INSIDE:
Your Fall 1999
Millersville
REVIEW

Schedule of Events

Monday, October 25

- 7:30 p.m. **"Celebration of Black Culture: The Making of Sankofa."** Filmmaker and professor of film at Howard University, Dr. Haile Gerima. Free. Myers Auditorium, McComsey Hall. Film will be shown at 7 and 9:30 p.m. on October 24; Free, in Club de Ville, SMC.

Tuesday, October 26

- 7 p.m. **Distinguished Lectureship in Nursing: Dr. Rita Munley Gallagher, R.N., Ph.D., "Mentoring: A Leadership Challenge,"** Armstrong World Industries Auditorium (Rm. 210), Science and Technology Building (adjacent to Roddy Science Center). Dr. Gallagher serves as Senior Policy Fellow at the American Nurses' Association in Washington, D.C. (Sponsored by the MU Department of Nursing and Sigma Theta Tau-Xi Chi Chapter) Free. For information, call 717-872-3410.
- 7 p.m. **Women's Volleyball vs. Shippensburg,** Brooks Gymnasium

Wednesday, October 27

ALL DAY Millersville Pride Day

To celebrate MU's 144th anniversary, alumni, students, faculty and staff will participate in interactive classes, social events, games and more. Everyone is invited to wear their black and gold or MU logowear—take pride in MU today! (Sponsored by the Student Senate)

- 5:30 p.m. **Science and Technology Building Dedication.** Join fellow alumni and friends at this special event, culminating Millersville's successful capital campaign. The dedication ceremony will be followed by tours of the new facility, located adjacent to the Roddy Science Center. For more information, contact University Advancement, 717-872-3775. See reservation form.

- 6 p.m. **Women's Soccer vs. Ursinus,** Pucillo Field
- 7 p.m. **Staged reading: "Performative Communication: Play Readings at the Turn of the Century."** Myers Auditorium, McComsey Hall. Free.

Thursday, October 28

- 12:30 - 2:30 p.m. **"Communication into the New Millennium"** Reighard Multipurpose Room, Student Memorial Center. A mini-conference featuring a panel and discussion from the perspectives of communication scholars as they look into the future. Scheduled panelists include Dr. Bill Christ, Trinity College, Calvin Schrag, Purdue University and Dr. Carolyn Marvin, Annenberg School for Communication, University of Pennsylvania. Free. For more details, contact the Communication and Theatre Department at 717-872-3233. Reservations are required. See reservation form.
- 7 p.m. **15th Annual Science Lecture: Dr. Mark Plotkin,** Lyte Auditorium in Alumni Hall. Bestselling author, rainforest wizard and renowned ethnobotanist, Mark Plotkin weaves spells with tales about his research for Amazon plants which might provide future cures to Alzheimer's, AIDS and even cancer. Dr. Plotkin also plays a leading role in the movie "Amazon," which debuted in IMAX Theaters around the world in April. Sponsored by the Mr. and Mrs. William F. Brossman Charitable Foundation. Free. For information/tickets, call 717-872-3407.
- 8 p.m. **MU Theatre Production: "A...My Name is Alice,"** Rafters Theatre, Dutcher Hall. A musical revue conceived by Joan Micklin Silver and Julianne Boyd. For ticket information, call 717-872-3129.

THURSDAY, OCT. 28, 9 P.M.

Movie: "Wizard of Oz" Gordinier Lawn wall/SMC wall or Student Memorial Center (SMC), Reighard Multipurpose Room. The 1939 classic by MGM is the silver screen adaptation of L. Frank Baum's children's classic. It features those timely classics "Somewhere Over the Rainbow," "Ding Dong the Witch Is Dead," and "We're Off to See the Wizard." Free.

Schedule of Events—Friday, October 29 & Saturday, October 30

Friday, October 29

8 a.m. **Alumni in the Classroom: Communication and Theatre Department,** McCollough Complex. Classes begin at 8 a.m. Come back to experience a student-produced newscast developed in the newly renovated communication complex studios. This is an opportunity for alumni to interact with students. For more information, contact the Communication and Theatre Department at 717-872-3233. Reservations are required. **See reservation form.**

8:30 a.m. **Homecoming Alumni & Friends Golf Outing,** Crossgates Golf Club, Millersville. Open to all alumni, faculty, staff and friends. A shotgun start for 48 or more players. (If fewer, we will start tee times at 8:30 a.m. The format of play will be scramble.) Fee includes: greens fee, 1/2 cart, mesquite steak buffet, beverages and prizes for closest to the pin, longest drive and straightest drive. Special prizes include Millersville University putters. Buffet will be held at the Golf Club Pavilion. Directions to Crossgates Golf Club will be mailed in mid-October. **See reservation form.**

5 p.m./6 p.m. **Fifth Annual Athletic Hall of Fame Reception & Dinner,** Student Memorial Center Lobby & Gordinier, Lehr Room. Honorees include Brenda Bannan-Ritland '86 (Lacrosse); Janice Valentine Roak '76 (Basketball/Lacrosse) and Edwin H. Wiest '42 (Football/Baseball). All alumni and friends are cordially invited. Reservations required. **See reservation form.**

8 p.m. **MU Theatre Production: "A...My Name is Alice,"** Rafters Theatre, Dutcher Hall. A musical revue conceived by Joan Micklin Silver and Julianne Boyd. For ticket information, call 717-872-3129.

9 p.m. **Homecoming Fireworks,** Student Memorial Center, side parking lot. Park your car nearby and bring a lawn chair for a fireworks display by alumnus Kimmel Schaefer Jr. '90 (Schaefer Pyrotechnics, Inc.)

Saturday, October 30

9 a.m. **Alumni Registration,** Student Memorial Center Lobby. Pick up alumni buttons, mums, reunion souvenirs and tickets for events. Reservations must be picked up by noon. Football tickets only will be held at the stadium (east ticket window) after 12:30 p.m. Changes in scheduled events will be noted at registration. Registration continues at the Yellow Tent at Biemesderfer Stadium in the afternoon.

9 a.m. **Welcome Home Alumni Continental Breakfast,** Student Memorial Center Lobby. Free, but please indicate on reservation form whether you will attend. Remember your black and gold mums at registration. **See reservation form for mum orders and continental breakfast.**

9 a.m. - 1 p.m. **Alumni Information Center,** Duncan Alumni House. Please use front entrance.

SATURDAY, OCT. 30, 9:30 A.M.

Millersville Parade "Cartoons and Fairy Tales." Bands, floats, fire engines and more. Be a part of it or watch the community/University effort as the two-mile parade winds through the Borough of Millersville, ending at the Student Memorial Center. Alumni and their friends are invited to participate in the parade, whether by single entry or by float, car or other vehicle. Prizes will be awarded in various divisions. For more information, please call the Parade Hotline at 717-871-2213, or check out the parade website at www.millersv.edu/~alumni/parade.html

NOTE: North George Street, Herr Avenue and Landis Avenue will close at 9:15 a.m. for the parade; alternate routes will be posted on October 30. Please allow ample time to reach your destination. See campus map in this flyer.

10 a.m.-6 p.m. **University Store Open, Student Memorial Center.** Alumni will receive a 15% discount on MU sportswear.

10:30 a.m. **Communication and Theatre Alumni Coffee and Open House,** Charles and Mary Hash Building. Included: tours of the McCollough Communication Complex. Coffee will be available in Room 212 of the Hash Building.

Preserving Millersville's past for future generations

For students, alumni and scholars, Millersville has amassed a rich collection of our past. Bob Coley, archivist for 27 years, retires, but leaves a formidable legacy behind.

10

Taming technology

Susan Komsky, vice president for information technology, brings a wealth of knowledge and a user friendly approach to technology on campus and in our lives.

14

A leap of Faith

Millersville graduate Faith Stathis Veronis and her husband, Luke, help ease the suffering of Kosovo refugees and provide aid to the Albanians on a personal level.

CAMPUS NEWS

MU ranks high by U.S. News survey

Millersville University ranks in the top 25 percent of the "Best Regional Universities" in the nation, according to a recent survey conducted by *U.S. News & World Report* (August 30, 1999). Also, for the third consecutive year, MU has been ranked as one of the "Top Regional Public Schools" in the *U.S. News'* survey.

Millersville is ranked 26th out of a total of 146 public and private regional universities in the north, one of the four regions into which *U.S. News* places schools. Regional universities (as defined by the Carnegie Foundation) provide a full range of undergraduate and master's level programs, but offer few, if any, doctoral programs. Among the other schools listed in the north region are Villanova University, Rochester Institute of Technology, University of Scranton and Alfred University.

MU was ranked fourth in the north and was among 40 colleges or universities nationwide to make the Top Regional Public School rankings.

Overall, *U.S. News* ranked 504 regional undergraduate universities. Rankings are based on academic reputation, graduation and retention rates, faculty resources, student selectivity, financial resources and alumni giving. National universities are ranked separately from national liberal arts colleges, and regional universities and liberal arts colleges are compared against other schools in the same group.

Summertime at the 'Ville

The University's Summer Chamber Music Institute provided the opportunity for a group of talented young musicians to learn from the guest artist Awadagin Pratt (far left).

Once upon a time summer meant a deserted campus. Not any more. Millersville hosted more than 10,000 people this summer who participated in a variety of programs and conferences. In addition to orientation sessions attended by approximately 1,400 new MU students and their parents, the campus attracted visitors from around the world.

Special summer programs and events ranged from sports camps for wrestling, basketball and football, to Upward Bound, an academic support program to help high school students excel, and the Moravian Music Festival which offered concerts open to the public. Other offerings included a Pennsylvania Council on the Arts conference, graduate foreign language workshops, a weight reduction program for teenagers and

young adults, the popular Native Plants Conference, the Cramer Workshop for physical trainers, and the Pennsylvania Governor's School for Teaching, a residential summer enrichment program for high school sophomores and juniors who are interested in teaching as a career.

One special offering was the Summer Chamber Music Institute, sponsored by the University, and this summer featured Awadagin Pratt, an internationally known pianist. In addition to Pratt, the Institute's faculty members included Peter Brye, Madeleine Darmiento, and Anita Renfroe. Founded three years ago, the Institute is the only intensive chamber music workshop for junior and senior high school string and piano students in the region.

Share your "Views"

We want to hear from you. Send your letters to Views, Communication & Marketing Office, Millersville, PA 17551-0302. Letters may also be faxed to 717-871-2009 or emailed to Pat.Coulson@millersv.edu.

Millersville's research efforts take to the road

One of MU's recently acquired research tools is on wheels. It's a new mobile unit which is used for on-site atmospheric and environmental research.

On location in Philadelphia, the unit served as a ground station for tethered balloon operations, which were employed to investigate factors leading to high concentrations of ozone and suspended particles along the northeast corridor of the U.S. The Philadelphia research is part of a three-year study being conducted by Millersville, Penn State, Harvard, the University of Maryland, Brigham Young University and Drexel University, and Brookhaven, Argonne and Pacific Northwest national laboratories. Millersville received \$233,000 to participate in this three-year, \$3 million EPA-funded project.

The trailer is air-conditioned and heated to provide comfortable working conditions in a variety of climates. The mobile unit contains surface-based analyzers which sample air through inlets in the roof, measuring ozone and particles smaller than 2.5 microns. It also houses computers that are locally networked, and tables for sample and sampler preparation.

"Real-time meteorological data is

Dr. Richard Clark and meteorology major Chris Compton prepare to enter the University's mobile unit.

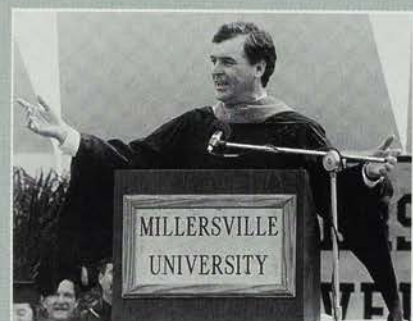

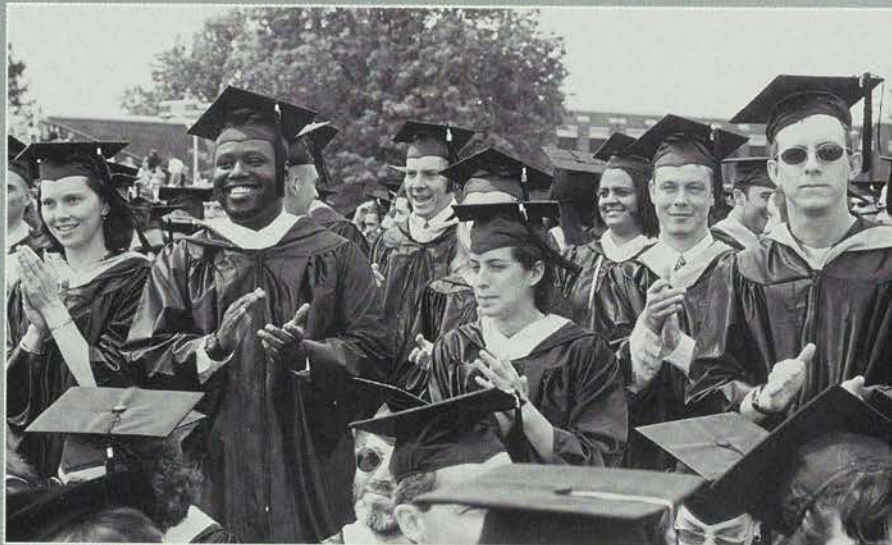

available on site via high-speed modem," Dr. Richard Clark, earth sciences, explains, "and this data is made available to all investigators involved in a project. This is particularly important for balloon operations, which are extremely sensitive to rain and high wind episodes."

