Happenings

WINTER 2000

Looking Back at the 20th Century

The 1999-2000 Academic Theme

- Dr. Marsha Jean Tyson Darling, "Women's Reproductive Rights in the Next Millennium," March 6, 7:30 p.m.; Lehr Room, Gordinier Hall.

Cultural Entertainment

For ticket information, call 717-872-3811, 8 a.m.-4:30 p.m., Monday-Friday. Performances will be in Lyte Auditorium in Alumni Hall unless otherwise noted.

- A Brief History of White Music, February 13, 8 p.m. Tickets are \$10 for adults and \$5 for children.
- Cleveland Ballet Dancing Wheels, February 26, 8 p.m. Tickets are \$10 for adults and \$5 for children.

Lectures

- Bebe Moore Campbell, Hazel I. Jackson Lecture; February 2, 7:30 p.m.; Lehr Room, Gordinier Hall.
- Clarence Page, Carter G. Woodson Lecture, sponsored by First Union Bank; February 9, 7:30 p.m.; Lehr Room, Gordinier Hall.
- Dr. Arno Jensen, sponsored by Blue Shield/HealthGuard; March 2, 8 p.m.; Reighard Multipurpose Room, Student Memorial Center.
- Dr. William Dugger, Anna Funk Lockey Education Lecture; March 15, 7 p.m.; Lyte Auditorium in Alumni Hall.

Political Lecture Series

- Democratic Candidates for U.S. Senate; date/time TBA.

Black Culture Celebration

- Dr. Willie L. Morris III, "A Night of Saxophone with Willie Morris," February 16, 8 p.m.; Lyte Auditorium in Alumni Hall.
- Dr. Michael S. Harper, "The African-American Literary Voice," March 27, 7:30 p.m., Myers Auditorium, McComsey Hall.

Latino Celebration

- Jon Seda, star of film, *I Like It Like That*, (see Women's Film Series), March 1, 7 p.m., Myers Auditorium, McComsey Hall.

Art Exhibits

GANSER LIBRARY ART GALLERY

Open Monday through Friday, noon-4 p.m.; also Monday through Thursday, 7-9 p.m.; Sunday, 1-4 p.m.

- Sarah Frankel: Paintings, January 24-February 11.
- Lynn Cazabon: Photographs and Zoe Beloff: CD ROM, February 21-March 15.

SYKES GALLERY

Sykes Gallery, Breidenstine Hall, is open Monday-Friday, 8 a.m.-4:30 p.m.; and Monday, 7-9 p.m.

- Lisa Naples: Ceramics, January 31-February 17.
- Gavin O'Grady: Furniture, March 13-April 13.

Theater

All performances begin at 8 p.m. For reservations, call 717-872-3129.

- "Kind Ness" by Ping Chong, directed by Dr. Michael Phillips, March 2-5, 9-11 at 8 p.m., Dutcher Hall.
- "The Secret Garden," performed by the All Campus Musical Organization (ACMO), March 30, 31 and April 1, 2, Lyte Auditorium in Alumni Hall.

Music

All events are in Lyte Auditorium in Alumni Hall and are free unless otherwise noted.

JANUARY

- 26 Faculty lecture/recital of music by Dmitri Shostakovitch by Madeleine Darmiento, viola; 8 p.m.
- 30 Faculty recital by Ross Ellison, organ; 7:30 p.m.

FEBRUARY

- 2 Guest artist: Joe Murphy, saxophone; 8 p.m.
- 9 Faculty recital by Daniel M. Heslink, percussion; 8 p.m.
- 16 Guest artist: Willie Morris, saxophone; 8 p.m.
- 20 Opera: Dido and Aeneas, Millersville University Opera Theater; 7:30 p.m.
- 24 Jazz Fest d'Ville: MU Jazz Bands; directed by N. Keith Wiley; 8 p.m.
- 25 Jazz Fest d'Ville: Jazz Band Workshop; 8 a.m.-5 p.m.

MARCH

- 1 Faculty recital by Andy Wen, saxophone and clarinet; 8 p.m.
- 29 Faculty recital by Marcia L. Englar, guitar, Myers Auditorium, McComsey Hall; 8 p.m.

