stage and in the audience section, and student musical organizations are able to execute performances with more precision and expression. Outside organizations that use our stage, such as the Lancaster Symphony Orchestra, comment on the excellent acoustic conditions of the auditorium."

New lighting and sound equipment also added to the professional quality and technological reliability of outside events and student performances and productions. "The improved technology has allowed the University to sponsor new guest artists," Heslink says. "Previously, we were unable to accommodate their technological needs."

The audience also benefited from professional decor and comfortable seating, which allow people from the community, students and others to better enjoy their experience.

Scholarships Make It Easier to Achieve

Jason Jacobs (in photo, on left) remembers sitting in math class one day when Dr. Robert T. Smith, took him aside and revealed that professors in the math department had voted unanimously to award him a scholarship.*

"I was really excited," says Jason, a junior from York who is majoring in math. "I really dig the math department, and I appreciated that they looked at me as being worthy."

Jason, who works at a restaurant during the summer to earn money for school, says the scholarship will help relieve some of the financial burden, allowing him to focus even more on his studies. In the future, he hopes to earn a Ph.D. in mathematics and perhaps become a professor himself.

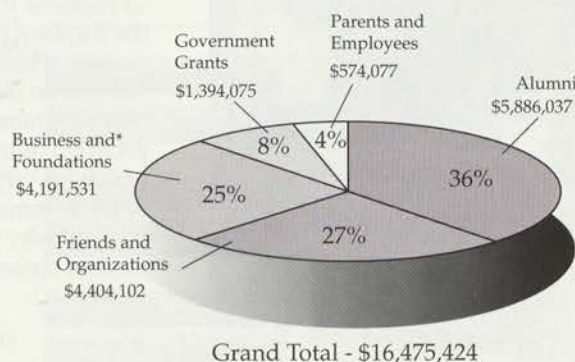

Christopher Rachor (on right), a junior math education major from Lancaster, also was very happy to receive a math scholarship: It means he won't have to work as a cook to make ends meet this semester. "I take out loans and work to support myself and my education," he says. "The scholarship is a big relief."

After graduation, Chris would like to take a breather and hike the Appalachian Trail before looking for a job as a teacher. After that, he will be ready to devote himself to helping young people learn and grow.

**Both Jacobs' and Rachor's scholarships are funded through a bequest made by an anonymous donor.*

"I decided to go into education because I wanted to have a job that I felt was contributing to individuals. Teaching is one of the best jobs you can have."— Christopher Rachor, a junior math education major

*Includes Matching Gifts

A COMMITMENT MADE

"The money allows us to be more flexible, to reach out and hire more peer educators."— Sara Lindsley, BSN, MS, director of wellness and community service programming

Building Community, On- and Off-Campus

It's a beautiful day, and students from the University, along with youthful helpers from the Lancaster YMCA, work with energy and enthusiasm clearing trails and building footbridges in a nearby state park.

According to Sara Lindsley, BSN, MS, director of wellness and community service programming, without an infusion of funds from the capital campaign, programs like these would not continue. "One of our themes is building community, both on campus, where we're working together on activities, as well as reaching out to the larger community," Lindsley says.

Programs that have benefited from the funding include the Empty Bowls project, which raised funds to combat hunger, an intensified alcohol education program and the Into the Streets program, which dispatches a phalanx of 400 MU students into various part of the community for a day of service, thereby encouraging volunteerism among MU students.

First African- American/Latino Scholarship Awarded

Garvia Hill '76 chaired the scholarship committee that selected Marcella Mellinger '98 to be the first recipient of the newly established African-American/Latino Alumni Scholarship, an award based on scholastic achievement and financial need.

"Marcella represented a total package," Hill notes, adding that the student's high grades and commitment to give back to the community convinced the committee that Mellinger was the ideal first recipient. A native of Venezuela, Mellinger learned to speak English only two years before enrolling at the University, where she earned a 3.8 GPA and graduated with a bachelor's degree in social work. She is now studying for a master's degree in social work at Temple University.

The African-American/Latino Alumni Scholarship effort is a success story in itself, raising \$36,000 for the scholarship in the span of a two-year effort. "We felt that we needed to put something back into the University that we had been degreed through," Hill says, explaining why the scholarship was started.

Many Reasons for Giving

Why did people give to the capital campaign?

In the most general sense, it was because they believe in the mission of the University, and they know that MU can fulfill its mandate only if it has the proper resources on hand.

Dr. Mary Elizabeth Dixon, a former physical education professor and a coach of many women's sports, arrived at the University when Harry S. Truman was president and did not retire until Ronald Reagan was in office. Now, at 82, Dr. Dixon has

"I learned first-hand the quality of people at Millersville University, from the president on down. There's something unique here. Dedicated people are working together; you don't find that everywhere. Millersville University has that little extra spark." — Sarah Vanderslice, chair, Special Gifts Committee

donated funds for students majoring in the health fields, with the aim that the money be used to buy up-to-date equipment so young people can learn and carry new knowledge into the future.

"It's always been a well-known fact that our students can get into the best medical schools," she says. "I'm very interested in education, especially in the health fields, and I wanted (with my donation) to take the bull by the horns."

A deep feeling for students and a wish to carry on the plans of her late husband, geography professor Robert N. Ford, who passed away in 1996, led Darlene Ford to contribute funds to the renovation of McComsey Hall and to establish a scholarship for geography students. She has been involved with raising funds for the Campus Club for many years.

Also an educator, Mrs. Ford taught business classes and Spanish at Penn Manor High School until retiring in 1981. "Since I have no children, I wanted to leave a legacy for others," Mrs. Ford says, explaining her donations. "Also, I feel that my money must stay in Pennsylvania."

"I have a wonderful life. Fate smiled upon my husband and me. So, I want to share with others the harvest we reaped in our lifetime."

"I came from a very poor family" says J. Freeland Chryst '50, chair of the campaign cabinet, and for whom the old bookstore was formally renamed Chryst Hall. "I went to college on the G.I. Bill. Millersville did a lot for me. I knew I wanted to give something back."

Charles Hash, chair of the Benefactor Gifts Committee, points out that he and the committee found two types of people willing to write the University a check for a substantial sum: those who are committed to improving the quality of higher education and those who saw their donation to the University as ultimately benefiting the community at large.

Hash, whose contribution to the capital campaign was recognized through the renaming of Myers Hall as the Charles and Mary Hash

Building, says, "People understood that this campaign, with so many of its funds going to the fields of science and communication, will take us even further into the technological age."

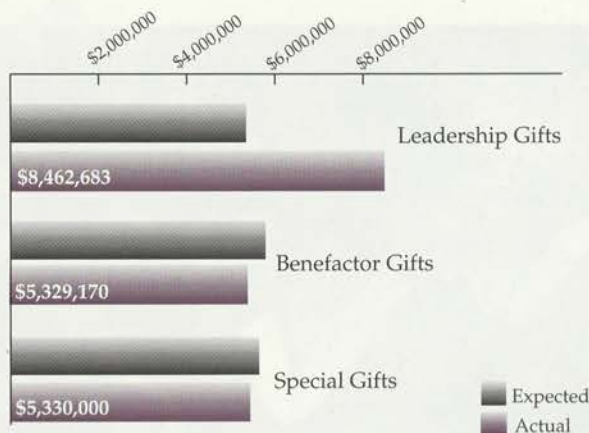

All told, faculty, staff and administration—including retirees—donated over \$1,000,000 to the campaign. In the words of the chair of the Faculty Giving Committee, Charles Scharnberger, Ph.D., from earth sciences, "Most of the faculty were very aware of the need for improvements, so raising the funds was not a difficult task."