The mobile unit affords an expanded capability for Millersville researchers,

including University students, heretofore unavailable, according to Clark. While its primary use is to support atmospheric research, the mobile unit can be used by other Millersville scientists for environmental studies.

For more information on atmospheric research at MU, visit the Web site <www.atmos.millersv.edu>.

Graduation Day

On May 15, MU's alumni ranks swelled by 862 persons who received master's, bachelor's or associate's degrees. In ceremonies held at Biemesderfer Stadium, Pennsylvania Lieutenant Governor Mark Schweiker (above) addressed the happy new graduates and their families and guests.

CAMPUS NEWS

MU People

Robert Coley retired in August as the University archivist and special collections librarian (see feature story on page 6).

Dr. Albert C. Hoffman retired in July from his position as dean, School of Science and Mathematics. Hoffman joined Millersville in 1970 as an assistant professor of biology and within seven years became a full professor. He was named dean in 1983, and has been an active member of the Millersville community both on and off campus.

Dr. William V. Kahler, professor of health and physical education, retired in May after 30 years at Millersville. In addition to teaching, he served for many years as chairperson of the health and physical education department.

Dr. Duncan M. Perry has been appointed MU's dean of graduate studies and extended programs. He comes from Central Washington University, where he was dean for graduate studies, sponsored programs and undergraduate research. A

Fulbright Award winner, Dr. Perry was a member of the Central Washington University staff since 1996, and has served as a professor of history.

Dr. Perry earned a bachelor's degree in history and political science at Davis and Elkins College, master's degrees in Russian language and linguistics and European history at Ohio University and a doctoral degree in Balkan history at the University of Michigan, Ann Arbor.

Sandra L. Peters, assistant professor of health and physical education, retired in May. She also served as assistant director of women's athletics and was a member of U.S. Field Hockey Association selection committees. Peters joined Millersville in 1966.

Dr. Phillip S. Riordan has joined Millersville as director of resident life.

Since 1990, Riordan held the position of associate director of housing and residence life at the

University of North Carolina (UNC)-Charlotte. He also taught part time at UNC and chaired its Multicultural Council.

Dr. Riordan earned a bachelor's degree in political science and a master's degree in college student personnel at Bowling Green State University and a doctoral degree in educational leadership and policies at the University of South Carolina.

Dr. Carla R. Ritter, instructor of English, received a Ph.D. from Temple University last semester. Her dissertation is titled, "Insurrection Behind the Veil: Religious Heterodoxy in Sedgwick, Child, and Stowe."

Dr. Edward C. Shane has been named MU's dean of the School of Science and Mathematics. For the past ten years, he served as chairperson of the chemistry and engineering

physics departments at Morningside College in Sioux City, Iowa, and as a professor of chemistry at the college since 1975.

He earned his bachelor's degree in chemistry at Ursinus College and his Ph.D. in physical chemistry at the University of Pennsylvania.

John Tannehill, assistant professor of political science, who came to Millersville in 1970, retired in July. In addition to his classroom duties with the political science department, he has been a dealer in antiquarian books, collecting and selling rare and out-of-date books.

Dr. Ellen B. Waldeck, dean for resident and off-campus life, retired in May. She joined Millersville in 1970 as assistant dean of women. In 1980, she was appointed to her most recent position.

The Annual Fund

Annual Campaign Exceeds Goal

Millersville's 1998-1999 annual campaign goal was to raise \$1,000,000. Nearly 7,000 donors contributed \$1,168,103 in support of annual and endowment purposes. Gifts from alumni, parents, employees, and corporate and community friends helped meet or exceed nearly every constituency goal.

This success means great things for current students and programs. Gifts to the annual fund, which totaled \$884,303, will provide outright scholarship monies to hundreds of students. Annual fund gifts will also keep the campus technologically up-to-date, and fund important academic and co-curricular programs.

This generosity also means great things for Millersville University's future. In new endowment monies, donors responded with \$283,800 in gifts - far exceeding the \$150,000 goal. These invested monies endow new scholarships, awards and research grants, enhance existing scholarship funds, and provide resources to support our library and equipment needs.

Two alumni join Council of Trustees

Two MU alumni have been appointed to the Millersville University Council of Trustees. Nominated by the governor and confirmed by the State Senate were Abram Diffenbach and Michael G. Warfel. They replace Robert Torres of Harrisburg and James W. Harris of Mechanicsburg whose terms expired.

Abram W. Diffenbach, Lancaster, is vice president and a financial consultant for Smith Barney, Inc. He has worked for Smith Barney and its predecessor firms since 1973. Diffenbach is a 1973 honors graduate of Millersville with a bachelor's degree in economics. While at MU, he was president of the Economics Club and received the Wall Street Journal Award.

Michael G. Warfel, Camp Hill, is government affairs director for

Abram W. Diffenbach

Michael G. Warfel

Highmark/Pennsylvania Blue Shield. Warfel is a 1984 honors graduate of Millersville with a bachelor of arts in political science, and earned a master of arts in governmental administration from the University of Pennsylvania. He is a past president of the MU Alumni Association, and currently serves on its Board of Directors.

Seven swans a-swimming

Resident swans Miller and S'ville became the proud parents of six cygets this spring. Because of limited space at the lake, the little ones were adopted by good homes.

Preserving Millersville's past for future generations

BOB

By Nancy Payne

Where can you go to see a copy of the 1875 Trustee's minutes? Who has the original records of every athletic game Millersville played? How do you find pictures of buildings no longer in existence, like the original Science Building, where Wickersham Hall now stands?

For more than a quarter of a century, anyone looking for these items

would first call Bob Coley, University Archivist. If Bob didn't know the answer—like the names of every Millersville president—he'd know where to look. And now, after 27 years, Bob is retiring.

If you think of an archive as a dark, dusty place full of old crumbling papers, you couldn't be more wrong. The Archives and Special Collections that Bob Coley has developed on the fourth floor of Ganser Library is spacious, clean, serene and orderly. The reading room features large contemporary-style tables for research and reading, shelves housing the University's first collection—the Wickersham Pedagogical Collection—and an exhibit cabinet.

Next is a large work room for the archivist, a part-time technician and student assistants. And in an adjacent room are two long rows of modern compact shelving, where items are stored and labeled neatly in covered gray or tan boxes designed just for that purpose.

It's all a far cry from the "archives" that greeted Coley when he arrived at MU in 1972.

"There really wasn't an archives until I came," Coley said. "There had been what was called a Millersville room, which was a small place in the old library." Crammed in that space

were trustee and faculty minutes—and some key documents that had been saved in the library.

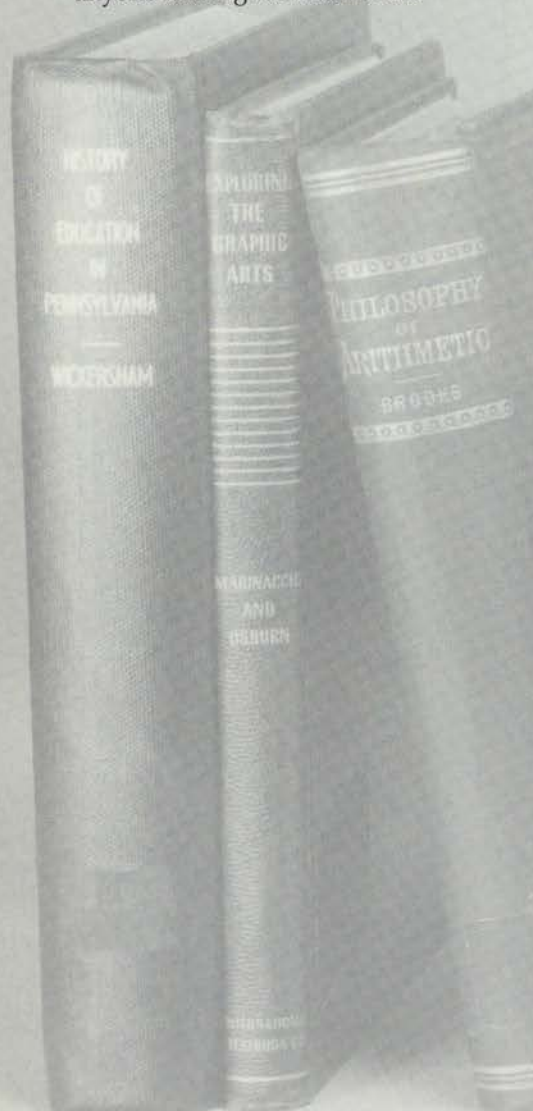

"There had been an archivist, a retired professor of languages, who had started to pull things together, but he was not trained in library science or archives. His job mainly had been to find things, and what he had found so far was what I found."

Before Coley arrived, the position had been open for some time. "Evidently no one wanted it," Coley said, "and if you had seen what I saw when I walked into the archives, you would understand why, but I was crazy enough to take it."

"There were newspapers and minutes and papers of the University all over the place, three feet deep on the tables, on the floors, everywhere. I think that's why nobody else had wanted the job, but I was rather attracted to it. I like the challenge."

After he arrived, a committee of the faculty brought him more materials.

"That committee was very helpful. It was a good group of people who wanted to preserve the history of the college and make it available for our students. They were very supportive, as was then-President Duncan, and that support has continued to the present administration."

Cataloging the stacks of musical scores with student Susan Eschenfelder.

Bob Coley with the rare Brüderschafft bibles.

COLEY

Coley soon learned there were other boxes of materials in basements and attics of buildings all over the campus. He says it took him about five years to locate everything and bring it all together. "I would send notes around," he said. "Now it works the other way. People call me and let me know they're going to send things to the archives." Despite the disorder he encountered, Coley is glad the materials had been saved. "I feel very lucky to have what I found when I came."

Coley attacked his Herculean task in a systematic fashion. While completing his thesis on regional archives at the University of North Carolina, he investigated several successful archives, including those of Duke University. Then he started visiting archives of other colleges in this area and becoming friends with archivists. The archivist at Dickinson College was particularly helpful, he said, and remains a friend to this day.

"What I found out early was that there was no standardized format," he said. "There is still no standardized system, so I built my own system, listening to other people, seeing what they do and testing things out here with students and faculty to see how they could find things most easily."

In the Special Collections reading room with the scale model of Biemesderfer.

"After a while, I began to know where things were. We had a small collection, and I could remember what was everywhere. Of course, we got so large, I can't remember nearly all of it now. But when people would come up and say they needed this or that, I would be the one to try to find it and bring it back to them."

"Now for many things they can just go to the MU Index in the computer and type in what they want. And a whole list comes up to at least tell them what we have. It has made our lives much easier and theirs too."

Anyone can access this information from a personal computer, whether in the library, a dorm room or a private home. About 50 percent of the Archives and Special Collections catalog has been put on-line so far. For a listing of Archives & Special Collections visit the web site at: www.millersv.edu/~library/services/archives.html.

Soon after he started, Coley met with members of the Class of 1923, who were planning to celebrate the fiftieth anniversary of their graduation in 1973. He discussed with them the needs of the archives. Thus, the Friends of Ganser Library was established in 1973 as a gift of the class, and a special contribution was given to the archives. The reading

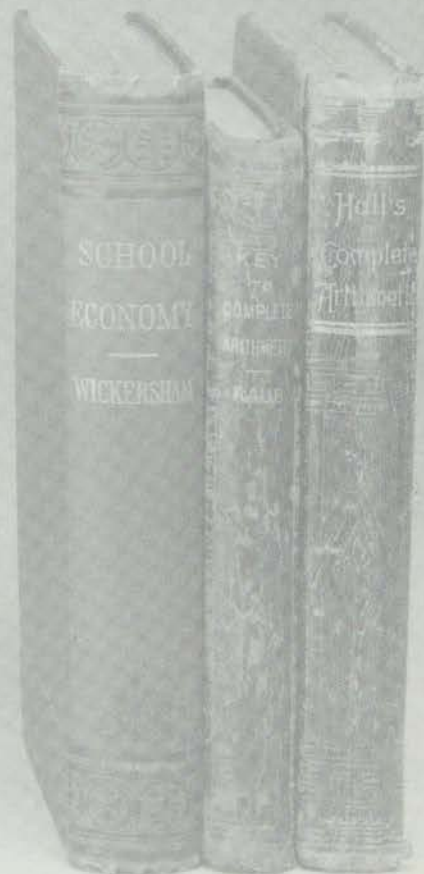

room is now dedicated to the memory of the late Esther Risser Whitely, a member of that class and former reference librarian.

Contributions to the Archives and Special Collections still come from the Friends, alumni, faculty and other individuals and organizations.

Nowadays, instead of seeking advice, Coley is most often providing assistance to other archivists. Millersville has gained a national reputation for its archives and serves as a model for other institutions.

A photograph of Fannie Gamber Peters, wife of an original board member, is part of MU's collection.

Bicentennial quilt featuring historical buildings at Millersville University.

When Coley attended a conference in Phoenix several years ago, he walked into a workshop and saw MU's first on-line catalog displayed on a screen as an example of newspaper indexing. He introduced himself to the workshop leader, who was from the University of the Pacific in California. The man said, "We're so glad you did this. We sold our administration on it because of what you had done."