Foreign Film Series

Shown in Myers Auditorium, McComsey Hall, Sundays at 7 p.m. Free admission.

- *Flamenco* (Spain), February 20.
- *The Vanishing* (Netherlands), March 12.

Women's Film Series

Shown in Myers Auditorium, McComsey Hall, Wednesdays at 6:30 p.m. Free admission. All films are preceded by a guest lecturer and discussion.

- *Portrait of Teresa*, February 9.
- *I Like It Like That*, March 1.

All events are free unless otherwise indicated.

More information is available in the University's Cultural Events Calendar, or on-line at www.millersv.edu/homedocs/calendars.html

MILLERSVILLE REVIEW

Winter 1999-2000

The Millersville Review is published by Millersville University of Pennsylvania of the State System of Higher Education and mailed free to Millersville alumni, faculty, staff and other friends of the University.

State System of Higher Education:
 James H. McCormick, chancellor

Board of Governors:
 F. Eugene Dixon Jr., chair, Kim E. Lyttle, vice chair, R. Benjamin Wiley, vice chair, Syed R. Ali-Zaidi, Muriel Berman, Zachary I. Cattell, Jeffrey W. Coy, Daniel P. Elby, Charles A. Gomulka, Eugene W. Hickok Jr., Joy C. Leonard, Shelby A. Linton, F. Joseph Loeper, Rocco A. Ortenzio, Tom Ridge, B. Michael Schaul, Jere W. Schuler '56, Patrick J. Stapleton, John K. Thornburgh and Christine J. Toretti.

MU Council of Trustees:
 Mr. Charles W. Hash Sr. '42, chair, Mr. Abram W. Diffenbach '73, Dr. Gail D. Edwards, Dr. Joseph E. Hennessey, Ms. Caroline M. Hoffer '77, Dr. William B. McIlwaine, Ms. Margaret A. Sayago, Mr. Nelson Sears, Ms. Sue A. Walker '64, Mr. Michael G. Warfel '84, Mr. Paul G. Wedel, and Dr. James H. McCormick, ex officio.

President of the University:
 Dr. Joseph A. Caputo

Alumni Association:
 Michael K. Henry '83, president; Joyce D. King '83, president-elect; Donald Rice '72, treasurer; and Richard Frerichs '64, secretary.

Accreditations

Family Nurse Practitioner

Millersville University's Family Nurse Practitioner Program, leading to a Master of Science in Nursing degree, has been granted accreditation by the National League for Nursing Accrediting Commission (NLNAC). Accreditation means the program has met stringent standards and criteria of academic quality.

Students graduating from the Millersville program qualify for certification by the Pennsylvania State Board of Nursing as Certified Registered Nurse Practitioners. Graduates of the program can provide primary health care to well individuals from birth through old age, prenatal care and, in collaboration with physicians, diagnosis and treatment of acute and chronic illnesses.

Computer Science degree

Millersville's Bachelor of Science Degree Program in Computer Science has been accredited by the Computing Sciences Accreditation Board (CSAB).

With the accreditation, Millersville becomes the only school among the 14 Pennsylvania State System of Higher Education universities to have an accredited Bachelor of Science Degree Program in Computer Science. Other Pennsylvania institutions accredited by the CSAB include Carnegie-Mellon, Lehigh, Bucknell and Temple Universities.

Campus dialogue discusses issues of race

Millersville hosted a "Dialogue on Race" on October 19 with over 400 faculty, staff and students participating. Small group discussions examined the question, "Who are we?" and centered on the need of students to embrace the diversity within the University. The Dialogue program was the first of an ongoing series that will continue throughout this academic year.

MU/HACC sign dual admissions agreement

Under a new agreement between Millersville University and Harrisburg Area Community College (HACC), students who earn their associate's degree at HACC will be able to transfer automatically to Millersville in pursuit of their bachelor's degree.