"State-of-the-art lab facilities will allow students to do more independent research, which they can present at science conferences with their professors." — Dean Albert Hoffman

Learning That One Can Do Much More

Anthony Suliveras '98 credits the Lancaster Partnership Program with inspiring him to go to college.

"The people in the Partnership Program instilled it in my mind to go to college," says 23-year-old Suliveras, who graduated with a bachelor's degree in industry and technology. "I never thought about it before. It wasn't something that was discussed in my home."

A COMMITMENT MADE

Launched in 1988, the program is a joint venture between the University, the Lancaster School District and businesses throughout the region. The program assures all ninth-grade African-American and Latino students in Lancaster City schools that, if they complete high school and meet income guidelines, those higher education costs not covered by state and federal grants will be funded by the Partnership's corporations. Students who follow a specific academic program, remain in good academic standing and graduate from J.P. McCaskey High School, will be admitted to Millersville University.

Anthony was among the first Partnership students to graduate from MU and now works for High Industries in Lancaster as a production supervisor trainee.

"It did a good job in giving me what I need to succeed," he says. "Before I got involved with the Partnership, I thought I would go to tech school and become a draftsman. Now I know I can do so much more."

Not only do funds from the capital campaign open more educational doors for young minority men and women, but the program also helps them stay in college and graduate. The retention rate for Partnership participants is 64 percent, compared with about 35 percent for minority students who have not participated in the program.

"Millersville is one of the great universities in Pennsylvania. What makes it great is its leadership, the attitude and competence of the faculty and, of course, the quality of the students."— Charles Hash '48, chair, Benefactor Gifts Committee

A promise kept

When the final figures for the capital campaign were tallied, the University had raised \$16,475,424 in private money. As promised, the state provided 3-1 matching funds for the facilities portion of the campaign. Millersville University's first capital campaign had earned \$27.5 million.

"The secret of our success," says President Joseph Caputo, "was the enormous outpouring of support for the University. This campaign wasn't as much about money as the way people feel about the University. We tapped into a reservoir of respect and admiration."

"This should make the faculty and staff feel very good, because the money goes to them. It's a statement of their worth."

That sentiment is shared by the wider community, as evidenced by laudatory editorials that appeared in both the *Lancaster New Era* and the *Intelligencer-Journal*.

The success of the capital campaign has also created a new sense of possibility, an unprecedented level of self-confidence, independence and empowerment. And it is the genesis of a fresh vision for the future.

Additionally, President Caputo reveals, the campaign has transformed the role of Millersville University's president—and that of all State System university presidents—forever. Declining support

*"The campaign was an enormous success because of the efforts of all the people involved. This was a venture into the unknown, and they were pioneers."
J. Freeland Chryst '50, chair, capital campaign cabinet.*

from the Commonwealth will require State System university presidents to tap into their entrepreneurial spirit in order to fulfill the needs of their constituency.

"There's been a lot of angst about that, but I've embraced the change," President Caputo says. "It's empowered me to do more for the University. In a new way, I could help increase our resources—something that was desperately needed."

"The presidency will never go back to the way it was, and the Commonwealth will never view us the same way again. But we're on stronger ground."

What's next? In the future, faculty and staff may have the opportunity to work directly with potential donors to fulfill the needs of their departments. And President Caputo is

not ruling out the possibility of another major capital campaign in four years, when the University marks its 150th anniversary. In the meantime, The 1998-99 Annual Campaign is targeting \$1 million in gifts to the Annual Fund and endowments.

For now, though, the University must live up to the high expectations of its donors.

"People think well of us," President Caputo says, and we have to continue to earn that respect.

"Anybody who was involved in the campaign should feel pretty good. No matter how little or how much support they gave, it was significant."— Gabriel J. Geiger '52, chair, Leadership Gifts Committee

Reshaping the 'Ville

By: Félix Alfonso Peña

What do you need in order to reshape a University?

You need money, of course, but, before that, you need a plan. Before that, you need few very good reasons—or two, or more—that warrants devoting present and future resources to an ambitious project that will reshape the physical configurations of the institution.

At Millersville, the reasons are compelling: individual departments and programs that are dispersed throughout the campus, inadequate space for certain types of events and activities, and heavy traffic, with attendant congestion and safety hazards, through the campus.

As with many institutions, MU has grown program by program, building by building, and the time has come to rearrange the constituent parts and fill

in the missing pieces so that they function well together.

Hence, the Facilities Master Plan, fresh off the drawing board and, per Vice President for Finance and Administration Bernice Rydell, as achievable as it is necessary.

"The ingredients of this plan reflect the needs of the University," says Rydell. She chaired the University-Wide Facilities Master Plan Committee, whose members included faculty, staff, alumni, and a representative from the borough. The committee worked with H2L2, an architecture, planning and interior design firm from Philadelphia, to shape the preliminary plan.

"It's not a wish list," she avers. "It's a list of buildings and facilities that must be improved in order to meet the needs of the students and the University. The committee and consul-

A view of the pedestrian mall as envisioned in the Facilities Master Plan. Gordinier Hall is the octagonal building on the left, across from the Student Memorial Center.

tants, have done a fine job of meeting our needs well into the 21st century."

She is careful to point out, however, that, "We are not planning significant growth in the number of students. This was an important consideration in the plan."

As proposed, the Facilities Master Plan includes detailed recommendations for traffic flow, roadway construction, pedestrian malls, academic malls and campus beautification; renovation and relocation of academic buildings; relocation and development of some athletic facilities; and construction of additional residential living areas.

The end result will be a more productive, more livable, more walkable, more attractive campus, with fewer traffic problems for students and the borough residents.

Here, in a nutshell, are the proposed changes to the Millersville campus according to the Facilities Master Plan.

Creation of core areas

A northern academic core will be created.

School of Education facilities, currently in Stayer Education Center, will move to an expanded and renovated Landes Residence Hall where they will be closer to the center of campus and to the music program, an important and beneficial change, says Rydell, who notes that, "the close relationship between the School of Education and music is very significant."

A new theatre arts education complex will expand upon Alumni Hall-Lyte Auditorium and include a new music academic building housing faculty offices, and two auditoriums of

300 and 1,200 seat capacity, in addition to Lyte Auditorium, which holds 700 seats. Rydell points out that programs such as music, currently distributed among several buildings, will then be centralized.

While still housing the Jenkins Center, the rest of Stayer and the immediate area around it would then be converted to an athletics recreation zone. The building would house men's and women's athletics offices, the costume shop and smaller programs. Adjacent lands would be used for new athletic fields and a large, all-purpose Sports Education Center which could serve for indoor sports as well as for events such as commencement and performances by such big draws as the U.S. Navy Band.

"We've done without adequate field space for years," says Rydell. Gesturing toward Pucillo Gymnasium, she adds, "When Pucillo was originally planned as a home for health and physical education, athletics and recreation, it was twice the size it is now, but it was scaled back because the money was not available."

Also in the vicinity would be a new multi-level parking facility to serve both the performing arts complex and the new athletic facilities.

The southern side of the campus would also see significant changes.

McComsey Hall, which is occupied by departments within the School of Humanities and Social Sciences, will be renovated, to include an addition, and a new academic building would be located nearby. Neighboring Osburn Hall will also benefit, receiving a long-overdue renovation and a small addition. (See "Time and money," below.)

The University also plans to build a new residence hall with facilities that represent the lifestyle of today's students, and set aside an area to construct student apartment-style housing.

Reflowing traffic

Equally far-reaching is the plan to drastically alter the flow of traffic through the University. Currently, George and Fredericks streets, both roads under Pennsylvania Department of Transportation control, serve as the principal traffic arteries into and through the University, and they are at their limit.