The Archives and Special Collections at Millersville are used frequently by students, faculty and administrators as well as outside researchers.

For example, each year for about five years Coley has worked with Dr. Cheryl Desmond and an honors class in the Educational Foundations Department. A special topic is assigned, and each student chooses one item from the archives, or possibly two or three items, related to that topic and builds an exhibit around it, including a description of the item and what it contains, its importance, its condition and its connection with other materials.

A class in the history department on historical archives also gets hands-on experience each year when students are each given a small batch of papers that have not been processed and asked to organize them, applying what they have learned in their course.

An archive is important, Coley said, "because it is the history of the University all in one place. If that is gone, lost, not saved, you can't reconstruct it. It's important to have the primary source materials from all the offices—mainly, of course, from the presidents and the councils of trustees where the policies are made—because this is the only place you're going to find them. If you don't have them, then you don't have a history and you can't go back and do research about various topics.

"It's a lot of fun to look back and see where we were, but it also serves as a way of helping people decide where

we want to go from here."

Although Coley has accomplished a great deal in 27 years, he says much more remains to be done, such as completing the on-line catalog and processing the voluminous papers recently given to the archives by former Congressman Robert Walker. He said the new archivist also will be responsible for creating a web page and publicizing the Archives and Special Collections more prominently.

"I'd like to keep this job a little longer actually, but I felt it was time to leave," he said. "It's time for someone else to take over and take it further—someone who's younger and has more energy with his future in front of him. But I can't think of any job I'd rather have had. I just fell into it, but it couldn't have been a better match."

A native of Charlotte, North Carolina, Coley started his career as an English professor for 15 years. He earned a B.A. from Furman University in 1956 and an M.A. in English from Peabody College, now part of Vanderbilt University, in 1957. He did further graduate study in English at New York University and taught at Mars Hill College, West Virginia University, Bloomfield College and Centenary College for Women.

He decided to make a career change when "very frankly, I just got tired of grading papers, and I

noticed the quality of students had gone down tremendously." Having worked in a library and liked it, he attended the University of North Carolina in the summers to earn a Master of Science degree in Library Science.

When he was nearing completion of his studies, he wrote letters to colleges in areas where he and his wife Ethel, who died in 1995, thought they might like to live. Lancaster County was one of those areas.

When asked what he has liked most about his work in the Archives and Special Collections, Coley said, "I don't dislike anything! I like it because

■■■■
"It's a lot of fun to look back and see where we were, but it also serves as a way of helping people decide where we want to go from here."
 ■■■■

it's varied. No two days are alike. And the materials are so diverse, I never get bored working with them."

He is most proud of the on-line catalog and the special collections, but he delights in showing students "what they can do with a piece of paper that might not seem particularly interesting at first until they start looking at it carefully." He likes pointing out to students how important it is to go to primary sources rather than the secondary sources they have used almost all their lives previously. "To see them take primary material and see their eyes light up when they start working with it—that does something for me every time," he said.

Despite the fact that he has enjoyed his job so much, Coley will not lack for enjoyment in retirement. He plans to travel to Greece in October and Costa Rica next January, "and I have about 18 other places on the list."

He recently joined the Lancaster County Bird Club, and the Costa Rica trip will enable him to see a variety of birds in the jungle. He also may go to Manitoba next year to see Arctic birds. "And I like to read Victorian novels. I have a whole bookcase full of Thomas Hardy and Charles Dickens, and I'm going to start rereading those."

He does volunteer work for the Lancaster County Historical Society and will also be doing consulting work with other archives. Several years ago he authored articles for the *Review* on the history of the college, and he has also written updates of the University's 1976 bicentennial history. His extensive notes could be used to update Lee Graver's 1943 dissertation about Millersville, *History of the First Normal School in the Second District*. He also likes to garden, play card games and do puzzles, and hopes to spend more time on the Internet.

"That's enough to get me going," he said, "and after that I'm not really worried about things to do. And who knows what else will turn up?"

Millersville University is grateful Bob Coley happened to "turn up" 27 years ago and design a state-of-the-art, accessible archive system.

Nancy Payne is a writer, residing in Lancaster.

Special Collections

In addition to the archives proper, which contain the official historical records of the University, Millersville University has a number of special collections.

"It's a very rich collection," says Robert Coley, archivist since 1972, who retired officially on August 20. "In fact, some dealers are amazed at what we have here."

Coley said special collections are acquired not just for the sake of collecting but usually because they have some relevance to the curriculum or other activities of the university.

He was able to purchase some items because of his connections with dealers, and in some cases faculty members were aware of items coming up for sale.

In addition to purchased items, many have been donated by faculty, alumni and friends, and were given to the University because of a chance acquaintance of the donor with a professor.

Highlights include:

- **The Local History and Culture Collection.** An in-depth history and culture research collection of Lancaster and surrounding counties. Among the most highly prized items are books published at the Ephrata Cloister and three Saur Bibles, Pennsylvania German dialect materials and works by local artists.
- **The Carl Van Vechten Memorial Collection of Afro-American Arts and Letters.** Items relative to the Harlem Renaissance and selected materials on African-American history prior to the civil rights movements. Photographs of well-known African-Americans by Van Vechten form the cornerstone of this collection.
- **The Carl Van Vechten Dance Collection and the Carl Van Vechten Photograph Collection.** Photographs and other materials related to dancers and non-African-American subjects.
- **The Leo Ascher Center for Operetta Music.** Scores, sheet music and ephemera of this noted turn-of-the-century Viennese composer and the papers of his daughter, Franzi Ascher-Nash.
- **The Wickersham Pedagogical Collection.** Books on education from the personal library of James P. Wickersham, second principal of Millersville Normal School, forerunner of Millersville University.
- **The International Technology Education Association.** Papers of the organization, formerly the American Industrial Arts Association, since its inception in 1939.
- **The Richard Gehman Collection.** Papers, tapes of interviews, books and other materials of this popular local author.
- **The Chester Wittel Collection.** Original manuscripts of this local composer's music and poetry.
- **The Millersville Authors Collection.** Books, speeches and tapes by faculty, students and alumni.
- **The Rare Book Collection.** Pennsylvania imprints through 1850, rare books of the Local History and Culture Collection, the Marguerite Davison collection of textiles, early European imprints and miniature, private-press, autographed and limited-edition books.
- **The Pennsylvania State Modern Languages Association.** Papers of the organization from its inception in 1919.
- **The Pennsylvania Sociological Association.** Papers of the organization from its inception in 1949.
- **The Robert S. Walker Papers.** Upon his retirement from the U.S. House of Representatives in 1996, Robert S. Walker donated his Congressional papers and related materials to the University. They are housed in a separate room in the library, and parts of the collection will be open to the public when processed.

Bob Walker and Bob Coley review displayed items at dedication ceremony.

Taming TECHNOLOGY

by Amy Dmitzak

Information technology. The phrase conjures up images of quietly humming, industrial-strength computers; bespectacled, serious programmers; a vocabulary with words like UNIX, servers and real time. For many people, the concept is fascinating, but foreign as a trip to another country; the language, incomprehensible.

Enter Susan Komsky, Millersville University's new vice president for information technology, who has taken up the challenge of taming technology. Dr. Komsky heads up the newest administrative division on campus, Information Technology, which brought together under one roof administrative and academic computing.

The new organization was suggested after several studies by the Technology Vision Task Force, a group of faculty, staff and students appointed by the president. Among the top recommendations of the task force was to establish a division to implement technology on campus and hire as its champion a vice president. In August 1998, following a national search which attracted more than 200 applicants, Dr. Komsky joined the Millersville University community.

"The University is a delightful environment to be in," she says. "This is a community where people are committed to quality, to working together and finding solutions. I'm really impressed by the number of good people here who are good at what they do."

A background in communications

With her background in communications—a master's in speech communication from California State University–Northridge and a Ph.D. in communication theory and research from the Annenberg School of Communication at University of Southern California—Dr. Komsky's goal is to "...make technology an effective tool rather than letting it drive us."

"As a communications person I tend to start with the premise that communication is the center of the universe," she explains. "And I've always been interested in what happens when people and technology get together. Technology by itself is not nearly as interesting as its ability to facilitate and change the nature of communication."

She got her start in higher education as a faculty member, teaching communication and information technology courses at Northridge from 1978-1991, and gaining tenure as an associate professor of speech communication. She took on an additional project in 1988 as the coordinator of Project 2000, planning for the instruction, research, administration and staff activities technology needs of the university.

From 1990-1992, she served as director of computing and communication services, responsible for academic computing, administrative computing and facilities and user services. Dr. Komsky was then invited to take on the challenge of redefining the technology environment at Western Washington University (WWU) in Bellingham, and she moved there in 1992 to become director of academic technology and user services.

"I believe that programmatic needs should drive the technology environment," she explains. At WWU she focused on consulting with campus users to collaborate on instruction, research, communication and information processing needs. With her perspective as a faculty member, she expanded technical and production support services for interactive video conferencing and distance education, Web-based instruction, Internet applications for pedagogy and presentation graphics for instruction.

The challenge at Millersville

"The job at Millersville seemed like a wonderful opportunity because it presented some really exciting challenges," she comments. "The campus was clearly ready to pull together a lot of threads that had been moving independently and march forward."

One of the first tasks was to create the Information Technology division, weaving together staff and responsibilities from several departments on campus. By spring 1999 a new organization structure emerged with four departments: communication and network services (CNS), Web-site services (WSS), administrative information services (AIS), and academic, consulting and technical services (ACTS).

According to the vice president,

CNS deals with the cabling and electronics that deliver the voice, video and data networks. "One of Millersville's great accomplishments is that we really have a solid network infrastructure. We've now moved all the residence halls to ATM, which is a higher speed and is able to handle large packets of information, like graphics and video," she states.

The WSS area supports the many uses of Web-based technology for academic and administrative functions. The new University home page, implemented in August, was one of the first projects to be accomplished.

AIS, formerly the administrative computing area, is now given over to maintaining the Banner database, which supports admissions, registration, alumni and fundraising records, and the finance system. "Right now, we use the system for good reporting. One of our goals here is to establish a management information system for good decisionmaking," says Dr. Komsky. "By exploiting Banner's integrated system, we can take information from several different modules, put it together quickly to be able to make decisions about faculty load and enrollment information, for example. We can make adjustments where we need to based on up-to-the-minute information."

ACTS provides desktop consulting, support for academic labs and classrooms, the Help Desk, and LAN services and systems. Dr. Komsky describes them as "front office" and "back office."

"It's very important to us to build a culture of good customer service," she says. "ACTS is our direct point of contact with users, and the staff help people use technology well. Our Help Desk has one central phone number, and the staffers, many of them students, know how to get questions answered."

She explains the back-office function: "At the very heart of the hardware and software is where a systems programmer operates. They worry about things like the reliability and the security of the machine. We really need those people!"

Curricular transformation

Vice President Komsky is particularly interested in working with academic programs, such as the Virtual University, the Center for Academic Excellence, the Link-to-Learn project and the Center for Agile Pennsylvania Education (CAPE).

Dr. Susan Komsky is MU's V.P. for information technology.

As more projects involved distance education, Information Technology became involved in discussions about rethinking how the University delivers education. "If we're going to ask faculty to rethink how they teach and look at what technology can add to the curriculum," asks Dr. Komsky, "how are we going to support that teaching?"

She suggests some answers: offering training to faculty; providing student assistant help to prepare the materials for the technology; delivering full-time, ongoing expertise on campus; and furnishing the equipment needed to use the technology. Dr. Komsky mentions the work on the McCollough Communications Complex and the new Science & Technology Building, noting that future renovations will include technology retrofitting.

MU staff and faculty learn about the new university e-mail software in the training room in the computer center.

The other side of SUSAN KOMSKY

Started out: Born in Chicago, raised in Los Angeles.

Lives with: Friday and Felicia, two Yorkshire terriers who "allow me to live in the house with them."

Hobbies: Stitching, petit point; former art minor who draws and paints (be sure to check out the drawings in her office); likes antiques and reupholsters them; crossword and jigsaw puzzles.

Last books read: Two New York Times bestseller children's books by J.K. Rowling, *Harry Potter and the Sorcerer's Stone* and *Harry Potter and the Chamber of Secrets*.

Likes to read: History and biography

Culinary accomplishments: "A dynamite Thanksgiving dinner" and pumpkin cheesecake.

Latest travel adventure: Drove across country to move to Lancaster.

Balancing her high-tech career demand is an appreciation for art and beauty. A talented artist, Susan is shown here with one of her drawings.

Highlight of latest travel adventure: Finding outrageous tourist attractions, like the one-ton fiberglass cow in North Dakota.

Wants to travel to: Camera safari in Africa; Antarctica, Iceland, Australia/New Zealand, and more of the USA.

Favorite Lancaster-area restaurants: Gallo Rosso, JM's Bistro, Accomac Inn Sunday brunch, Hong Kong Garden.

Sports fan: Loves baseball and basketball and will always be an L.A. Dodgers fan, but looking for East Coast teams.

Technology

ON CAMPUS

"Curriculum transformation is particularly labor-intensive the first time around," she comments. "That's why the Student Technology Assistance (STA) program will be helpful. Not only will the faculty be able to focus on content areas instead of process tasks, the STAs will gain valuable experience."