The Dual Admission Program Agreement—signed September 30 by key officials from MU and HACC—enables students to apply to both

institutions simultaneously, as early as their senior year of high school. Students in the program can take advantage of financial aid opportunities at both institutions, and will have access to academic and career advising services as well as campus facilities at HACC and Millersville.

The program is an extension of a strong articulation agreement that has existed between HACC and Millersville since 1993.

Science & Technology Building officially opens

The Science & Technology Building, dedicated on October 27, is the heart of a complex of facilities that will provide enhanced laboratory experiences in the natural sciences and technologies to MU students. It includes a 144-seat auditorium, state-of-the-art laboratories for teaching and student-faculty research, several study and conference areas, two lecture halls and 49 faculty offices. The 88,000-square-foot facility was constructed at a cost of \$12 million. In a separate ceremony, the Russell L. DeSouza Weather Station, located on the top floor of the building, was dedicated in honor of the late Dr. DeSouza.

Alcohol Abuse Task Force sets recommendations to combat alcohol abuse

Millersville University's Student Alcohol Abuse Task Force has completed its report. Established last fall to develop a more comprehensive approach to combating student alcohol abuse, the task force is composed of faculty members, students, administrators, community drug and alcohol specialists and others.

Outlining a combination of strategies and practices designed to reduce student alcohol abuse levels on campus, both in frequency and in negative consequences, the key recommendations by the task force include:

- Maximizing participation in alternative campus activities.
- More effective orientation and integration of incoming students to the University community.
- Increased social marketing, specifically in regard to changing student attitudes about "normal" amounts of drinking.

- Better intervention approaches, including clearly defined disciplinary consequences and assistance to students who are abusing alcohol.

Subcommittees have been appointed for each of the recommendations and are now planning in detail how they will be accomplished. While some things will be done relatively easily, implementation of other recommendations will require further deliberation, commitment of financial resources and resolution of logistical problems. Development of such programs will have a long-term impact on the factors involving the total community, and create more responsible drinking on the part of students.

The University is grateful to the Highmark companies of Capital Blue Shield and HealthGuard and Alumax for their financial assistance in support of the program.

MU Center for Economic Education develops Internet resource for teachers

Further advancing technology into the 21st century, the Millersville University Center for Economic Education (MUCEE) recently presented its newest Internet resource for incorporating entrepreneurship and economic principles into the classroom.

On September 15, MUCEE unveiled its Web site publication, "TechConnect: Connecting Entrepreneurship and Economic Education through Technology," during a training workshop designed for teachers in grades seven through twelve.

TechConnect was created and edited by Dr. Michael Gumpper, assistant professor of economics and director of the MUCEE, and Charlotte Higler, Pennsylvania Partnership for Economic Education field consultant. Technical expertise was provided by Bradford Hovinen, a freshman at the University of Delaware. Funding for TechConnect was made possible by a Technology Literacy Challenge Fund grant from the Pennsylvania Department of Education. For teachers, TechConnect is complete with over 30 lesson plans for teaching the basics of economics as well as more developed entrepreneurial skills, according to Gumpper. "It includes hands-on teaching tools, such as 'Taking Charge and Writing a Successful Business Plan,' that contain handouts, worksheets, transparencies and additional links to further incorporate entrepreneurship and economics into the middle and high school curriculum." Students can also benefit from TechConnect by using it to explore their own interests in economics and entrepreneurship. There are over 25 links to entrepreneurial topics including links to learning about the success of local and regional entrepreneurs. TechConnect also provides expert answers to students' economic and business plan questions. For a preview of TechConnect, visit the Web site <http://techconnect.webinbox.com>.

Millersville Men's Basketball

A Proud Tradition for 100 Years

The history of men's intercollegiate basketball at Millersville University is a rich tapestry of tradition and excellence

that spans the entire 20th century. Introduced in the winter of 1900, basketball became Millersville's third intercollegiate sport just nine years after the invention of the game. It began modestly in the tiny confines of Dutcher Hall with a team of five players and a "manager" and has evolved into a far different game, and level of athleticism.