The Facilities Master Plan proposes to reconfigure traffic, sending much of it around the campus rather than through it, and directing campus-bound traffic to parking areas strategically located on the periphery of campus.

To accomplish this, George Street would run one-way south between Cottage Avenue and Frederick Street, and a widened High School Avenue would continue to run one-way north

between Frederick and Cottage. West Cottage Avenue would be extended to intersect with Duke Street, with improvements and road construction around the perimeter of the University.

The number of parking spaces will increase by almost 600.

Rydell explains that, "The committee spent a great deal of time thinking about the distribution of traffic, and not just within the University, but within the borough as well.

"The change is also about safety; pedestrian pathways would keep people out of the path of vehicles."

The removal of the traffic will allow pedestrian or academic malls to be created, a marked improvement over the current situation, where busy streets and the attendant noise divide the heart of the campus. The malls—with new walkways and quadrangles linking buildings—will be located between Gordinier Hall and the Student Memorial Center (with the closing of George Street, from Frederick Street south), and on Frederick Street, where it currently exists east of the intersection with

Facilities Master Planning Committee

- Mr. Brock Bromberger, Student Senate
- Mr. Dennis Coleman, director of grounds
- Dr. Charles Denlinger, chairperson, mathematics
- Mr. Gerald Eckert, vice president for University advancement
- Dr. Richard L. Frerichs, coordinator, field experiences
- Mr. Richard Fritz, communication specialist, information technologies
- Dr. Perry Gemmill, chairperson, industry & technology
- Dr. Daniel Heslink, chairperson, music department
- Dr. Charlene Jaeger, associate vice president, student development
- Dr. Francine McNairy, provost and vice president for academic affairs
- Mr. Mike Morris, Manager, Millersville Borough Office
- Mr. Dave Myer, associate vice president, finance & administration
- Dr. Virginia Palmer, nursing
- Dr. Bernice R. Rydell, vice president, finance & administration
- Mr. Joseph Sciarretta, coordinator, Act 101
- Mrs. Linda Suskie, assistant to the president for special projects
- Mrs. Marge Trout, director, women's athletics
- Mr. Paul G. Wedel, vice chairperson, council of trustees

Central Campus

- A. New residential complex parking lot.
- B. North campus parking lot.
- C. New north/south pedestrian pathway system.
- D. East Frederick Street parking lot.
- E. West library entrance sidewalk: widened.

Academic Area

1. McComsey addition.
2. New academic building.
- A. North George Street: one-way south
- B. High School Avenue: widened and one-way north.
- C/D. New academic quads.
- E. West Frederick Street: closed east of McComsey.
- F. New road: connection between Frederick and James Streets.
- G. James Street parking lot.
- H. James Street: closed west of High School Avenue.
- I. New James Street parking lot.

High School Avenue.

And, at long last, the University will finally have an entrance—two, in fact. A new entrance, across from Model Avenue, will be the major gateway to MU. The University will construct a wall on the northern end of the campus to mark that access.

Time and money

Some aspects of the proposed plan are being further examined and fine-tuned during talks between University and Millersville Borough officials, as well as other constituencies.

Although a firm timetable for completion of the projected work has not been set, Rydell hopes that it will be completed within 15 years. In fact, funding for some projects has already been designated.

MU set some money aside out of its annual budget for constructing the entrance to Lyle Hall, now the student services center, and will also pay for the conversion of Landis Hall to house the School of Education

The state, meanwhile, has established a \$150 million academic facili-

ties renovation program which will match institutions' funds two-to-one. Millersville will use its share from the state, \$11.2 million, to renovate Osburn and McComsey halls.

The two most expensive projects, the sports education and performing arts centers, will require assistance from the private sector. These are to be incorporated into the next capital campaign.

Rydell notes that, throughout the process, MU will continue to work closely with the Millersville Borough Council. "In our sessions with the borough council, they have been very supportive, and the borough planning commission has generally endorsed the plan."

Although the end product remains at least fifteen years and innumerable personnel hours of work distant, Rydell speaks with confidence about its impact. Glancing at the consultants' map of the new Millersville, she says, "The vitality of the campus will permeate from north to south."

ALUMNI INTEREST

Bermuda Cruise '98

On August 15-22, 185 State System alumni, faculty/staff and friends traveled on a cruise to Bermuda. Twelve of the fourteen schools had representation for the first-time effort. Plans are underway for another trip in 1999 or 2000.

Alumni Association calls for award nominations

To honor those who have served the University in an exemplary fashion, the MU Alumni Association is calling for nominations for the Distinguished Service Award and the Honorary Alumnus Award for Outstanding Service.

The Distinguished Service Award, the highest honor bestowed by the Alumni Association, is given to an alumnus who has brought honor to him/herself, the University, and/or the Alumni Association.

Alumni, faculty, administrative staff or any person familiar with the person's achievements may nominate a candidate by submitting a letter of recommendation to the alumni office not later than March 20, 1999. The letter should outline the individual's achievements in detail: service qualifications (including location and length of service), how the service was accomplished, a thorough description of relevant achievements, and a summary of the nominees achievement.

The recommendations should specify what beneficial impact the nominee's service had on the Alumni Association and the University.

Persons nominating also may include additional materials to substantiate the value of service. Submitting a photograph is also encouraged.

The Honorary Alumnus Award for Outstanding Service, established in 1991, is awarded to non-alumni who have performed continuous service to the University or have made significant contributions of time, talent or wealth to it.

Nominations should include detailed information concerning the individual's service, and they must be submitted to the alumni office by March 20 for consideration.

Recipients of both awards will be honored at the special Alumni Convocation, to be held on May 1, 1999, during Spring Reunion Weekend.

"For bringing honor to himself/herself, the University and/or the Alumni Association."

"For continuous service to the University, or for significant contributions of time, talent or wealth to it."

Nominations open for Alumni Board of Directors

The Nominations and Awards Committee of the Alumni Association is now accepting nominations for its board of directors. Ten vacant seats are to be filled in 1999, all for two-year terms.

The board of directors comprises a president, president-elect, secretary, treasurer and fourteen elected at-large members. Standing committees of the Association include: Financial Planning, Student Advancement, Nominations and Awards, Alumni Development, Community Relations and Alumni Programs. The board meets three to four times annually, usually on Saturday mornings. Board members are required to actively participate on one standing committee.

Nominations are currently open to all alumni. Nominations may be submitted either in writing or by phone. The deadline is April 1, 1999.

Candidates who are interested in placing their names on the ballot may attend the February 6 meeting by calling the Alumni Services Office.

Mailing address: MU Alumni Association, c/o Alumni Services Office, Millersville University, PO Box 1002, Millersville, PA 17551-0302. The phone number is 800-681-1855. For additional information, please call Alumni Services Director Steven DiGuiseppe '82.

Get your licks in with the Alumni Jazz Band

Musicians and jazz lovers can look forward to a weekend of jazz workshops and performances, Friday and Saturday, February 26-27, 1999. Included will be a series of hands-on clinics which will address jazz rhythm section performance skills and rehearsal techniques for jazz improvisation.

The MU Jazz Band and Bob Troxell's Big Band will perform on Saturday night.

For more information, contact Keith Wiley, 717-872-3460, e-mail <KWiley@marauder.millersv.edu>, or visit the Web page, <<http://www.millersv.edu/~music/jazzband.html>>.

MEDAL Fund sets Holland excursion for 1999

A trip to Holland will be the MEDAL Fund's featured spring excursion, April 11-18, 1999.

Travelers will get to see the windmills, smell the flowers, ride a bike, taste Amsterdam, enjoy art and, of course, relax, on this trip to The Netherlands.