More services for students

Susan Komsky is especially interested in meeting the needs – and the expectations – of today's "wired" students. She mentions several plans:

- 24/7 help desk services, expanding the time help is available.
- Automated registration and voice response registration, expected to be up and running for the spring 2000 semester.
- Computer assistance for residence hall students, including how to get personal computers hooked up, and providing training for the campus computing environment.
- Making access to computers more accessible, either through expanded hours for centralized labs, creating more, smaller labs throughout campus, or encouraging more individual student computer ownership.

The future of technology

Dr. Komsky is excited by the prospects of new applications for technology. "Our success in 'taming technology' creates expectations of what we'll be able to do tomorrow," she says. "That's the challenge—how to transform our campus culture and at the same time meet the needs of individual areas.

"And that's what the Information Technology can do well. We have learned that in order to survive, we must plan complex projects and make them work. We live and breathe for that. Whether it's as big as a Banner conversion or as modest as changing a lab, we can figure out how to do it."

Amy Dmizak is the assistant vice president for university advancement at Millersville University.

Y2K compliance is an institutional problem and the solution requires the awareness and participation of the entire campus community. Every area of the University has equipment, information and software that can be affected by Y2K. To assure campus-wide participation, a special task force was established with representatives from all areas of the university.

The most important task was to identify equipment that may contain embedded microchips, assess its vulnerability to Y2K problems and determine if that vulnerability will disrupt critical university activities (teaching, research, essential record-keeping, etc.).

MU's plan focuses on three basic strategies:

- Communication—educating the campus community about individual and institutional Y2K problems and compliance
- Assessment—evaluating the University's vulnerability
- Remediation—implementing appropriate steps to assure compliance

Steps taken include:

- Created a Y2K web page which contains campus information, links to Y2K Web pages from vendors, government agencies and other universities. www.millersville.edu/~infotech/y2k.assessment.html
- Conducted a full inventory of microcomputers on campus, and are in the process of evaluating audio visual equipment
- Helping departments evaluate scientific equipment
- Contacted our vendors to determine Y2K compliance of our central computer systems, facilities systems, and voice, video and data network equipment
- Identified the methods of fixing non-compliant systems

The result of all these efforts is that Millersville is on-target to insure compliance for our critical processes.

ESSENTIAL EQUIPMENT

- Central computer systems—MU's administrative information systems are rated Y2K compliant. These systems have been validated by the vendors. A full-scale test was conducted over the summer to independently verify the vendors' assurances.
- Communication infrastructure—Voice communication, the software running the campus telephone switch was upgraded and validated in 1998. For the campus voice mail systems, new software is scheduled for installation and testing in October.
- Video—Videoconferencing system, cable TV, and satellite dishes are compliant.
- Data—all evaluation and upgrades were upgraded and compliant as of April 1999.
- Microchips—A campus-wide inventory of microcomputers found 84% of our 1,500 PC's are already compliant. As new computers are purchased for high-end uses, the compliant and usable older equipment will be handed down to replace non-compliant PC's. For any remaining non-compliant PC's, a commercial software patch—"Fix-It"—will be installed to override the internal clock and make the computer Y2K compliant.

SOFTWARE

All University-supported software is either already Y2K compliant or can be made compliant with software patches. Inevitably, some microchips and software will escape advance detection. In some cases, noncompliance may not be noticed because the date function is purely informational and would not cripple a system

Student computers—Many students bring their own computers to campus. MU will help students acquire "Fix-It" and any software patches they may need to make their computers compliant.

The work of the task force continues, but Millersville is well-prepared for the Y2K compliance of critical systems affecting the University's academic and business processes.

A Leap of
FAITH

Photos by Dan Marschka

Story by Patricia Coulson

The world watched as refugees fled their homes in Kosovo. The images carried on television or in newspapers and magazines were heart wrenching—full of unimaginable suffering, fear, and despair. They came to Albania—women, children, the elderly—and a noticeable absence of young men.

It was a crisis beyond the political, economic, and cultural parameters—reflecting humanity at its worst—and its best.

Half a world away from their home in Lancaster, people like Rev. Luke Veronis, an Orthodox Christian priest, and his wife Faith Stathis Veronis '85, '91, serve as missionaries while living in Tirana, the capital of Albania. Five years ago, Faith Veronis, a new bride of one month, arrived in the small Eastern European country with her husband. Luke often says he took her on a honeymoon to Albania. And, they are still there.

This spring, at the height of the NATO bombing and atrocities in Kosovo, two other Lancasterians headed for Albania—Dan Marschka, photojournalist for the *Intelligencer Journal* newspaper, and Dr. Tom Miller, a doctor with Norlanco Medical Associates. Miller had spent time in Albania in 1996-97 and wanted to offer his medical expertise.

As a friend of the Veronises, Marschka was moved by Luke's emailed reports of the suffering taking place. Marschka says, "Here were local people doing such good things in the midst of such tragedy." Despite the danger, he felt compelled to go—with his camera, capturing an international crisis on an intensely personal level.

In April, Luke wrote in his journal of the influx of refugees, "The numbers are so large, that they often lose their effect on our senses. A half million people displaced from their homes. Over one hundred thousand refugees in Albania, a country that is struggling to simply take care of its own people. Possibly another hundred thousand arriving in the near future. When repeated often, such large numbers become meaningless."

Luke describes his church's mission simply, "Be silent; be with the suffering people; speak against injustice."

Faith Veronis has faced the many challenges with grace and courage. Every day, her skills as a teacher and communicator along with her empathy and dedication to helping others makes a real difference in the lives she touches. And, she touches many.

Making daily visits to the city's two maternity hospitals, Faith meets personally with the Kosovar women to provide whatever assistance is needed. With funding from her Orthodox Church both in Albania and America, Faith has been able to help 300 women and their newborns. The refugee women have nothing. No baby clothes. No diapers. No baby food. Nothing. Often they don't even know if their husband is alive, or if they will be reunited as a family. She delivers care packages with clothing, blankets, diapers and many baby supplies.

PHOTO OPPOSITE PAGE:

Faith holds one of the many abandoned babies left at the hospital by Albanian women. She hopes to establish an orphanage to meet the growing need.

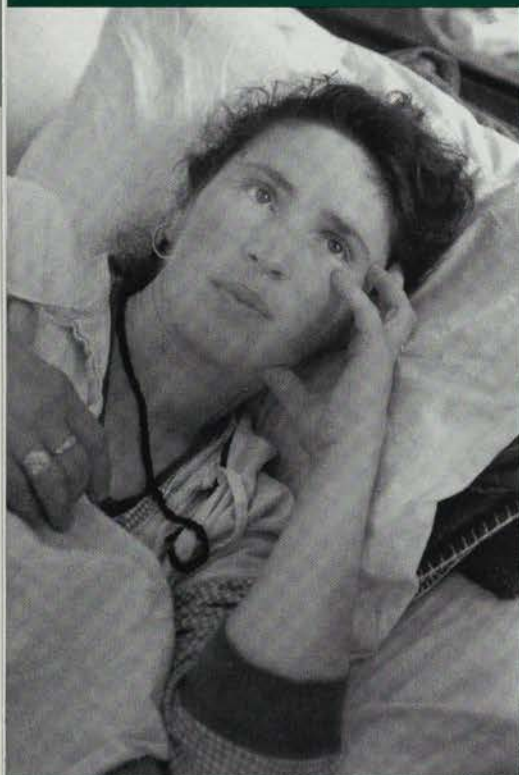

Although struggling to provide for their own citizens, Albania has offered a safe haven for thousands of refugees.

The Veronis family takes a stroll in their neighborhood.

Faith teaches advanced English to students in her home.

LEFT:

Tirana's two maternity hospitals contact Faith whenever a Kosovar woman gives birth. She delivers a loving care package of necessary clothing and supplies provided by the church for the women and their newborns.

"Personal contact with real people leave unforgettable imprints on one's soul."

-Fr. Luke Veronis

According to Faith, "Whatever the need was, our church was committed to offering help." For those women with special medical needs or babies who had complications, her church paid for the necessary care. Funds were also offered to cover the funeral expenses of the children who died during birth. Or, transportation costs to send women back to camps or their homes if they lived away from Tirana.

"All the women had tragic and unbelievable stories of walking for hours and days with little or no food or water," Faith said. Many did not know the whereabouts of their husbands and other family members who they had left in Kosovo. Some had their babies in the mountains and then fled for Albania a few days after birth. Most did not have anything for themselves or their babies when they came to the hospital. Some lost their children.

"The women were grateful, but very uncertain and scared for their future and the children's future. As a mother and a mother-to-be, I was often moved to tears thinking and putting myself in their place."

Children have a special place in her heart. Faith volunteers at a program to help the abandoned Albanian newborns, and has organized others from her church to assist and research available grants to improve the facilities. She and Luke have been active in youth outreach programs.

"It seems so long ago that I was a university student at Millersville, but I have many fond memories," Faith says. As an undergraduate, she carried a dual major with a B.S. in communications and a B.A. in psychology. After graduation, she worked in public relations at the Pennsylvania School of Arts, and later returned to Millersville, earning a master's degree in education.

Her teaching career began at IU 13. She then taught special education and regular classes at Price Elementary School—the school she attended as a young child. For Faith, it was "a special joy to teach there."

In Albania, she has taught a variety of subjects at the church's theological school, and has been instrumental in establishing math, language arts, visual arts, religious, and English and Greek language programs for the kindergartens.

As an active volunteer, Faith participates in programs directed to helping women in the refugee camps, Tirana's prison, and maternity hospitals. Mother-to-mother, woman-to-woman, she offers genuine kindness, compassion and caring to everyone she comes in contact with.

LEFT:
Faith and Luke Veronis, and their son Paul Alexander. She is expecting their second child at the end of January.

RIGHT:
A swimming hole in one of the camps brings out a carefree spirit of the children. Recognizing Americans, they flash the peace sign to the photographer.

Even her background in public relations is engaged by writing articles and taking photos for the church's children's magazine.

In addition to the Kosovo situation, Faith and her husband have been in the midst of other dangerous predicaments. In March of 1997, many

Albanians lost their life savings when investment pyramid schemes fell. The result was total anarchy. The government was overthrown and military barracks were broken into. Albanians expressed their rage by taking to the streets and shooting guns aimlessly.

Faith remembers, "As a result, all the embassies ordered the evacuation of its citizens and I was one of several hundred Americans who was airlifted out of Albania by helicopter. My husband remained in Albania as a symbol of solidarity with the suffering Albanian people. I was among the first to return after five weeks."

As to the Kosovar refugees, the worst appears to be past. Most have returned to their homes looking for relatives and finding what is left of the homes. Luke and Faith remain in Albania to continue their work.

"Among all the suffering, poor conditions and crises, Albanians amaze me with their perseverance and hospitality. When a difficult situation arises, they are often encouraging me and offering me assistance," said Faith. "By far, the most special blessing being here are the relationships we have developed."

Despite the suffering they have witnessed, Luke writes that "personal contact with real people leave unforgettable imprints on one's soul."

For Luke and Faith Veronis, their work and faith continues.

Patricia Coulson is the interim editor of the Review.

Luke and Faith Veronis pray before a meal with their guest, Dr. Tom Miller (center). A Lancaster physician, Miller traveled to Albania to lend his medical expertise.

"Among all the suffering, poor conditions, and crises, Albanians amaze me with their perseverance and hospitality. By far, the most special blessing being here are the relationships we have developed."

-Faith Veronis

ALUMNI INTEREST

Corporate Visitation Program off to successful start

Lancaster Laboratories was the setting for MU's first corporate visit. Steven DiGuiseppe, '82 director of alumni services, (above left) welcomed the alumni to the luncheon which was catered by the University.

Millersville University Alumni Association launched its Corporate Visitation Program entitled "Millersville at Work." The first event was held at Lancaster Laboratories on May 11 with more than 50 participants. Lancaster Labs was selected as the pilot corporation due to its strong support of the University and its programs. Approximately 12 percent, or 75, of Lancaster Laboratories' 600 employees are Millersville graduates. Millersville believes that many corporations, like Lancaster Labs, are investors of the University, as MU provides area companies with valuable employees.

An on-site University presence at a corporation is key to the goals of the program which is designed to increase the opportunities for alumni to network, provide information on numerous facets of the University (e.g., admissions, co-operative education, etc.), and aid in building partnerships between the academic and corporate communities.

Dr. Al Hoffman, dean of the School

of Science and Mathematics, shared information about science and math programs at MU, emphasizing the University's Master Plan in direct correlation to the new Science and Technology Building, and the renovations to Roddy Science Center to be completed over the next few years. Also in attendance from the University were Chip Kirchner, executive director of corporate partnerships and public grants; Tammy Powell, assistant director of development; Doug Cherry '80, alumni board of directors; and Steven DiGuiseppe '82, director of alumni services.

More than 15 companies with a strong representation of alumni (over 35 employees) have been identified and include MBNA America, Lancaster General Hospital, AMP Incorporated, Armstrong World Industries, Merck & Company, RR Donnelley & Sons, Air Products and Shared Medical Systems Corporation. These corporations and others will be part of the corporate visitation series.

New Alumni: About credential files

Alumni who established credential files with the Career Services Office before graduating need to check their file status. This file is maintained for three years following graduation or completion of certification. Expired files are purged each December.

To extend University maintenance of his/her credential file beyond the recommended three years, an alumnus must renew the file contents for an annual fee of \$20. (Contact the Career Services office before sending a payment for fee.)