In that inaugural season, Millersville – dressed in long pants and knee-length socks – won both of its contests against Franklin & Marshall College (23-8) and Company K, a local Army Company, (13-6). The hoops were baskets featuring closed nets, and a stick had to be used to pop the ball out after every score.

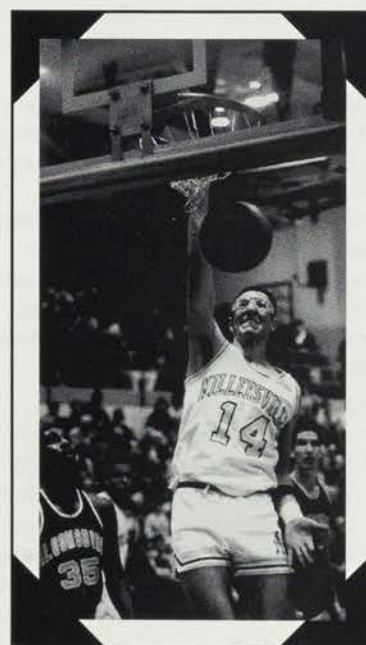

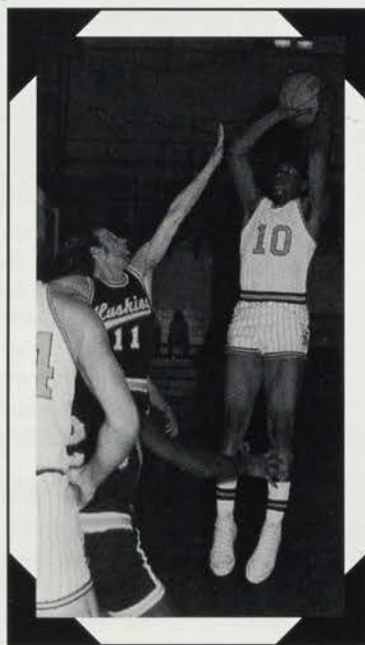

HIGHLIGHTS OF MILLERSVILLE BASKETBALL:

- 70 winning seasons out of a total of 98 (play was suspended in 1943-44 and 1944-45 because of World War II)
- 16 PSAC championships; 7 PSAC Eastern Division titles
- NAIA national tournament appearance in 1975; 6 NAIA district titles
- 1 NCAA Division II East-Regional championship; 1 ECAC Division II crown
- 29 players have achieved the 1,000-point career milestone; 5 of those players also had over 1,000 rebounds
- 21 head coaches. Of those, four coaches combined for 77.7 percent of all victories: John Pucillo (1925-30, 1933-43 and 1945-48); Richard "Max" Bishop (1948 to 1956); Richard C. DeHart (1956 to 1982); and John Kochan (1983 to 1996).