Points of interest on this tour include:

- Aalsmeer, where cut flowers and potted plants are delivered for auction;
- Zaanse Schans, a fully inhabited, open-air conservation area and museum of original buildings vividly depicting Dutch life in the 17th and 18th centuries;
- Madurodam, the miniature city;
- Scheveningen, the fashionable seaside resort;
- Keukenhof Lisse Holland, the center of the oldest and best-known bulb growers;
- Delft, the old and beautifully preserved historic center, with picturesque arch bridges, canals and canal houses;
- Amsterdam's Rijksmuseum, with its wealth of art treasures; and
- Bruges, Belgium, known as the "jewel of Medieval European cities."

The educational host will be Marjan van Schaik, MU English professor, who was born, raised and educated in Holland and worked there as a tour guide for several years.

Cost of the trip is \$2,299 double occupancy; single occupancy is \$2,599. This price includes a \$120 tax-deductible contribution to the MEDAL Fund Scholarship Program. For more details and reservations, call 717-872-3352 or 800-681-1855.

**Millersville Employees Dedicated to the Advancement of Learning*

Alumni Calendar of Events

Details will arrive by mail as we near each date in your particular area.

For information and to make reservations:

Phone: 800-681-1855 • Fax: 717-871-5050

E-mail: Send to Sarah Bernot, alumni services secretary,
mualumni@marauder.millersv.edu

For the very latest calendar of events, check out the Alumni home page:
<http://www.millersv.edu/~alumni>

Date Event/Area

January

- 8-16 Aruba -MEDAL Fund Travel Program
9 *Ragtime/Cats*, Broadway, New York City -MEDAL Fund Travel Program
30 State System Alumni Event, Hershey (more details to come)

February

- 6 Alumni Board of Directors Meeting, Old Main Room, Gordinier, 10 a.m.
6 African-American/Latino Alumni Mentoring Program Meeting, Duncan Alumni House

March

- 27 *Bring in 'Da Noise, Bring in 'Da Funk* or *Les Miserables*, Broadway, New York City -MEDAL Fund Travel Program

April

- 9 York County Alumni Branch Annual Dinner Meeting @ Rutter's Restaurant
11-18 Hello to Holland -MEDAL Fund Travel Program
17 How to Get Into College - Student Memorial Center
24 *Rent* or *Ragtime*, Broadway, New York City -MEDAL Fund Travel Program

May

- 1 Spring Reunion Weekend
22 *Phantom of the Opera* or *Miss Saigon*, Broadway, New York City -MEDAL Fund Travel Program

The Alumni Office also is responsible for the MEDAL Fund Travel Program, which features one-day and extended trips which are open to all alumni and friends. Upcoming 1999 trips include Gardens of England (June 24-July 5), Vienna, Prague and Budapest (September 24 - October 4), Australia and New Zealand (September 30-October 18) and the *Lion King* or *Beauty and the Beast* (October 3). For more details, contact the Alumni Services Office.

New campus journal seeks submissions

MUsings, a journal dedicated to works depicting the lives and experiences of women, seeks submissions of work from women and men for its inaugural edition, to be published in the spring. The theme for the issue is "Celebrating Women: Identity, Community, and Vision."

An interdisciplinary project organized through the Women's Studies Program, *MUsings* accepts submis-

sions from members of the greater campus community—including alumni and friends. Submissions can be in many forms: literary, historical and personal essays, coursework, research articles, creative writing, graphic arts and photography.

More information is available by contacting Women's Studies, 717 871-2025, or e-mail <emascial@marauder.millersv.edu>.

Homecoming 1998

Cool and clear fall days were the setting for a memorable Homecoming weekend filled with festive fun: a Mummer's band, fireworks, 40 greyhounds, a one-ton cow, the Kingston Trio, the '88 football team reunion and more.

A shotgun golf tournament on Friday morning kicked off the weekend. First-place foursome winners, with a score of 63, were William Klock '87, Ronald Lawhead '88, Steve Buterbaugh '87 and Todd Brubaker '87. Five other prizes were awarded in several categories.

Fireworks—donated by Kimmel Schaefer '90—added lots of sparkle to Friday evening, and six new stars

took their place in the Athletic Hall of Fame that night. (see picture in "Sports").

The Millersville Parade—a community/university effort with over 100 entries—wound through the two-mile borough route, showcasing the Uptown String Band Mummies (see photo below; special note: Millersville alumnus Bob Haywood '72 is a member). Also included were:

fraternities, sororities, the Turkey Hill Cow, the Greyhound Alliance (with over 40 costumed canines; see photo below), antique fire engines, six marching bands—including the Penn Manor High School, Millersville Marauder Marching Band, the New Edition Band and the Columbia VFW Band—twirlers, community groups, local politicians, floats and much more.

ALUMNI INTEREST

The afternoon football game (photo at right) was a great win over the West Chester Golden Rams (34-31). Tanya P. Henne and Christopher J. King (below) were crowned Charity Queen and King. The contest raised \$26,559 from 14 candidates.

The African-American/Latino Alumni Scholarship Program held a special raffle on a 1998 Green Bay Packer signed helmet (obtained through Wil Lewis '80, a Packer staff member).

A special reunion was celebrated by the 1988 Marauder football team (top right) on Saturday, as well. Over 40 former players and coaches attended the afternoon football game, followed by a reception and dinner in Gordinier.

Saturday concluded with a sellout performance by The Kingston Trio (facing page) in Lyte Auditorium in Alumni Hall.

CLASS NOTES

Pre 1960s

Ruth L. Wolfgang '28, Lititz, wrote a feature story, titled "Never Too Late For Love," for the September 1998 issue of *Guideposts*, an inspirational journal.

Alice B. Ogline Fox '41, New Oxford, and her husband attended the 95th birthday celebration of **Theresa Nester Craven '23**.

Emily Linton Reath '42 and husband Robert, Kirkwood, celebrated their 50th wedding anniversary on June 5, 1998.

Mary B. Sheaffer Kammerer '43 and **Rev. John W. Kammerer '44**, Lancaster, celebrated their 55th wedding anniversary on June 27, 1998.

Eula Mae Bender Kline '46 and husband Robert, East Petersburg, celebrated their 50th wedding anniversary on June 5, 1998.

Dr. Clarence Preitz '51, Alberta, Canada, professor emeritus at the University of Alberta, Edmonton, is serving as special visiting professor to Joetsu University of Education, Niigata, Japan, for the fall 1998, term.

Dr. Edward H. Silverman '54, Mohnton, a retired therapist, now channels his time and energy into artistic expression while teaching classes at the Wyomissing Institute of Fine Arts.

Ron Koble '56, State College, retired after a career that included such roles as industrial arts teacher, high school principal and university professor.

Gloria Wolfe Wentling '58, Annville, retired from teaching first grade at Cleona Elementary School. She has taught for more than 30 years.

1960s

A mini-reunion of friends recently took place, including **Luke Scipioni '59**, **Paul Wolfgang '59**, **Eileen Heller Smith '61**, **Barbara Wilds Lineaweaver '61**, **Barbara Becker Wendt '61**, **Marijane Smith Scipioni '61**, **Louise Berkstresser Brown '61**, **Barbara Bealer Wolfgang '61**, **Rosanna Sweden Strausbaugh '61**, **Thomas Brown '61**, **Dr. Roy Strausbaugh '61**, **Gary Wendt '61**, and **Mahlon Lineaweaver '62**. The group gathered at the home of Gary and Barabara Wendt in Harrisburg.