The credential file contents are limited to:

- Current resume.
- An unofficial transcript of Millersville University course work.
- A maximum of six letters of recommendation.
- A copy of student's teaching or cooperative education evaluations.
- Career Services information release form.

All official transcripts of academic course work are kept indefinitely in the registrar's office. For information on obtaining official transcripts, call the registrar at 717-872-3035.

Help with career moves

If you are planning a job or career change, check out MU's Career Services. It provides:

- Individual career and job search counseling.
- Workshops on resume writing, effective interviewing and job search strategies.
- Job vacancy listings.

To contact Career Services write to: Margo Sassaman, Career Services Office, Millersville University, P.O. Box 1002, Millersville, PA 17551-0302. The office is located in Lyle Hall. Call 717-872-3312 or fax 717-872-3915. Visit the homepage at: <www.millersv.edu/~careersv/>

Branch event wrap-up

Lancaster County Alumni Branch

- On Saturday, May 1, the Lancaster County Alumni Branch held their annual meeting and dessert social in Lyle Hall. A new slate of officers was chosen for the 1999-2000 committee: Cynthia Pagotto '72, President; Don Crownover '62, Vice President; and Walter Ledzinski '72, Secretary and Treasurer. Special greetings were given by Alumni Association President Cheryl Youtz '69. Among the 127 people in attendance was President-Elect, Michael Henry '83.
- On Saturday, June 26 a group of 22 Lancaster County Branch members

traveled to Union Station in Washington, D.C. and toured the *Newseum* in Arlington, VA.

York County Alumni Branch

On Friday, April 9, the York County Alumni Branch held its annual dinner meeting at Rutter's Restaurant. President-Elect of the Alumni Association, Michael Henry '83, greeted the 64 people in attendance. University remarks were given by Dr. Francine McNairy, Vice President for Academic Affairs and Provost. Officers for the branch committee are Co-Presidents, Sue Jones '59 and

Angie Lutz '75; Secretary, Margaret Boyd '59.

Bucks County Alumni Branch

The Bucks County Alumni Branch held its most successful event in years on Friday, May 21, with 30 members participating. The club sponsored a reception and murder mystery dinner theatre at Fisher's Tudor House in Bensalem, Pa. University remarks were given by Dr. Bernice Rydell, Vice President for Finance and Administration.

Galaxy of Stars returning to campus for "Star Lyte" performance

The All-Campus Musical Organization (ACMO) along with the MU Alumni Association have been working on the "Star Lyte" performance for nearly a year, and now it's just weeks away. This benefit also serves as the official dedication of the newly restored Lyte Auditorium in Alumni Hall on Sunday, October 31, at 2 p.m.

The review will highlight ACMO's musicals spanning the past three decades. The show will feature many of the original stars, including an invited special guest from the Tony Award-winning, *Rent*, singing favorites from *Guys and Dolls*, *Godspell*, *Oklahoma*, *Applause*, *Jesus Christ Superstar*, and *The Music Man*.

Reserve your tickets now! (See Homecoming "Wrap-Around" for reservation information.) The price is \$35 for champagne reception and performance, or \$25 for performance only. For more information, please call the Alumni Services Office at 717-872-3352 or 1-800-681-1855.

Emily Ruyak '72		Melissa Zapolski '94

If you have any information regarding any of these Dolphins, please contact the alumni services office at 1-800-681-1855.

Alumni support needed for Empty Bowls project

The Student Advancement Committee of the MU Alumni Association is committed to helping the "Empty Bowls" project—and alumni help is needed!

Whether you're a school teacher looking for a project for your class, a baker who wishes to donate bread, maybe a community leader who likes to donate time and/or money....the "Empty Bowls" project welcomes new volunteers.

To kick off the fundraising, a dinner will be held on Thursday, November 3, 1999. A videotape will explain how the bowls are made and provide information about hunger projects. The evening will also include music and an auction of unique bowls and other items.

Tickets are \$10 for adults; \$20 for a family of 4. Donations will be accepted for children and MU students; no charge for infants. To get involved or for dinner tickets, call the Millersville University Wellness & Community Services office at 717-872-3841.

This unique community service project is organized by the students and sponsored by the University. It donates funding to the South Central Pennsylvania Food Bank, Spanish American Civic Association (SACA), Crispus Attucks and Water Street Rescue Mission.

Please join the fight against hunger.

1949 Class Reunion: 50 years after graduation

FIRST ROW (left to right): Anna Ruth Jacobs, Noreen Kline, Emma Lou Kraft, M. Lureae Bomberger, C. Doris Misselhorn, Ruth Lonke, Barbara (Keener) Shenk, Jo (Newman) O'Gibney.

SECOND ROW (left to right): John Clements, Nancy Rill, Dr. Doris Creswell, Amelia Taylor, Mary Miller, Louis Kukoda, Carolyn Kukoda, Kenneth Williams, Lois (Kienzy) Breitegan.

THIRD ROW (left to right): Leon Hendrickson, Wilbur Savage, Warren Miller, William Keays, Mitzy Freeman, Howard Freeman, Carl Dreisbach Jr., Robert Zellers, Edward Randler, Donald Shmick, Arthur Reist, Chuck Benshetler, Jay Irwin, Richard Hess, Jim Breitegan.

New alumni board members elected

Michael K. Henry, Willow Street, was elected president of the Millersville University Alumni Association at the board of directors annual meeting held during spring reunion weekend.

Henry will serve as president for the next two years. He is a sales engineer for United Electric Supply, Inc.

Other officers of the alumni association elected for two-year terms are:

Joyce D. King, '83, Quakertown, was named president-elect. King is the medical program coordinator, Worldwide OTC Development of Merck Research Laboratories.

Donald Rice, '72, Lancaster, was elected treasurer. He is the vice president and regional manager for Farmers First Bank in Lancaster.

Dr. Richard Frerichs, '64, Conestoga, was selected as secretary. A faculty member in the educational foundations department, Dr. Frerichs is also a member of the community relations committee and chairs the MU Athletic Hall of Fame Committee.

Ten other people were elected to the alumni association's board of directors for two-year terms:

- Raymond Antonelli '83, Lancaster
- Michael Callahan '81, Mountville
- Doug Cherry '80, Lancaster
- MaryAnn Gerber '67, Millersville
- Melanie Henry '86, Willow Street
- David Hernandez '71, Lancaster
- Thomas J. Jordan IV '89, Millersville
- John W.W. Loose '47, Lancaster
- Kelly Patrick '96, Lansdale
- Michael G. Warfel '84, Camp Hill

Outgoing board members Daniel Eldridge '90, Elizabeth Kauffman '52, Harry Lines '40, and Mary E. Lehr '58 were recognized at the May board meeting.

Alumni Calendar of Events

ALUMNI NOTE: If you live in Lancaster and/or York counties, you will receive a separate invitation for the alumni events in your area.

CLASS NOTES

Pre 60s

Anna M. Kendig '31, Lancaster, **Elizabeth Frey Brabson '33**, Peach Bottom, **J. Wilbur Eshleman '34**, Lititz, and **Lloyd S. Siegrist '34**, Manheim, recently celebrated their seventieth high school class reunion. They are all members of the Manor Township High School Class of 1929, and were featured in the *Sunday News*.

Henry J. Kauffman '32, Lancaster, recently donated his regional decorative arts collection to the Heritage Center Museum of Lancaster County. The collection will be housed in the newly expanded section of the museum and named the Henry J. Kauffman gallery, for the former MU professor.

Harry K. Lines '40, Lancaster, recently participated in the Eleventh Annual Lancaster, Pa., Senior Games. Mr. Lines competed in the eighty-and-over class and won in eleven events.

William A. Polaski '40, Newark, Del., taught in the Wilmington Public Schools for more than 35 years. For the past two years he has been an advisor-supervisor in the College of Mechanical Engineering at the University of Delaware, and he has also been a machinist interpreter at the Hagley Museum for the past nine years.

Dr. Hilda Adams Kring '42, Grove City, published a museum cookbook from the Harmonist Küche. The book was translated from the German by Dr. Kring and Lieselotte Fritz Keene, with introduction and headnotes written by Dr. Kring.

John W. W. Loose '47, recently presented a lecture on Crime and Punishment in Early Lancaster County at the Lititz Historical Foundation. Mr. Loose served as president of the Lancaster County Historical Society from 1973 until 1992, and now serves as the society's president emeritus.

Mary Herr Deitrich '48 and husband **George '47**, recently celebrated their 50th anniversary with a trip to England, Scotland, and Wales via the QE2 and The Concorde.

Renee Genbauffe O'Leary '51, Newark, Del., was featured in the Crossroads Section of *The News Journal* describing her unique and "fun" teaching of fundamentals of science with her nationally acclaimed early childhood science curriculum.

Charles R. Dutill '54, Plymouth Meeting, was recently honored by the Retired Senior Volunteer Program for his service to the organization.

Dr. Warren H. Groff '55, Memphis, Tenn., keynoted conferences in Taipei, Taiwan,

in 1991, 1993 and 1994, as well as in Korea in 1997. His presentation in Taiwan focused on thinking about the application of technologies to electronic business and how education can be proactive in co-creating cybercommunities.

Rep. Jere W. Schuler '56, Lancaster, was honored by the McCaskey High School Alumni Association with the distinguished alumni award in a recent ceremony.

Anita Inskip Schulze '57, East Berlin, was recently honored by the Adams County Chapter of the Pennsylvania Association of School Retirees as the outgoing president of the local chapter.

1960s

Bernard E. Stein '60, Springfield, recently ran for a seventh term as Fifth Ward Commissioner.

Daniel K. Forry '63, Columbia, recently ran for a seat on the Hempfield School Board.

Larry E. McComsey '63, Denver, recently retired from Cocalico School District as a teacher and athletic director. McComsey has been in education for 36 years, the last 15 as Cocalico's athletic director.

Clyde R. McMillan-Gamber '63, New Holland, was featured in the "I Know a Story" section of the *Sunday News* describing his flower garden and the wildlife that inhabits it. He is a naturalist with the Lancaster County Parks Department and was also a volunteer judge for the 1999 Lancaster Science and Engineering Fair.

Annette Pickel Schnee '63, Lancaster, was featured in the "In the Spotlight" section of the *Sunday News* reporting her volunteer activities at St. Philip the Apostle in Millersville. Her dedication recently earned her honors as Parishioner of the Year.

Robert S. Walker '64, East Petersburg, received the President's Medallion from MU President Joseph Caputo during the dedication ceremonies at the opening of the Walker archives at Ganser Library.

Catherine Walzl Waller '64, Bethel Park, retired in June 1998 after 34 years teaching in the public schools of Pennsylvania and Delaware.

Jean Reeder Brackbill '65, Quarryville, and husband Robert celebrated their 50th anniversary in June.

Dr. E. William Kreiger, Jr. '67, York, was featured in the *York Daily Record* in an article describing his early attraction to science. Mr. Kreiger is an assistant professor of earth science and science education at York College.

Richard C. Baker '68, Strasburg, was recently selected as Voice of Democracy

Teacher of the Year for the veterans of Foreign Wars District 9. Mr. Baker is a language arts teacher at Lampeter-Strasburg High School.

Solomon Lausch '68, Leesport, was featured in a news article reporting his commitment to strong educational programming and his position as superintendent of the Schuylkill Valley School District.

Woodrow H. Sites '68, Mount Joy, recently retired from his position as school superintendent of Donegal School District after 28 years.

Evelyn E. Sullivan '68, Lancaster, was elected to the the board of directions of the National Association of Bar Executives. She is the executive director of the Lancaster Bar Association.

Dr. James P. Brown '69, Jamison, was named principal of the new Worcester Elementary School.

Vera Stauffer Hottenstein '69, Manheim, was featured in the *Intelligencer Journal* describing the 82-year-old's quilting business. An elementary school teacher for 25 years, Mrs. Hottenstein started her business in 1985.

Judith Horning James '69, Red Lion, recently retired as principal of Clearview Elementary School in the Red Lion Area School District after a 30-year career.

Lola P. Poff '69, Dallastown, retired after teaching fifth grade in the Red Lion School District for 31 years.

1970s

Dr. Martin A. Finkel '70, Cherry Hill, N.J., professor of clinical pediatrics in the School of Osteopathic Medicine at the University of Medicine and Dentistry of New Jersey was honored with the Distinguished Alumni award by the Manheim Township School District for 1999.

Dr. Iris S. MacRae '70, Lancaster, received the Latino Affairs Pride Award from Governor Tom Ridge. Dr. MacRae introduced bilingual education to the School District of Lancaster to address the Latino community's need for equal educational opportunity.

Dr. Kathy R. Entekin '72, Pottstown, recently retired as assistant superintendent at Exeter Township School District to become curriculum instruction director at Upper Merion School District.

Stephen L. Powell '72, Lancaster, has been named as a finalist in the 1999 Central Pennsylvania Entrepreneur of the Year awards program.

Charles A. Bloomfield '73, York, was named principal of Lehigh Valley Christian High School.

Helen L. Ebersole '73, Lancaster, has been appointed chair of the University Continuing Education Association Region II Professional Development Committee.

Barbara Crouse Fish '73, Montoursville, taught school for seven years and is now writing articles for travel journals, and a book.

Marie V. Killian '73, Lancaster, has been hired as a development specialist by PAI, a Lancaster-based nonprofit organization serving adults with mental retardation.