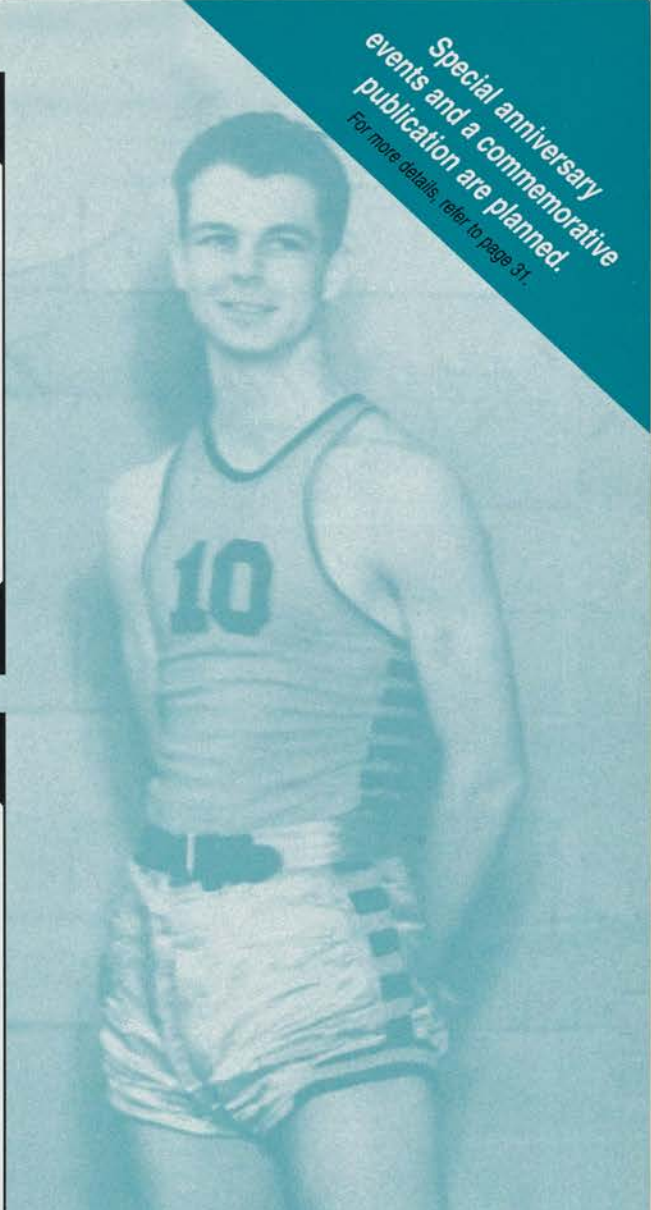

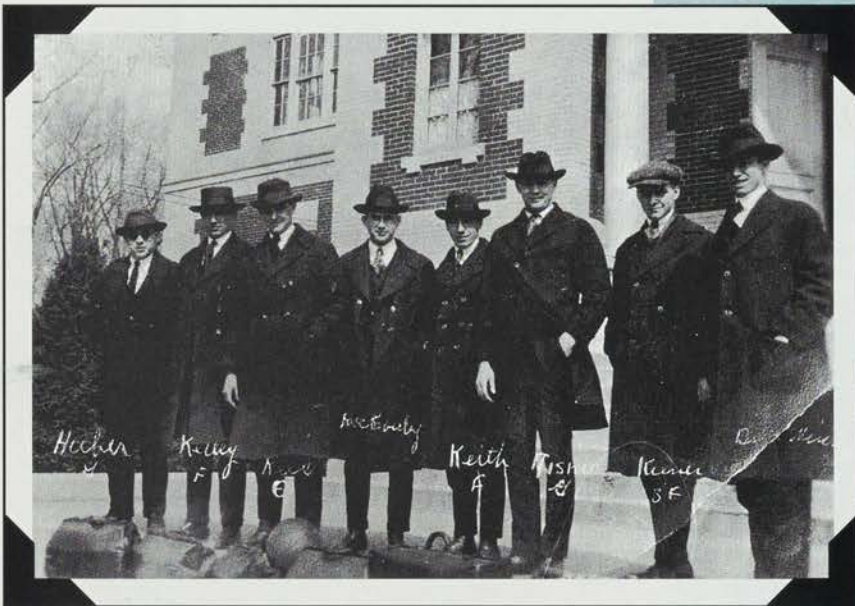

GYMS:

Millersville has a distinction unmatched by many institutions—its three home basketball facilities during its 100-year history not only are still standing, but also are still in use.

- **DUTCHER HALL**, the school's original gymnasium, was built in 1895. Today, it is the home to the Rafters Theatre for school drama productions.
- **BROOKS HALL GYMNASIUM** was erected in 1940 at a cost of \$355,000. Only 1,300 spectators could squeeze into the bleachers, and others either at the first floor exits or at the second floor windows to catch the action. The facility is now used for the women's volleyball program, and other club and intramural activities.
- **PUCILLO GYMNASIUM** is the Marauders' current regulation-sized home court. The 3,000-seat facility was built in 1971 at a cost of \$2 million. Over the past 29 seasons, it has been one of the most intimidating places to play from an opponent's perspective. Entering the 1999-2000 campaign, Millersville's record in "The House of Pain" is an impressive 270-82.

Special anniversary
 events and a commemorative
 publication are planned.
 For more details, refer to page 31.