Arthur F. George Jr. '62, Palmerton, was inducted into the Pennsylvania Sports Hall of Fame, Carbon County Chapter.

Catherine J. Walzl Walker '64, Bethel Park, retired as a teacher from Gauger Middle School, Delaware.

June L. Blair '66, Easton, a sixth grade teacher at Lower Nazareth Elementary School, was named 1998 Wal-Mart

Teacher of the Year.

Charles L. "Chick" Williamson '67, Davidsonville, Md., retired from the Prince Georges' County Board of Education, Md.

Kathleen Anne Wolfe Miller '68, Norco, Calif., teaches at Riverview Elementary School in Norco, is an award-winning PTA leader, was elected teacher of the year by her staff, and is a fellow in the Inland Area Writing Project of the University of California at Riverside.

Forrest E. Adams '69, Mechanicsburg, was hired as principal of Hempfield High School.

Raymond A. Horn Jr. '69, Denver, received a Ph.D. degree from Penn State University and currently teaches in the Cocalico School District.

1970s

Barbara Ann Ruth Brophy '70, Leesport, is the new library director at Schuylkill Valley Community Library.

Ronald C. Burger '70, Stockbridge, Ga., received the Clara Barton Volunteer Leadership Award presented by the Metro-Atlantic Chapter of the American Red Cross.

Robert B. Good Jr. '70, Lititz, retired as a science teacher in the Eastern York School District.

Stephen Kepchar Jr. '70, senior vice president of investments at Dean Witter Reynolds, Inc., was named a member of the Lancaster Preparatory School Board.

Dr. Mark Ness '70, Bloomsburg, was named director of the master of science education program and assistant professor of earth sciences at Lebanon Valley College.

Dr. Delmar W. Bachert '71, Dowling, Mich., left North Carolina University after 20 years to become director of the Battle Creek Public Schools' Outdoor Education Center.

Russell A. Benfer '71, Turbotville, was appointed department chair and teacher of industrial technology in the Austin Area School District, Austin.

Marie Garret Winger '71, Lancaster, staged "Macha's Curse" as part of the Mid-Atlantic Story Tellers gathering in June 1998.

Dennis W. Fisher '72, Dover, Del., teaches at Dover High School and was named to Who's Who Among America's Teachers for 1998.

Robert Haywood '72, Huntingdon Valley, appeared live on ABC-TV's *The View* with Barbara Walters as part of the band, Fats

Montana and the Mummer Kings.

Janet E. Garretson '73, Butler, was appointed executive director of the Freedom Valley Girl Scout Council.

James C. Hower '73, Lexington, Ky., was appointed editor in chief of the International Journal of Coal Geology and is co-author of the Atlas of Coal Geology on CD.

Judith Anttonen '73, Millersville, a teacher at Fritz Elementary School, captured 23 medals in the 10th annual Lancaster Senior Games.

Jay Bruce Niesley '73, Lancaster, was named vice president of human resources for worldwide building products operations, Armstrong World Industries.

Jeff Roger Bradley '74, **Tim Schuler '86**, **Connie Buckwalter '92**, **Justin Krebs '96** and **Brenda Pennell '97** are all members of the 1998, Inside Track/Adidas racing team.

Kathy Ann Snook Gingrich '74, Fairbanks, Ala., is director of the Early Childhood Lab School at the University of Alaska, Fairbanks.

Michele L. Hoffman '93 and Michael D. Harmon, on June 13, 1998, in Steelton.

Rebekah E. Lumpkin '93 and Darren E. Straka on July 4, 1998, in New Jersey.

FAMILY ALBUM

Been there, done that— and now moving on

"I'm still here!" says Barbara Nichols cheerily. Not her typical phone greeting, but on this day in mid-October, Barb is only a scant two weeks from her official retirement date, October 23, 1998.

If she wants to look back at her alumni services career and simply say, "been there, done that," Barb is certainly entitled. During the past 24 years, the first nine with the MU Alumni Association, the remainder with the MU Office of Alumni Services, she served in every possible capacity, from clerk to interim director.

"When I began working for the Alumni Association in 1974, the year after I graduated from the University as a non-traditional student," says Barb, "I was the sole employee. People in the office tease me about it, but I actually kept the alumni records on three-by-five cards. I tracked contributions, and I was the one who did class notes and the report of gifts. Somebody once calculated that I typed up the class notes for the Review 80 times." A self-described one-woman band, Barb's duties even included bundling the Review and delivering it to the post office.

She even represented the landlord. "The association offices were on the first floor, and we rented out the second and third floors of the building [now the Duncan Alumni House] to female students," says Barb. "I was the one who collected the rent."

She became a University employee in 1983, with the establishment of the alumni services office. Although hired in a clerical capacity, she eventually served four times as interim director. "I never applied for the position of director," says Barb. She will retire as assistant director/alumni services.

Very much a "people person," Barb says she particularly enjoyed the variety of alumni and miss working with them. "I found the mixture of the two alumni groups, those who graduated from Millersville State College and those who graduated from Millersville University, very enjoyable to work with

Barbara Breen Nichols '73

because they are so totally different.

"I won't miss getting up at 5:30 a.m.," she says, explaining that she likes having time to catch the news, walk her German shepherd and prepare for work without rushing. "And I won't miss working evenings and weekends," she adds.

Now she will be enjoying more time with her husband, Paul Nichols, MU professor of earth science emeritus, who retired three years ago. "The solarium which is part of our home requires a lot of maintenance," she notes, "so I'll be spending plenty of time there, and I like cooking, too."

She also plans to volunteer at her church in Lancaster, ministering to the congregation as a caregiver, "but I don't plan to get involved in a lot of different activities. I would rather do one thing, and do it well."

For those members of the Review staff who have had the pleasure of working with Barb over the years, her departure is a bittersweet moment. We are happy that she will have time to enjoy more of life's pleasures, but we shall miss her wealth of knowledge about alumni and the University, and, even more, we shall miss Barb's good humor and the boisterous laugh that leavened many a hurried moment. From all of us, our best wishes for a long and happy retirement.

CLASS NOTES

Natalie Mancini '93 and Mark Lawton '93, on July 11, 1998, in Collegeville.

Shelly L. Neff '93 and Ray Arment, on June 27, 1998, in Conestoga.

Kristin Neill '93 and John J. Kraus III, on July 25, 1998, in Lancaster.

Janelle Miller Kershner '93 and husband Mark, a daughter, Haley Elizabeth, on November 10, 1997.

FAMILY ALBUM

A small thing, but a big difference

Since retiring three years ago from teaching industrial arts at Hunterdon Central High School, Flemington, N.J., Jerry Brenner '64 has found quite a mix of activities to occupy his time: He builds Windsor chairs, he farms part-time, and he helps people in far-off lands get enough iodine in their diet.

He's proud of the chairs he builds, and he derives much satisfaction from the farming, but he's passionate about the iodine, even journeying to Xinjiang Province in western China to help with the Kiwanis International-sponsored project to overcome the iodine deficiencies in the diet of the local people, who are Uygur's, China's largest ethnic minority.

How significant is it to overcome the iodine deficiency?

"The average IQ went up by 15 percent," says Brenner. "Child mortality went down by 50%, and the children are generally much healthier. Adding iodine also cut the mortality rate in sheep and chickens. It even increased rice production."

Brenner beams when he shows photos of the team—which included himself, a psychologist, a medical doctor and the doctor's wife—in the Xianjiang village of Hotien. Whether at an official function or on the rustic streets, the foreigners are surrounded by friendly faces. The people are grateful

Jerry Brenner '64

for the improvement in their lives, says Brenner, but making the change required ingenuity.