Samuel R. Dodson '74, Lititz, insurance executive and **Richard R. Benfer '80**, manufacturers representative, are running for the Manheim Township School board.

Linda L. Kreiser '74, Middletown, is a seventh-grade science teacher and field hockey coach in the Lower Dauphin School District. Last season the total number of wins reached 350 during her 21 years of coaching. She is a past honoree of the MU Alumni Athletic Hall of Fame.

Dawn Neiswender Marks '74, Myerstown, and husband Randy, were recently featured musicians at The Baptist Church of Phoenixville worship service.

Nick S. Bromer '76, Marietta, a patent lawyer, designed a patent office constructed like a spiral that allows the nearly six million U.S. patents to be filed in a user friendly format.

Janice Goodall-Johnston '76, Clarks Summit, was recently honored by the Boys & Girls Club of Scranton board of directors as a "Champion of Youth."

Richard Nickel '76, Lebanon, was part of a panel on virtual community publishing. He teaches communications technology at Pine Grove High School.

Doris Krumrine Robb '76, Lancaster, was featured in the Q&A section of the *Intelligencer Journal*. Mrs. Robb is a teacher at Lancaster Country Day School, a volunteer radiation monitor, and member of Susquehanna Valley Alliance.

Bruce R. Carr '77, Lancaster, was named vice president for commercial lending by the Bank of Lancaster County.

Dexter Davis '77, Chester, was featured in an article in the *Daily Times* describing the reorganization of the Chester Upland School District. Mr. Dexter is an assistant superintendent at the school district.

William C. Jandrasitz '77, Nesquehoning, was named technical supervisor for the StarBrite operation of Silberline Manufacturing Co., Inc.

Donna Memmi Malpezzi '77, Harrisburg, was promoted to chief of staff for State Senate Majority Leader F. Joseph Loeper.

Minor W. Redmond Jr. '77, Millersville, recently received an honorary alumnus

FAMILY ALBUM

Demystifying the Internet for teachers

Tony Brewer '72 is having the time of his life, although he'd like to curtail his travel schedule. Logging in about 200,000 frequent flier miles annually, Tony presents educational and motivational lectures and programs around the world.

Recognized as a leading Internet lecturer and trainer, he specializes in educating teachers about integrating the Internet into their classroom. He estimates that only 20% of our teachers are prepared to teach their students about the Internet and its vast resources.

That could be one reason why his latest book, "The Educators Guide to the Internet," published this spring, has been selling like hotcakes. It is geared toward teachers who want to integrate the Internet in their classroom. Written in plain English, topics include Internet basics, advanced Internet search techniques, and how to create your own Web page. In addition, there are lesson plans and an appendix packed with over 500 great educational Internet resources.

He also authored an informative, yet humorous book, "Beginner's Guide to the Internet," published by McGraw Hill. "It was the first of its kind," says Tony. As to the humorous slant, his philosophy is you've got to make it fun. Being funny is part of who he is.

Tony received the prestigious Apprise award for humorous writing with his

book on growing up in the South, titled "Catfish Don't Jump" which was read on National Public Radio. Currently, he is writing a three-part technology series for PBS' online services.

Twice a year, Tony films a cable TV special, "Internet in Schools," which is shown on national television.

One reason for his success as a motivational speaker is his own personal experiences. Wounded in

Vietnam in 1969, Tony spent a year in a VA Hospital facing surgery and physical therapy. It was during this time he resolved to get an education.

Working 48 hours a week, he carried a full course load year 'round, and completed his degree in psychology in 2-1/2 years, later taking graduate classes in guidance and counseling. His heart was always in education, but-with a wife and family-he felt he couldn't afford to go into teaching. Instead, Tony entered the business world. His wife of 32 years, Linda '72, is an educator.

In 1990, Tony and a partner launched a seminar business to educate people and businesses about the Internet. This was prior to "Internet" and "World Wide Web" being household words. In fact, most people didn't even know the Internet existed. But, Tony predicted an explosion in its use. He foresaw "computers in every classroom would be the rage of the future," and, in 1993, he fine-tuned his business niche to guiding teachers through the Web.

With their son and daughter grown and pursuing their own careers, Tony and Linda have discovered a new passion-horses. Along with their friend and fellow MU alum, Larry Killian '62, they raise and show championship Morgan horses.

Naturally, Tony has his own Web site: www.tonybrewer.com

CLASS NOTES

award from the Thaddeus Stevens College of Technology alumni association.

Steven Wursta Jr. '77, Allentown, joined PNC Bank as an assistant vice president, responsible for portfolio management and new business development.

James E. Coxe '78, Lancaster, was named network systems administrator for Kohl Building Products.

Wayne R. Charles '78, Bernville, is teaching adult classes in woodworking from his home. Mr. Charles is a photography and graphic arts teacher at Reading Area High School.

Leslie L. Hyson '78, Lancaster, was named director of the Lancaster County Human Relations Commission.

Charles S. Merris Jr. '78, Landisville, recently ran for the Hempfield School Board, and was a volunteer judge at the 1999 Lancaster Science & Engineering Fair.

Kathy Kennedy Bork '79, Media, is a second grade teacher at West Chester Friends School and part-time student at Widener University, pursuing a master's degree in English and language arts.

Lynn R. Eisenhauer '79, Leola, was named architectural projects manager for DORMA Architectural Hardware.

M. Theresa Frederick '79, Rochester, N.Y., received a master's in social work from Roberts Wesleyan College.

1980s

David A. Stabley '80, and **Deborah Fleck-Stabley '80**, Bloomsburg, were featured in an article about their shop, Creative Clay Works, and hosted an exhibition and workshop at East Stroudsburg University.

R. Aril Smith '81, Lancaster, was named assistant strength and conditioning coach for the Cleveland Browns.

Dr. Timothy Whisler '81, Chester Springs, authored a book, "The British Motor Industry 1945-94: A Case Study in Industrial Decline."

Robert A. Foults '82, Claymont, Del., received a dual master's degree in human resources and public administration. He also recently completed two years as president of Delaware Association of Financial Aid Administrators and is now employed by Delaware Technical and Community College.

George Gatto '82, Levittown, recently earned his master's degree in educational administration from Rider University.

James B. Impink '82, Tampa, Fla., has been promoted to manager of applications project for the credit system at Talbots, Inc., in Tampa.

James M. Yousaitis '83, Reading, was named assistant sports editor of the *Reading Eagle* and the *Reading Times*.

Larry Alexander '84, Ephrata, is an *Intelligencer Journal* reporter. He recently won a Keystone award for feature beat reporting.

Karleen M. Brubaker-Ferree '84, Ephrata, has recently been named director of the skilled nursing facility at Stone Ridge Retirement Community.

Patricia Miller Funt '84, Orrtanna, recently ran for a third term as Adams County prothonotary.

Bonnie Gilbert Goshen '84, Lancaster, was a member of the first class to graduate from the new Family Nurse Practitioner Program, a master's level nursing program at Millersville University.

Melissa H. Byers '85, Columbia, an English teacher at Hempfield High School, recently wrote a story about how her father's failing health brought them closer. She was featured in the *Sunday News*.

Joanne M. Manuel '85, Lancaster, has recently accepted the position of library administrator at the Columbia Public Library.

Kathy A. Ryan '85, Fredericksburg, Va., was named teacher of the year at Fredericksburg City Schools, and has been nominated for the Disney Teacher of the Year.

James J. Fairorth '86, Lancaster, is the general manager of Tait Towers of Lititz. He was featured in the *Sunday News* about the high efficiency portable stage he built for the Rolling Stones.

Arthur Goldman '86, Willow Street, was the coordinator of the fourth annual National Cancer Survivors Day Celebration in Millersville.

Tara L. Eyer '95, Carlisle, and **Nicole E. Francis '95**, Carlisle, have been selected for membership in the Woolsack Honor

FAMILY ALBUM

Every dog has its day...

And Sarah Gutter makes sure of it.

When this 1994 Millersville graduate isn't busy working as the studio potter at Market Street Pottery in the Cygnet Studios of Elizabethtown, Pennsylvania, she is active as a board member and volunteer with the Greyhound Pets of America/Maryland Inc. (GPA). Gutter's association with GPA began as an adoption representative about four years ago, and two years later, she and her husband, David, became board members at large involved in decisions regarding the direction of the organization.

The organization is one of almost 200 agencies nationwide devoted to finding homes for greyhounds when their short racing careers are over. The majestic greyhound, whose roots can be traced to ancient Egypt, races from about eighteen months to five years of age. In the past, the retired dogs were euthanized or taken to shelters or laboratories. Although responsible owners have always cared for older greyhounds, it wasn't until the early 1980s that attention was drawn to the plight of unwanted and uncared-for racing dogs, and adoption agencies began to form.

Sarah, who currently has four greyhounds of her own (Razzle, Louie, Sunny, and Ziggy), asserts they make wonderful pets. Shortly after she and David married, Sarah decided she

wanted to get a dog, but her husband had reservations because he had always enjoyed cats. Sarah researched the personality of greyhounds and found them to be very gentle and almost catlike. "They don't bark a lot. They're pretty quiet and calm despite the fact that people think they're probably nervous and anxious."

As greyhound adoption representatives, Sarah and

David talk to prospective owners and explain what it's like to live with a greyhound. They visit the home to see if it is an appropriate environment for the dog and try to assess the match of owner and dog. In fact, according to Sarah, "The best part (of being a volunteer) is seeing a dog going to a home with a family that really loves it, who really falls in love with it: love at first sight." Not all adoptions go smoothly, but volunteers will also make follow-up calls to see that the families and animals receive the support that they need.

Sarah has always had a love of animals. "I wanted to be a vet at one time, but I probably get to enjoy my animals more by not being a vet because I have more time to spend with them." She has managed to marry her vocation and avocation. She crafts pottery, including greyhound motif boxes, part time. Her clay craft is evolving and now includes wheel-thrown designs as well.

Her art may change, but greyhounds will always be a constant in her life. "Adopt a greyhound; it's a neat dog. If you follow the adoption agency's advice and train the dog properly, you won't regret it." Sarah recommends that anyone interested in cultivating a lifelong friend call 1-800-366-1472, for the closest adoption agency.

CLASS NOTES

Society at The Dickinson School of Law of The Pennsylvania State University.

Karen M. Lewis '95, Reading, has been awarded membership in the Beta Omicron Chapter of Pi Lambda Theta international honorary and professional association.

Waters was a school administrator, teacher and coach with the Ben Salem School District and World War II veteran. He was inducted into the Pennsylvania Wrestling Hall of Fame in 1995.

Michael B. Shivell '52, Wilkes-Barre, passed away on January 1, 1999, at the age of 91. A World War II veteran, Mr. Shivell received the Purple Heart. He was a teacher for the Plains School District for 30 years, retiring in 1972.

Richard W. Freed '53, Pennsburg, passed away on November 13, 1998, at the age of 67. A veteran of the Korean war, he was employed by the Boyertown Area School District for 32 years, retiring in 1986. Most recently he had been the principal at Boyertown Junior High East.

Curvin C. Senft Jr. '53, New Salem, died on March 17, 1999, at the age of 67. Mr. Senft taught physical science in West York High School for 31 years. He served in the U.S. Army during the Korean War.

Charlotte M. Picone '61, Lansdale, passed away on March 31, 1999. Miss Picone was a 37-year employee of the Souderton Area School District, retiring in 1996 from the Indian Valley Middle School, where she taught Spanish. She was 59 years old.

Alice K. Reese '66, Pine Grove, passed away on April 4, 1999. She taught in the Pine Grove School District for 30 years.

June Loose Riley '75, Elizabethtown, died on March 8, 1999, at the age of 69. Mrs. Riley taught in public schools for more than 25 years, retiring in 1994 from Donegal Middle School.

Margaret Wynn Brown '76, Lititz, passed away on January 11, 1999. She was employed as secretary and receptionist at Lititz Auto Service. She was 44.

Charlotte Holsopple Glick '78, Goshen, Ind., died on February 8, 1999. She and her husband, Del, were the first husband-wife pastoral team of the Indiana-Michigan Mennonite Conference. She was the Waterford Church's first woman pastor. The Glicks were also the first family to serve in China with the China Educational Exchange. Mrs. Glick was 51.

Clifford L. Harnly '78, Lititz, passed away on March 19, 1999. He was employed for 20 years by the Locust Grove Mennonite School in Smoketown. Mr. Harnly was 41.

Stephen E. Reimer '91, Las Vegas, Nev., died on May 5, 1999. He most recently was employed as the general manager at a Regal Cinemas in Las Vegas and was the founding president of Pi Nu Epsilon at Millersville University.

Previewing MU's 1999 fall sports season

Three defending PSAC championship teams (two division, one tournament). A potential Harlon Hill Trophy candidate in football. A two-time field hockey All-American who is considered one of the nation's best players. These are some of the high points of Millersville University's fall varsity sports.

Football The expectation "bar" is raised high whenever Millersville football is discussed, and 1999 should be no different. Head Coach **Dr. Gene A. Carpenter** has 30 lettermen, including 15 starters, set to return from last year's 8-2 squad which posted a perfect 6-0 PSAC Eastern Division mark.

Returning to the controls of the Marauder offense will be two-time PSAC East first team all-star quarterback **Drew Folmar**, who threw for a school-record 30 touchdown passes last fall despite playing with a back injury. His off-season surgery to remove a herniated disc was successful.