2. The 1920-21 'Ville squad team poses prior to a trip to Shippensburg, where the Marauders won the Eastern Pennsylvania Normal School Championship.
3. Millersville's 1966-67 squad averaged an astounding 101.1 points per game and became the first team to win 20 games in a season (21-6 record).

Millersville University's 100th Anniversary of Men's Basketball

PHOTOS ON PAGE 6 (Left to right, and top to bottom):

1. John Parker '57 (#13) became the first cager to score 1,000 points and grab 1,000 rebounds. He had the added distinction of being the first basketball All-American.
2. Coach Dick DeHart, the most victorious mentor in Millersville history in any sport (321 wins) and the Marauder hoopsters embark for the 1967 NAIA national tournament in Kansas City.
3. Legendary mentor John Pucillo guided Millersville to eight "mythical" Pennsylvania State Teachers College championships.
4. Lance Gelnett '92 (#32) still holds the Marauder's three-point field goal record (266).
5. Jon Dunmeyer (#35) was a dominating low post player for the 'Ville in the early 1990s.
6. The only MU team (1974-75) to capture a NAIA national tournament victory.
7. A packed Brooks Hall Gymnasium in 1967 honors Marauder great Roger Raspen '67 for scoring his 1,000th career point.
8. At the final Millersville varsity game played at Brooks Hall in 1971, former coach John Pucillo (3rd from left) receives an honorary award from President William Duncan (2nd from left). They are flanked by Dr. Lawrence McDermott, Dr. Raymond Runkle, Coach Dick DeHart, and Roger Raspen '67.

Century Past,

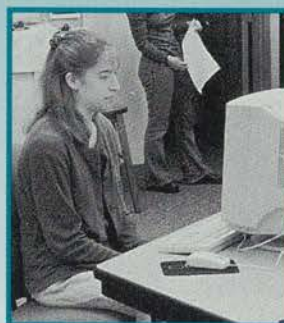

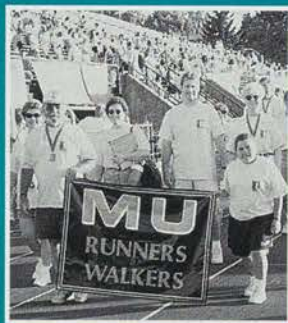

Century Forward

Century Past...

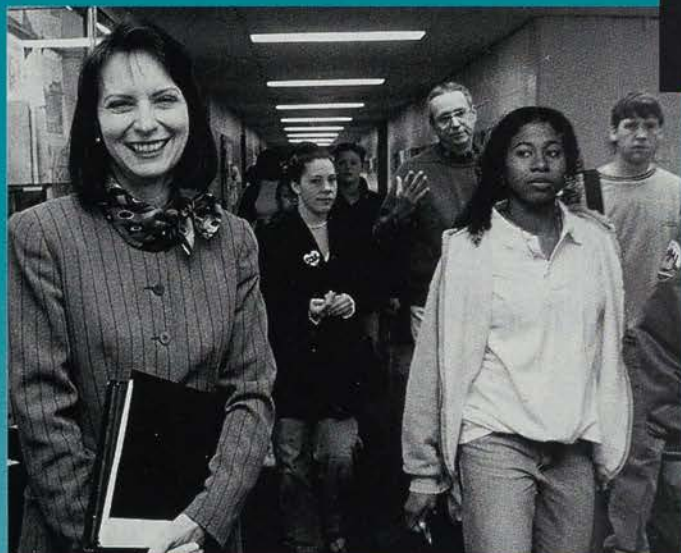

In 1899, Millersville State Normal School's 37 faculty members, with names like Lyte, Byerly, Hull, Roddy, Brooks, Harbold, Lyle, Gilbert, Landes and Myers, taught 115 students in subjects like manual training, pedagogics, Latin and Greek, and penmanship. Competition for students was fierce, especially with nearby West Chester Normal School, although there were no admissions requirements. Under the leadership of Dr. E.O. Lyte, Principal since 1887, the school had seen unparalleled expansion in the '90s: a new gymnasium and boiler house, the library, the science building, electric lighting. The Model School was begun in 1899 and completed in 1900 at a cost of \$36,000. New academic programs included kindergarten instruction, manual training, and, in 1899, the expanded three-year course of instruction, from two. Although the memories of "...the fearful struggle to crush the rebellion" were still strong, Millersville students were poised to make their marks in the new twentieth century.