"Originally, they tried introducing iodized salt," says Brenner, "but that was a problem because the government has a monopoly on salt. They tried iodized capsules, and even tried injections, but the best and cheapest solution was to drip iodine into the water used for irrigating crops."

Brenner lives in Ringoes, N.J., with his wife Patricia. They have two grown children. He became involved with the iodine project as a member of the Lambertville, N.J., chapter of Kiwanis International, and journeyed to Xinjiang last April, serving as an independent observer.

Kiwanis has set a goal of virtually eliminating iodine deficiency by 2000. With a smile, Brenner notes that, "Last spring, we added iodine to the drinking water of 1.2 million people."

husband **Bob '94**, a daughter, Riley Elizabeth, on August 14, 1998.

Deaths

Anna Shreiber Anderson '19, Lititz, passed away on June 3, 1998, at the age of 99.

Evelyn Eby Kurtz '19, Lititz, died on July 24, 1998. Mrs. Kurtz taught in Lancaster County one-room schools for ten years. She was 99 years old.

Hazel Baker Ferguson '22, St. Louis, Mo., passed away on July 15, 1998, at the age of 95. After a teaching career in Lansdowne, she and her husband operated a dairy farm near Octorara Lake.

Tammy Steranko Spevak '93 and husband Drew, a son, Logan William, on September 19, 1998.

Lisa Van Horn Grimes '93 and husband Daniel, a daughter, Emily Marie, on May 5, 1998.

Jennifer Blosser Brougner '94 and husband Jeffrey '93, a daughter, Sydney Jacqueline, on May 19, 1998.

Jennifer Roberts Astheimer '94 and husband Andrew '94, a daughter, Rachel Ann, on January 26, 1998.

Misty Weinoldt Bowman '94 and husband Troy, a son, Aaron, on January 21, 1997.

Sallyanne Ziegenfuss Wolk '94 and

CLASS NOTES

Mary Smouse Holmes '23, Sierra Vista, Ariz., died on September 19, 1996. She taught elementary school for 31 years. She was 94 years old.

Alma N. Keiper '23, Martinsburg, passed away on March 23, 1998, at the age of 101.

Sara Hambleton Currie '27, Marshfield, Mass., died in April 1990. Currie was a teacher in Philadelphia and Massachusetts.

Kathryn Sturgis Herr '27, Lititz, a former teacher, homemaker, and office worker for Eby's Mill, passed away on July 2, 1998, at the age of 90. Her family owned Sturgis Pretzel Bakery, Lititz.

Elizabeth Reese Siemasko '28, Shenandoah, died on August 5, 1998. Mrs. Siemasko was a teacher for 44 years in Pottsville area schools. She was 90.

Anna Jones Hauck '31, Ephrata, passed away on June 13, 1998, at the age of 87. She owned and operated Hauck general store in Neffsville.

Lillian Hartman Hostetter '32, Annville, died on April 6, 1998. She was 85.

Margaret E. Bricker '33, Fredericksburg, passed away on May 21, 1997, at the age of 89. Miss Bricker was an elementary teacher for many years.

Phebe Eavenson Beacher '33, Lancaster, died on May 18, 1998. Mrs. Beacher taught for 31 years. She was 84 years old.

Pauline Benedict Eshelman '34, Lancaster, passed away on August 3, 1998, at the age of 88. She retired in 1996 after 29 years as an English teacher and school librarian.

Josephine I. Darmstaetter '35, Lancaster, died on August 2, 1998. A personnel and guidance counselor, Miss Darmstaetter, retired as coordinator of volunteer services at Moravian Manor. She was 84 years old. She also was awarded the 1977 Millersville University Alumni Association Distinguished Service Award.

Elizabeth Hosler Loomis '35, Longmeadow, Mass., passed away on September 7, 1998, at the age of 86.

Thomas Richard LeFever '39, Stone Harbor, N.J., died on June 13, 1998. LeFever was a teacher in the School District of Lancaster and was last employed as a technical editor for the Civil Service Commission. He was 81 and a decorated U.S. Army veteran.

Warren R. "Doc" Borthwick '40, Lancaster, passed away on July 16, 1998, at the age of 80. An industrial arts teacher for more than 27 years, he earned the nickname "Doc" for bandaging the wounds of students who cut themselves. After retirement he fulfilled a lifelong dream by building and opening the Warren R.

Borthwick Woodmaking Co.

Theodore R. McComsey '40, Lancaster, died on July 30, 1998. Mr. McComsey was head principal of the former Lancaster Township Junior High and Wheatland Junior High before he was appointed acting coordinator of research, retiring in 1979 after 42 years in education.

Eleanor Lippiatt Reitz '40, Allentown, passed away on June 22, 1998, at the age of 80. She was a school librarian and teacher for 20 years.

Mildred Brackbill Grube '41, Lancaster, died on July 11, 1998. An elementary school teacher in the School District of Lancaster for 30 years, she was 81.

Lewis T. Michener '42, Solebury, passed away on January 2, 1998.

Warren A. Brannon '43, Fanwood, N.J., died on May 24, 1998, at the age of 74. He was a teacher for 44 years.

Mildred Barch Klinestever '44, Columbia, passed away on September 2, 1998. Mrs. Klinestever retired in 1985 after 30 years as an elementary school teacher in the Columbia School District. She was 75 years old.

Hubert "Hubie" K. Peters '48, Columbia, died on June 20, 1998. He was an assistant principal, math teacher and athletic coach in the Donegal School District for 33 years, retiring in 1983. Mr. Peters was inducted into the Millersville University Hall of Fame in 1997. He was 79.

Rosa Mae DeVerter Wilson '50, Norristown, passed away on July 24, 1998, at the age of 69. She taught in the Colonial School District for more than 25 years.

Florence M. Keefer '56, Willow Street, died on June 10, 1998. Miss Keefer was a private-duty nurse in southern Lancaster county and a school nurse for 21 years in the former Manor Township School District. She was 90 years old.

Russell D. Garman '57, Lebanon, passed away on July 21, 1998, at the age of 69. He retired as an industrial arts teacher from the Cornwall-Lebanon School District and had played minor league baseball in the Boston Red Sox and former Philadelphia Athletics organizations and semi-pro baseball in Lancaster County.

Susan Snyder Hoffmaster '57, Red Lion, died on August 19, 1998. She was 82. She was a teacher for 32 years.

John Bzik '58, East Stroudsburg, passed away on June 10, 1998, at the age of 74. He taught mathematics for more than 30 years, retiring from East Stroudsburg University in 1991.

Lamar G. "Lem" Sipe '58, Lebanon, died on July 17, 1998. He taught history, geog-

raphy, and American government for 29 years; was a professional musician, he played saxophone and clarinet with the Blue Notes, the Key Notes and the Apogess; and worked as a manager of the 222 Dutch Lanes bowling alley for 20 years. He was 65.

Paul S. Steffy '58, Lancaster, passed away on August 28, 1998, at the age of 63. For more than 30 years, he worked for the School District of Lancaster, as a teacher and later as director of personnel and planning.

Lucy Gible Williams '58, Ephrata, died on July 9, 1998. She was 61 years old. Mrs. Williams was a teacher for many years in Lancaster county area schools.

Paul E. Weaver Jr. '64, Akron, passed away on April 30, 1998, at the age of 55. He taught mathematics for 33 years at Garden Spot High School, was a basketball coach for three decades and founded the Lancaster Amateur Athletic Union Girls Basketball Club in 1991.

Catherine M. Cuskey '68, Lancaster, died on August 5, 1998, at the age of 83. Miss Cuskey taught in several area schools and worked for WGAL-TV where she was the first woman to have her own talk show, *Today with Kay*, then went on to become a traffic manager.