Although All-American wide receiver Mike McFetridge has graduated and moved on to a free-agent bid to play professionally, Folmar still has an impressive arsenal of pass catchers at his disposal.

Junior wideout **Sean Scott** snared 73 passes for 1,008 yards in '98, while 6-foot-5 tight end **Chris Hemmert** came on late in the season to catch seven touchdown tosses.

All-PSAC center **Matt Doherty** anchors the offensive line, while bruising junior running back **John Flamish** (746 yards, 8 TDs) spearheads an improved MU rush game. Freshman redshirt **Terrance Trogdon** was impressive in spring camp and could be a top-flight rookie rusher.

The defense features all-region and all-conference senior middle linebacker **Lee Rizzotto**, whose 87 tackles and five sacks paced a hard-hitting Marauder 4-3 alignment last fall. Sophomore linebacker **Mike Zellner** excelled in his first varsity season with 66 tackles and four sacks.

In the secondary, seniors **Wade Fauntleroy** (54 tackles, 10 pass break-ups) and **Robert Thomas** (37 stops) return as the safeties. Fifth-year senior **Gordon Cain** returns to cornerback after he missed the entire 1998 campaign due to a fractured collarbone.

The Marauders also possess a potent kicker in All-PSAC junior **Andy Ryzewski**, who drilled eight field goals and a club-record 40 extra points through the uprights last

season. (The complete '99 football schedule was published in the *Review* summer issue.)

Tennis The 'Ville women's tennis team has five starters back from its most victorious season (20-4).

Juniors **Lauren Witmer** and **Abbey Neff** were undefeated in doubles play last fall (20-0), raise their overall two-year record to a glittering 49-8. Witmer and Neff rank second and fourth, respectively, in career singles wins with 47 and 42.

Sophomore **Abbie Sweitzer**, whose 28 singles wins established a new Millersville standard, is also back along with 44-year-old junior **Pam Kaylor** and second-year letterwinner **Michelle Crouse**.

Volleyball In volleyball, seventh-year mentor **Julie Hubbard** must replace four graduated all-star performers: **Michelle Kratz**, (1998 PSAC East Player of the Year), **Jaime Martzall**, **Lenora Bunch**, and **Jena Ilus**.

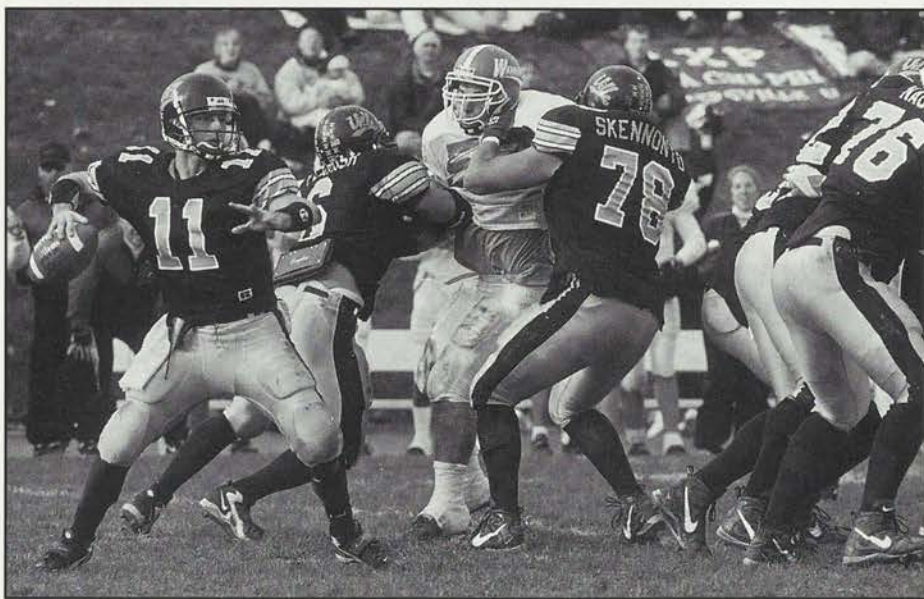

The top returnees for the MU spikers are senior **Kellee Sheffield**, junior middle blocker **Jen Hahn** and sophomore outside hitter **Annie Beck** ('98 PSAC East Rookie of the Year).

Field Hockey The Marauder field hockey squad tallied a 13-6 record last fall and third-year mentor **Katrina King** has the program headed upward. The goal this fall is to make the PSAC playoffs for the first time in six years.

MU features NFHCA Division II All-America and All-PSAC first team midfielder **Ini Hazatonos**, All-PSAC second team forward **Becky Brackbill** and senior midfielder/forward **Gina Morgan**.

Millersville also features one of the PSAC's top goalies in junior **Mandy Houser**.

Soccer The Marauder men's soccer team enjoyed its record-setting campaign of 14-6-1 in 1998. However, coach **Bob Charles** must replace the top two scorers in team history as all-stars **Sean Szerba** and **Ciaran Dalton** have graduated.

Last year, quarterback Drew Folmar became the first MU signal-caller to pass for 3,000 yards in a season.

SPORTS

Ready to step in to fill the breach are junior **Doug Eby** and sophomores **Gene Burke** and **Sean Davies**.

PSAC all-star fullbacks **Chris Mitchell** and **Scott Zacharda** anchor an experienced backfield, and the Marauders' seasoned goalkeepers in senior **Chris Smith** and sophomore **B.J. Cradlin** return.

Having played against some of the world's best players when the Chinese national team trained at MU last spring, the MU women's soccer team hopes this experience will translate into more victories this fall.

Sophomore **Demetra Hazatonos** and junior **Becky Morris** are expected to pace the offensive attack, while senior captain **Angela Hack** and junior goalkeeper **Heidi Lininger** will key the 'Ville defense.

Expectations are raised for Millersville cross country this fall as the Marauder harriers take their marks.

The men's squad has three lettermen returning, led by improved senior **Mike Bushnell**. Coach **Keith White** is expecting the highly-touted freshmen trio—**Mark Stallings**, **Steve Pizzuli** and **Russ Stellmach**—to emerge as top-flight competitors.

The 'Ville women features a veteran trio in senior **Carisa Heiney** (All-East Regional and All-PSAC performer in '98) plus juniors **Meghan Edmiston** and **Betty Mohler**.

MILLERSVILLE MEN'S BASKETBALL

Come celebrate!

A series of special events to commemorate the 100th anniversary of men's intercollegiate basketball at Millersville are planned.

- On Saturday, February 5, 2000, an anniversary dinner will highlight the greatest Marauder cage teams and players from the past century. The dinner will be held prior to the home game at 8 p.m. with PSAC foe Kutztown that evening.

Special pre-game and halftime receptions at Pucillo Gymnasium are scheduled:

- Wednesday, December 8, 1999
Fan Appreciation Night/Anniversary Celebration Tip-Off
- Saturday, January 22, 2000
Corporate Sponsorship Night

For further information, contact the MU Office of Alumni Services at 800-861-1855 or 717-872-3352.

*=PSAC Eastern Division game

Marauder sports teams amass all-time season wins

Millersville's championship women's tennis team was on hand to congratulate the men's tennis team when they clinched the NCAA-II East title.

The 1998-99 academic year was the most victorious in Millersville athletics history. Black and Gold squads eclipsed the 200-victory milestone for the first time and finished with an overall win total of 209 (115 women, 94 men).

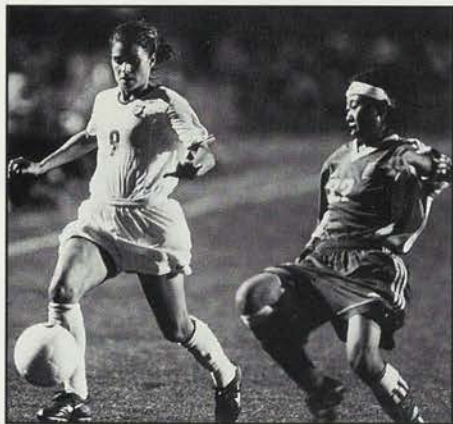

Four Marauder teams posted 20 or more victories: baseball (29), softball (23), women's basketball (22), and women's tennis (20). The volleyball and men's tennis teams recorded 19 wins apiece while the men's basketball team returned to triumphant form with 18 conquests.

The following squads set records for most wins in a campaign: men's soccer (14), men's tennis (19), women's tennis (20), women's basketball (22), women's swimming (10), and softball (23).

Team accomplishments included NCAA-II regional titles in men's and women's tennis, the golf squad's first PSAC tournament championship, a repeat league title for the women's tennis team, and undefeated PSAC Eastern Division marks by the football (6-0) and volleyball (10-0) squads.

A giant kick for women's soccer

Women's sports leapt to the front page of newspapers around the world this summer during the World Cup. And, Millersville played a

Mia Hamm of Team USA and Bai Jie, of the Chinese soccer team battled at an exhibition match held in Hershey this April.

unique role—it served as the training site for the People's Republic of China women's soccer team (see Summer 1999 *Review* issue).

The Chinese who were dazzling in practice sessions and scrimmages on Pucillo Field, during their two-week stay on campus, advanced to the finals. There they encountered Team USA. More than 100 million people in China, and 40 million U.S. citizens, watched the live broadcast on July 10. It drew an all-time women's sporting event crowd of 90,185 at the Rose Bowl in Pasadena, California.

In a penalty-kick shootout, the Americans captured their second Women's World Cup title. Look for both teams to meet again next summer in Sydney for the Olympics.

MU ranks 7th in Dixon Trophy standings

Millersville finished in the middle of the pack in the final tabulations for the PSAC's F. Eugene Dixon Trophy, emblematic of athletic success in conference competition during the 1998-99 academic year.

Based on its best 12 finishes (six men's and six women's) in post-season tournament or regular season play, the Marauders finished with 106 points. Of note, the Black and Gold were in a tightly-knit bunch with five other schools: only eight points separated the third and eighth place spots. Edinboro claimed third place with 113 points.

Shippensburg won the Dixon Trophy for the second consecutive year, edging IUP by a point, 121.5 to 120.5.

SPORTS

Marauder spring teams reap All-Star rewards

MU's 1999 spring sports teams reaped a sizable cache of all-star rewards:

- The 'Ville **golf** team, captured the program's first-ever PSAC tournament championship.

Sophomore **Chad Schulze** won the State System/Burgess Collegiate Shootout title June 2 at Hershey Country Club with an even-par 71, the lowest round in the tournament's 14-year history. And, he paired with freshman **Andrew Morgan** in early May to win the Central Pennsylvania Better-Ball Championship.

Scott Vandegrift received his second PSAC Coach of the Year award.

- The Marauder **women's tennis** squad capped a superb 20-4 season by winning its second consecutive NCAA-II East Regional title.

- The 'Ville **men's tennis** squad also captured its second NCAA-II East Regional crown in impressive fashion.

Junior **Wes Kintner** won 27 of 30 singles contests and his 90 percent win ratio established a new Marauder record. In doubles, he combined with senior **Pepe Garriga** for 19 victories at the #1 slot.

- The much-improved **softball** squad, recorded its first winning season in five years, and established 18 team and 10 individual records.

Sophomore third baseman **Audra Landers** from Minersville received All-PSAC Eastern Division first team honors and was the team's sole all-star honoree.

Another sophomore, **Sabrina Atkins** enjoyed a record-breaking season in which she belted 52 hits and drove in 38 runs—both new marks.

- Although the 'Ville **baseball** team did not qualify for PSAC post-season play, it still received ample all-star recognition.

Freshman first baseman **Matt Knox** earned PSAC East Rookie of the Year honors and outfielder **Mike Pestke** received All-PSAC first team status.

Named to the All-PSAC East second unit were—senior hurlers **Timm Bromirski** and **Jim Morrow**, **Ryan Brink**, **Matt Becker**, **Knox**, and **Mike Manning**.

- In **women's lacrosse**, senior defender **Andrea Downes** was selected to the All-PSAC first team, and junior linemate **Jen Brokenshire** was accorded all-league second team status.

INVEST IN MU'S FUTURE

Make a difference. You can invest in MU's future by making a gift that benefits academic programs and scholarships. Think about making a gift. Contact the Development Office for more information. Phone: 717-872-3820; Fax: 717-871-2287

The Case of the Forensic Flies

When middle and high school students signed up for the Forensic Entomology workshop as part of Millersville's Summer Science Training Program, they never imagined it would take them to the scene of a real life crime scene.

John R. Wallace, MU professor of biology, was the mastermind behind the crime and a creative method of thoroughly engaging the students. The workshop began harmlessly enough—covering topics such as types of general entomology, forensic entomology and postmortem interval (the time from insect colonization to corpse discovery).

After the students had lunch, a University police officer came to the classroom with news of a grisly discovery on campus—a corpse had been found. A badly decomposed corpse. (In reality, the corpse was that of a dead pig—intercepted at the butcher.) About ten days before the workshop, Wallace planted the evidence by placing the pig outside for “conditioning.”

The police led the students to the crime scene complete with official yellow police tape and evidence markers. At Wallace's direction, the amateur gumshoe scientists began collecting evidence such as insects and maggots, measuring air temperatures around the body, catching a few flies and examining the body for other clues left by insects and animals.

It was then back to the lab to identify the insects and evaluate the stage in their lifecycle, compare this information to established data from the formal lab experiments, and assess temperature readings and the hot weather conditions. By determining the postmortem interval of the insects, the class correctly, and scientifically, determined when the pig met his maker. To date, no arrests have been made.