Century Forward...

Strong faculty, innovative academic programs, able leadership, unprecedented growth of the physical plant: Millersville University in 1999 is much the same as it was one hundred years ago—and very different. As the University approaches its 150th anniversary in 2005, take a moment to read this page of history and hear the stories of a modern-day institution of higher education.

Awareness campaigns for non-profits: A win-win situation

Step into Dr. Jamie Byrne's Public Relations IV: PR Campaign class and enter an environment that immediately resembles a professional public relations agency. Students in the PR Campaign class are divided into "student agency groups," with each participant taking on a role that one would find in an actual PR agency, such as account representative, media planner, copywriter, etc. Each student agency group, consisting of four or five students, is required to work with a non-profit community service organization that agrees to serve as the agency's client. The students then create a complete public relations campaign for the organization based on their individual needs.

"It's a win-win situation," reports Dr. Byrne, an assistant professor in MU's Communication & Theater Department, who has been teaching the course for six years. "As seniors, these students have the expertise, but need the experience. The non-profits need the expertise and the hands-on help, but often do not have the budget to use a professional agency." Byrne explains that the course provides the opportunity for students to utilize the knowledge they have obtained through their four years and apply it on a professional level. "The beauty of it is that it gives students a capstone—urging them to blend theory with practice." She adds that the students are empowered by the experience, but also humbled by how much they still need to learn.

Over the years, Byrne's students have developed awareness campaigns, coordinated fundraising efforts, planned special events, and recruited teams of volunteers and participants for various service agencies in the community, including the Humane League of Lancaster County, Red Cross of Lancaster County, Crispus Attucks Center, S. June Smith Center, the Lancaster YWCA, and the Lancaster Unit of the American Cancer Society's Relay for Life, for which Byrne herself serves as Chair.

Byrne reports that the course utilizes a "service learning" approach, which suits her philosophy. Byrne's personal work with the Lancaster Unit's American Cancer Society's Relay for Life, an event which last year raised \$565,000, serves as a model for her students. She explains that in addition to enhancing the curriculum,

In June, members of Millersville's Cancer Connection Relay walked in the Survivors' Lap, in Biemesderfer Stadium. MU students worked on the public awareness campaign, which raised over \$12,000 for cancer research.

the experience reinforces the importance of community service work and how beneficial and rewarding it can be. "Many of the students report how they want to continue to work within their community," states Byrne. "For me, that is particularly gratifying."

The non-profit organizations that have served as clients for Byrne's students have expressed their gratitude in a number of ways. Byrne reports that last year the Crispus Attucks Center held a special catered dinner to honor the students at the Center. Byrne describes the student/client relationship as the "perfect marriage" with everyone involved benefiting from the experience. "The service learning approach to the course and how it is succeeding is probably the best fulfillment of my mission as an educator."

Taking a comprehensive view of farmland preservation

According to the Lancaster Farmland Trust, a non-profit land preservation organization, 2000 acres of Lancaster County farmland are consumed by urban sprawl every year.

With a grant from the Center for Rural Pennsylvania, Millersville University's economics and geography departments have embarked on an interdepartmental project, entitled "Interdisciplinary Approach To Cost-Benefit Analysis of Public Farmland Preservation Programs," that is being led by MU's assistant professor of economics and project director, Dr. Michael Gumpfer.

The study includes a more in-depth study of Lancaster, York, Berks and Chester counties. Dr. Gary Hovinen, MU's geography department, has been primarily responsible for collecting and assessing the data from these four counties. Evaluation of both public and private preservation and protection efforts, includ-

ing the use of the Conservation Easement Program, which enables counties to purchase the development rights from farmers and ensure that the land is preserved as farmland forever. Gumpfer explains that these counties were chosen for the in-depth study because of their geographic location and because of the number of farms within the region. "These counties have highly productive farmland and are most threatened by development," states Gumpfer, adding, "As a result, their preservation efforts are more advanced."