Kenneth E. Menne '71, Lancaster, died on July 16, 1998, at the age of 60. An employee of St. Joseph Hospital for 30 years, he was the chief nurse anesthetist. He received the Spirit of St. Francis Award from the hospital in July.

Jean Hanna Bender '72, Lititz, passed away on June 7, 1998. She taught at Mountville Elementary School for 20 years.

Jeffrey B. Brown '72, Maytown, died on August 18, 1998, at the age of 51. Mr. Brown worked for SICO Corporation in Mount Joy. He also spent 20 years in the military, including four years with the Navy during the Vietnam War and 16 years with the Navy and Army Reserves; retiring from military service as a staff sergeant.

Samuel J. Beebe '74, St. Petersburg, Fla., died on June 20, 1998, at the age of 53. A financial analyst, he operated the Beeb Fund, a mutual fund company; he previously worked for William R. Hough & Co., St. Petersburg; Robert W. Baird & Co.; and Williams Securities as an analyst and portfolio manager for bank and trust departments.

Jane Wieder Snyder '76, Union Township passed away on July 27, 1998. A school nurse at Daniel Boone Junior-Senior High School from 1971 until her retirement in 1987, Mrs. Snyder was 73.

Marauder sports teams enjoy exceptional fall season

It was a season filled with triumph across the spectrum of Millersville fall sports, as several teams posted double-digit victory totals.

The Marauder women's tennis team earned a share of its second straight PSAC championship when it tied Bloomsburg, 31-31, for the 1998 crown at Erie.

Millersville won five of eight finals matches head-to-head against the Huskies, including singles titles by Michelle Crouse (#3 flight), Lauren Witmer (#4), and Abbie Sweitzer (#6) plus doubles crowns by Pam Kaylor-Sweitzer (#2) and Abbey Neff-Witmer (#3).

Sweitzer set a Marauder record for singles victories (20-1 mark), and the Neff-Witmer tandem won 20 consecutive matches without a defeat to set another 'Ville season standard.

In all, the Marauders, who posted a 12-1 dual match log in '98, won 81 percent of their singles matches and were even more impressive in doubles (89 percent).

For his leadership, Millersville's DeWitt Boyd was selected as the PSAC Coach of the Year for the second consecutive campaign.

The MU volleyball squad captured its sixth PSAC Eastern Division title in the last seven years with a perfect 10-0 record, and completed the regular season with a 19-8 mark.

The talented senior quartet of outside hitters Jaime Martzall and Michelle Kratz (above, right), setter Jena Ilus, and middle blocker Lenora Bunch again led the way for Coach Julie Hubbard's team. Martzall and Kratz led the team in attack percentage and kills, and Ilus paced the club in assists for the fourth consecutive year.

The 'Ville spikers captured their first MU/Dutch Country Spiketacular Classic title with exciting five-game victories over Dowling

and Gettysburg.

In field hockey, Coach Katrina King's club just missed a PSAC playoff spot (4-4 conference record). However, the 'Ville won five of its last six matches and posted a 13-6

overall record—an impressive turnaround from last season's 7-12 mark.

All-American junior midfielder Ini Hazatonos scored seven of her team-high 11 goals on penalty strokes and pace the team in scoring with 25 points. Classmate Becky Brackbill added 10 goals and 23 points from the front line, and versatile senior Katie Good contributed 20 points. Junior forward Carrie Vosburg led the PSAC in assist average (.53), and sophomore goalie Mandy Houser had a fine season (11-5 record, 1.28 goals-against average).

The Marauder men's soccer team was "on fire" in the month of September, with 10 wins in 11 matches. Although it struggled in PSAC play down the stretch, the Marauders still enjoyed a record-setting year with new standards established in goals (71), assists (55) and points (197).

The "dynamic duo" of seniors Sean Szerba (bottom, left) and Ciaran Dalton rewrote the 'Ville record book. Szerba led the PSAC in goals (23) and points (52) from his midfield position, and set Marauder season and career standards in those categories. Dalton, a forward became MU's career leader in assists with 19. Both finished their careers with 124 and 105 points,

respectively and became the first players in team history to break the century point barrier.

In goal, junior Chris Smith was 12-5 in his first season as the starting MU goalie and fashioned a respectable 1.77 goals-against average and two shutouts.

The 'Ville women's soccer club started strong in '98 with a 4-1 record but struggled thereafter with only one victory in its final 12 outings. However, five of its 11 defeats were by a single goal.

Freshman striker Demetra Hazatonos led the way for MU with 13 points, including a team-high six goals. The only senior on the team, back/midfielder Abby Trout, scored on a penalty kick with 15 seconds left against Kutztown to lift the 'Ville to a 2-1 conference win.

In men's cross country, senior Mark Hagan was the Marauders' top finisher in every race this fall. The co-

captain from Chester County won the Clarion Invitational, finished second in a 256-competitor field at the Gettysburg Invitational, and went on to earn All-PSAC and All-NCAA-II East Regional/All-ECAC-II honors.

For the 'Ville women's cross country squad, junior Carisa Heiney was MU's top finisher in five of six regular season meets, and sophomore Meghan Edmiston was victorious at

the Clarion Invitational.

The Marauder golf team, led by sophomore transfer Chad Schulze, also fared well in fall competition. Schulze won the F&M, Susquehanna and Elizabethtown tournaments, finished seventh in the ECAC South Qualifier, and placed 12th in the ECAC Men's Open in upstate New York.

Marauder winter teams ready for 1998-99 action

Pucillo Gymnasium and Natatorium will be hopping this winter when all four Marauder varsity sports teams are in action.

The Marauder men's basketball team has nine lettermen, including four starters, returning from last winter's 11-16 team. The senior trio of center Jamal Palmer and guards Jason Seitz and Terry Howse will conclude their varsity careers in quest of a PSAC championship.

The 6-9, 210-lb. Palmer has scored 1,020 points and blocked 53 shots in his three-year MU career. The PSAC Eastern Division Player of the Year in 1998, Palmer also earned all-regional honors when he led last season's club in scoring (17.3 ppg), rebounding (8.8 rpg), and steals (50).

Seitz (14.6 ppg) and Howse (10.6 ppg) each contributed 74 assists last season, and are among the finest three-point marksmen in team history.

Interim head coach Fred Thompson also has other veteran players in his arsenal, including 6-7 junior forward Jason Lucas (10.5 ppg, 4.9 rpg), and junior swingmen Charles Hill and Robert Thomas.

Among the newcomers expected to make an impact on 'Ville cage fortunes this season are 6-4 freshman guard Tim Blume and 6-5 junior swingman Jermaine Washington.

The Marauder women's basketball team, under ninth-year head coach Mary Fleig, has its sights set on winning the PSAC Eastern Division title and gaining home court advantage for

Above: women's cager Jen Diehl

the PSAC tournament in late February.

Eight letterwinners return, including All-PSAC senior playmaker Becky Stoner (7.6 ppg, 140 assists, 44 steals) and last winter's PSAC East Rookie of the Year, 5-7 guard Sara Burcin (13.9 scoring average and a club-record 69 three-point goals).

A strong sophomore class features Burcin, 5-11 forwards Paula Keller and Ashley Hoffman, and 5-5 playmaker

Safiyah Bashir. Newcomers to watch include guard Jen Smith and forward Megan Loucks.

Millersville's wrestling team has seven starters back from a 1997-98 team that posted a 10-5 dual record. Veteran mentor Floyd "Shorty" Hitchcock will look to senior middleweight Rick Ivanac for leadership; Ivanac was 24-9 two seasons ago but was redshirted last year.