The hands-on workshop made quite an impression on the kids. It also demonstrated how scientists and law enforcement people can work together to solve crimes. Wallace knows first hand about the importance of collaboration. In addition to his research projects, he has worked on several actual homicide cases with the Michigan State Police in East Lansing.

The future looks

BRIGHT

for Millersville students...

Starting September 28, we'll be calling you and over 10,000 fellow alumni and University friends, asking you to make a contribution to Millersville University's 1999-2000 Annual Giving campaign.

This call is all about the future. By making a pledge during your conversation with a member of the MU calling team, you will help to secure future success for Millersville University and our students.

Of course, your Annual Fund gift funds scholarships, library materials, and cultural, athletic and other co-curricular programs. This year, in addition to support for these traditional areas, you will also be asked to direct gifts to facility expansion and renovation projects planned for Osburn Hall, McComsey Hall and Roddy Science Center. Increased support for academic programs and state-of-the art facilities add up to productive careers for the future alums of MU.

When MU calls, please say "yes" to supporting enriched educational opportunities for Millersville students through the Annual Giving campaign.

*Make the choice that counts
towards bright futures for
MU students.*

Your gift will help us shine!

Millersville University home page at:

www.millersv.edu

Schedule of Events—Sunday, October 31

Sunday, October 31

11:30 a.m.-
1:30 p.m. **Star Lyte Champagne Reception
Brunch**, Lyle Hall. You're invited
to a star-studded afternoon celebrating
a special cast. A special menu has been
planned. **Reservations required. See
reservation form.**

12 noon **University Christian Fellowship
Luncheon**, Potter House. For more
details, please call Andrew Sensenig at
717-872-1405.

SUNDAY, OCTOBER 31, 2 P.M.

Star Lyte Performance, Lyte Auditorium in Alumni Hall. A review highlighting musicals performed by the All-Campus Musical Organization (ACMO) from 1970 to present. This performance will feature many of the original stars, including an invited special guest from the Tony Award-winning Rent. Featuring songs from Guys and Dolls, Godspell, Oklahoma, Applause, Jesus Christ Superstar, The Music Man and many more. This benefit officially dedicates the newly restored Lyte Auditorium in Alumni Hall. Tickets available September 20. Credit card orders can be placed by calling the MU Ticket Office at 717-872-3811. Ticket price: \$35 champagne brunch and performance; \$25 performance only. A portion of the proceeds will go to Millersville University and ACMO. Tickets required. **See reservation form.**

Special Notes

- The Alumni Services office phone numbers are 800-681-1855 (toll-free) and 717-872-3352; fax: 717-871-5050. Please visit our alumni homepage at www.millersv.edu/~alumni and register for Homecoming on-line.
- Millersville University is committed to making its programs accessible to all prospective participants. Let us know if you have special requirements due to a disability.
- On Saturday, special baby changing areas will be available in the Student Memorial Center, Room 123, from 9:00 a.m. to 5:00 p.m. and Biemesderfer Stadium, 1-4:30 p.m.

MU Throw

Have you purchased your MU throw yet? Over 700 have been sold to date! Need a jump start for the holidays or any other reason for a gift? The MU throw comes in hunter green, cranberry red or Williamsburg blue, and you can order this exquisite afghan for the price of \$49.95. It will be shipped to you within six weeks (while supplies last). See the order form in this brochure and order now!

Schedule of Events—Saturday, October 30 (continued)

11 a.m. - 12 noon Computer Science Department Open House, Room 208, Wickersham Hall. Refreshments will be served.

11 a.m. Open House/Meet the New Dean: Science and Technology Building. Come one, come all to the newest facility on the MU campus. This 80,000-square-foot addition to the Roddy Science Center houses many laboratories for the School of Science and Mathematics. Meet the new Dean, Dr. Edward Shane. Tours of the facility are featured.

11:30 a.m. Tolling of the Alumni Bell

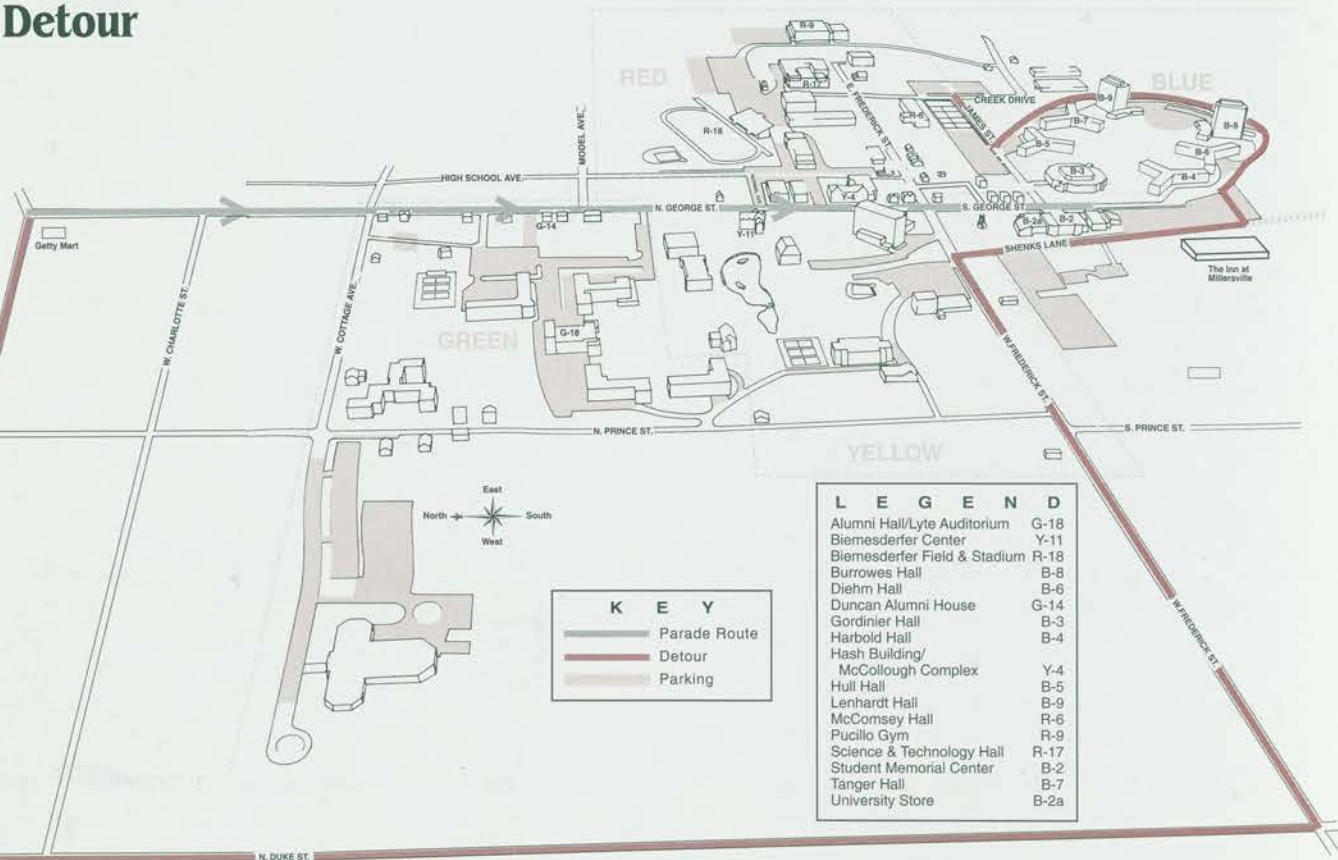

11:30 a.m. DeSouza Weather Station Dedication, Science and Technology Building. Dr. Russell L. DeSouza, Professor of

Earth Sciences emeritus, will be honored posthumously. In his 24 years of service DeSouza was instrumental in building a vigorous program in meteorology. **By invitation.** For more information, call Earth Sciences Department at 717-872-3289.

11:30 a.m. All-Alumni Luncheon, Student Memorial Center, Reighard Multipurpose Room. After the parade and before the game, head over to the Student Memorial Center for a buffet lunch. **Tickets are required. See reservation form.**

12 noon Alumni Registration, Biemesderfer Stadium Alumni Tent. Register and pick up alumni buttons, reunion souvenirs. Refreshments, too! Come register for a special prize.

Parade Route & Detour

Schedule of Events—Saturday, October 30 (continued)

12:15 p.m. Annual Earth Sciences Department Alumni Luncheon, DeSouza Weather Station, fourth floor, Science and Technology Building. Call the department secretary at 717-872-3289 for details. **By invitation.**

Pre-game MU Athletic Hall of Fame Recognition, Biemesderfer Stadium (50-yard line)

1 p.m. Marauder Football vs. Kutztown Golden Bears, Biemesderfer Stadium. Alumni who preregister using the reservation form receive a \$1 discount on game tickets. **See reservation form.**

1 p.m. Men's Soccer Alumni game, Pucillo Field

Halftime Crowning of the 1999 Charity King and Queen/MU Marching Band Program, Biemesderfer Stadium. Alumni band members, bring your instruments and join the MU band at 12 noon. Sheet music provided.

4 p.m. Post Game Social, Biemesderfer Stadium/Practice Field, tent areas. Stay after the game for the Community/Alumni Social. Free to alumni and friends. Entertainment of all kinds will be on hand, including jazz music and the Baltimore Zoo's ZooMobile (weather permitting). The ZooMobile includes games, artifacts and zoo animals. Sponsored by the MU Alumni Association and Millersville University. Also included, academic departments and organizations. Those registered at press time include: the MU Student Ambassadors, Biology Department, Kappa Phi Delta Sorority, and United Campus Ministry. **See reservation form.**

4 p.m. John Newman Association Alumni Picnic, Newman House. Contact Father Dan Powell at 717-872-3350 or Jim Fair at 717-872-0946.

5 p.m. MU Balloon Launch, Gordinier Field (subject to weather conditions)

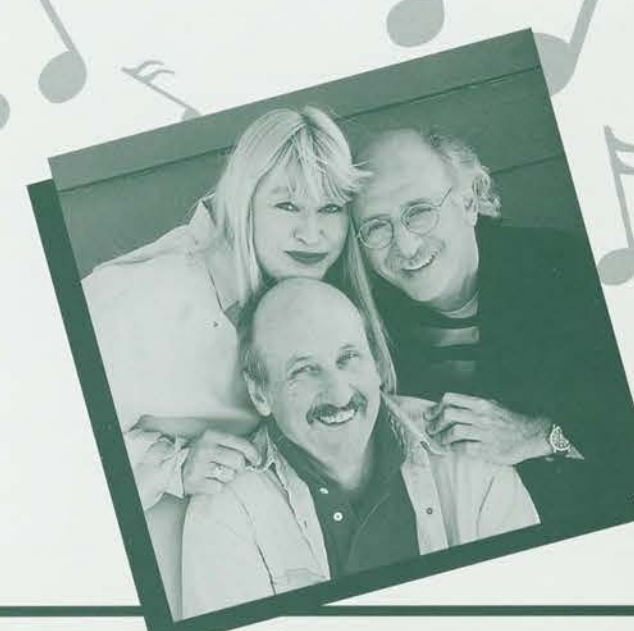

6-9 p.m. Alpha Phi Alpha Fraternity 25th Anniversary Reception, Gordinier Hall, Bolger Conference Center. Alumni and former brothers will receive information under separate mailing. For more details, contact the Alumni Office at 1-800-681-1855.

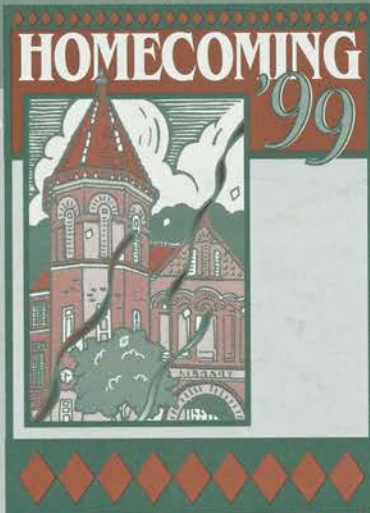

6 p.m. 50th Anniversary of the 1949 PA State Conference Wrestling Championship Reception and Dinner, Gordinier Hall, Bolger Conference Center. A special reunion for wrestling enthusiasts celebrating a milestone in the history of men's athletics. Information to come under separate mailing. For more details, contact the Alumni Office at 1-800-681-1855.

Times to be announced Class Reunions: 1964 (35th) and 1974 (25th), Gordinier Hall, Bolger Conference Center. Information to come under separate mailing. For more details, contact the Alumni Office at 1-800-681-1855.

8 p.m. MU Theatre Production: "A...My Name is Alice," Rafters Theatre, Dutcher Hall. A musical revue conceived by Joan Micklin Silver and Julianne Boyd. For ticket information, call 717-872-3129.

8 p.m. Homecoming Concert: Peter, Paul and Mary, Pucillo Gym. Join us for an evening of folk music by Grammy Award-winning world-renowned trio who got their start some 36 years ago singing songs of conscience and concern. Relive "Puff (the Magic Dragon)," "Blowin' in the Wind," "If I Had a Hammer," "Leaving on a Jet Plane," and many more. General admission (bleacher seats): \$20; Floor seats with backs: \$25. MU student tickets: \$10 (2 per student). Tickets available: September 20 at the Student Memorial Center ticket window or call 717-872-3811 for charge card orders.