The Cote brothers, junior David and sophomore Andy, combined for 47 victories, including 10 falls and 10 major decisions, in '98. In the upper weight classes, junior Jeremy Sheaffer and sophomore Greg Eynon posted winning seasons (18-15 and 17-16, respectively).

A fine freshman class includes Nate Sheaffer, who recorded more than 70 scholastic pins, Steve Fidler, Josh Miller, and Rick Kelley.

The Marauder women's swimming team features the returning letterwinner quartet of seniors Dawn Barnum (butterfly) and Kristie Steigerwalt (backstroke), junior Liz Estes (breaststroke/IM), and sophomore Erin Ferer (distance).

Fourth-year head coach Brian Brooks has recruited a fine freshman contingent whom he believes will re-write many MU standards. Among the featured first-year swimmers are Sarah Reinfried (breaststroke/distance/IM), freestyle specialist Erin Eisenhofer, and distance specialist Melanie Lebo.

'Ville gridders exciting in '98

Envision the 1998 Millersville football team as a galaxy, for there were stars aplenty who shined brightly for the Black and Gold.

In a milestone campaign that featured head coach Dr. Gene A. Carpenter's 200th career victory (37-13 at Mansfield on October 3), the Marauder gridders excelled in all phases of the game against a schedule considered the toughest in club annals. The 'Ville captured their 10th PSAC Eastern Division title under Carpenter with a perfect 6-0 record and posted an 8-2 regular season mark overall.

The Marauder offense, led by wunderkind sophomore quarterback Drew Folmar, the "Poison Pair" receiving tandem of senior Mike McFetridge and sophomore Sean Scott, and hard-nosed sophomore running back John Flamish, scored points in bunches and thrilled Biemesderfer Stadium crowds with big plays and exciting finishes.

Folmar (top right) passed for over 430 yards versus Clarion and West Chester and rewrote Millersville's record book in season passing and total offense marks. The Chambersburg native tallied as many passing yards and touchdowns at the seven-game mark of 1998 as he had in his all-star rookie campaign.

In a dramatic 34-31 Homecoming win over archrival West Chester, Folmar threw for five touchdowns, including a game-winning eight-yard strike to McFetridge in the final minute, to rally MU from a 19-point fourth quarter deficit.

McFetridge shattered all of All-American Kevin Cannon's MU career receiving marks in catches, yards and touchdowns, and Scott enjoyed another standout season as he matched McFetridge catch-for-catch. Both became the first receivers in Marauder grid history to record 1,000 yards in one season.

Folmar, McFetridge and Scott ranked among the NCAA-II leaders in several categories—Folmar in pass efficiency and total offense, and McFetridge and Scott in reception and yard average.

Flamish gave the Millersville running game a lift with his never-quit effort;

he totaled several 100-yard games and also proved to be an adept receiver out of the backfield.

MU's stout defensive unit (above), paced by senior ends Dave Ibarra and Joe Cannon, veteran tackles Jim Jackominic and Jon Bucher, linebackers Lee Rizzotto and Mike Zellner, and a secondary featuring cornerback Jamal Battle and free safety Wade Fauntleroy, were the PSAC's stingiest in terms of first downs yielded plus opponent third and fourth down execution.

Ibarra and Rizzotto led MU in tackles throughout the campaign, and more often than not, the 'Ville "D" came

through with hard-hitting stops that thwarted enemy drives in clutch situations. Of note, the Marauders pitched a 30-0 shutout over Bloomsburg to snap the Huskies' 23-game conference unbeaten streak (22-0-1) dating to 1994.

In the kicking department, second-year specialist Andy Ryzewski averaged a field goal per game during the regular season and thanks to his length on kickoffs, the swarming coverage units led by Ibarra, Frank Verna and Brian Allen usually kept their opponents' drive starts inside their own 25-yard line.

SPORTS

Women's assistant basketball coach assigned

Crystal Bailey-Brown became the new assistant women's basketball coach, assuming the post in mid-August. Formerly the head women's basketball coach at Middlesex County College in New Jersey, she was voted Coach of the Year by the New Jersey National Collegiate Basketball Coaches Association in 1997.

Bailey-Brown fills the position left vacant in 1997 by the resignation of Betsy Witman, who left MU to become head women's basketball coach and assistant director of athletics at York College of Pennsylvania.

At Middlesex, Bailey-Brown was the school's most successful women's basketball coach, compiling more wins than anyone else and producing the

only team at the school in any sport to reach the national finals tournament.

She led the team to a 21-8 record in her first year as head coach and to a fifth place national ranking in Division III Junior College Women's Basketball. In 1997-98, she was chosen Garden State Athletic Conference Coach of the Year (Division III) and Region XIX Coach of the Year (Division III), in addition to being honored by the Coaches Association.

Her overall record as Middlesex head coach was 37-21.

Commenting on Bailey-Brown's appointment, Marjorie A. Trout, Millersville director of women's athletics, said, "We're looking forward to having Crystal on our staff. She is a very professional person with successful experiences as a coach, as well as a former scholarship athlete at a Division I program. I feel she will contribute to the overall success of our women's program."

Earlier in her career, Bailey-Brown was assistant girls varsity basketball

coach at Bridgeton High School in New Jersey; she provided the team with leadership, supervision, coaching, planning, team preparation and problem solving.

A graduate of Arthur P. Schalick High School in Elmer, N.J., she earned a bachelor of arts degree in sociology at Pembroke State University in North Carolina.

Bailey-Brown's pre-coaching days also were filled with victory on the court. She was the first person to score 1,000 points in Schalick High School history; there she compiled a total of 1,406 points in four years, was starting point guard for four years, averaged 20.4 points and 4.5 rebounds per game, and was a member of the 1984 state championship team, receiving Most Valuable Player honors. Later, and before matriculating at Pembroke State, she played with the Rider University women's basketball team, leading it in foul shooting percentage during the 1986-87 season.

Fred Thompson named interim head coach

Fred Thompson has come aboard as interim head men's basketball coach at Millersville University for the 1998-99 season. The Sumter, South Carolina, native last served as boys' basketball coach last winter at Dundalk (Md.) High School near Baltimore. For five seasons, he was head coach at Meridian (Miss.) Community College, where he posted an 84-63 record. In his first season there (1991-92), he directed Meridian to a 22-8 record, the Miss-Lou Conference championship, and a second place finish in the National Junior College Athletic Association Region 23 tournament. Under Thompson's guidance, Meridian's cagers posted three Miss-Lou tournament runner-up placements. His 1994-95 squad compiled a 19-11 mark.

Thompson began his coaching career at Meridian as an assistant during the 1990-91 season. For three years (1990-93), he served as MCC resi-

dence hall director. A 1990 graduate of Northeast Louisiana University with a bachelor of science degree in physical education, Thompson served in the U.S. Army for three years (1983-86), stationed at Fort Polk, La. He received an honorable discharge from the Army with the rank of Specialist E-4.

Richard Zvosec resigns

Richard Zvosec, head men's basketball coach since June 1997, resigned October 19 to accept a coaching position at St. Peter's College, Jersey City, N.J.

He was appointed assistant men's basketball coach at the NCAA Division I institution, affiliated with the Metro Atlantic Athletic Conference.

Zvosec guided Millersville to an 11-16 record during the 1997-98 season. The Marauders finished fourth in the PSAC Eastern Division with a 6-6 record and advanced to the conference tournament, where they were eliminated by Bloomsburg in the first round.

You can show the way

As we progress through life, we accumulate more than material possessions. We grow in wisdom and perspicacity. We realize that much of what we have, we owe to the generations who came before us. We become conscious of our obligation to provide for those who will follow.