A random public survey, formulated with input from community leaders and planners, is another component of the Millersville study. Administered by the Center For Opinion Research, located within MU's Political Science Department, the survey is intended to evaluate citizens' support for farmland preservation. "We want to gather information that will allow us to elicit a value to the non-market benefits of farmland preservation, such as the aesthetic, nostalgic, and cultural benefits of farmland," reports Gumpfer. "We are using Lancaster as a model, and randomly surveying citizens by telephone." A follow-up survey is sent in the mail to those interested in participating further.

According to Jessica Abernathy '98, assistant director of development for the Lancaster Farmland Trust, "As development increases at such a rapid pace, there is a heightened awareness about the need for preservation. It's not just that it is happening, but how fast it is happening." She explains that the Trust is not anti-growth, but is committed to preserving the land already designated as agricultural land. Dependent on donations from individuals and businesses (no government monies are accepted), the organization has preserved more farms and farmland than any other agricultural land trust in the United States—103 farms since 1988.

Lancaster County boasts the most productive non-irrigated farmland in the nation—and the fastest growing metropolitan area in Pennsylvania.

Dr. Charles Geiger, associate professor of geography, is mapping the data as it is collected. To date, he has completed approximately 12 maps. Providing examples of the information being mapped, Dr. Geiger reports, "One map compares the number of conservation easements granted in each county, while another compares the amount of money spent by the state on farmland preservation per county."

Both Geiger and Gumpper agree that numerous benefits will result from the study and the University's participation. "The results of this project will help community planners and policy makers as they make decisions on preservation and land use issues," reports Gumpper. He adds that on an academic level, the department's curriculum is enhanced and valuable experience is provided to participating students.

Business counting on technology

The impact of technology on how business operates has been phenomenal, and, in turn, is affecting how business is taught. "The way an instructor presents information is changing dramatically," according to Dr. J. Douglas Frazer, chair of MU's business administration department. The limitation of the classroom blackboard is gone, he explains. Today, it is a multi-media approach: CDs, video tapes, and Internet connections are all part of the mix.

"From Day One, we build computer skills into our classes," says Frazer. Our goal is not to create computer programmers, but rather 'significant user ability' in all business students." With the wiring of classrooms and dormitories, and an increasing number of students bringing their own computers to campus, using technology as a teaching tool has become easy and extremely effective.

Consider the field of accounting, a mainstay in the business program. The accepted principles and standards of accounting have not changed much over the years. However, the advent of the electronic spreadsheet can be credited with revolutionizing number crunching for not just the accounting professional, but for anyone who must work with a budget. Frazer points out that the technology is ideal to accommodate more complex assignments. For example, students can obtain actual corporate data for a project by logging on to the Securities and Exchange Commission site.

At Millersville, the accounting curriculum has a dual track and is designed to prepare students for either public accounting or private accounting, which is geared toward industry or management.

For Brooke Simmons '97 the program was a natural. Originally a computer science major, she switched to business administration, with a concentration in accounting. She took advantage of the co-op program, first in private accounting at Hershey Foods' Y&S Candies. However, her preference for public accounting was confirmed by her second internship at Smoker and Company, an accounting firm in Leola.

Today, Brooke is an accountant at Smoker and Company. "The internship was probably the most important part of my college experience," she remarks. The first-hand experience is invaluable in demonstrating what a career is really about."

Like many other area businesses, Smoker and Company has developed a successful strategy for recruitment-hiring

Millersville graduates. Of the company's staff of thirty, Brooke is one of four MU alumni who are accountants with the firm. And, among her responsibilities is recruiting interns—from Millersville, of course.

MU's business administration department has undergone its share of growing pains. There was a time in the early 1980s when the faculty and curriculum could not keep up with the explosion of business students. Learning from this experience, the program remains one of Millersville's largest with over 700 majors and a full complement of faculty members. Today, Millersville is meeting the increasing need of regional businesses for qualified employees, and fulfilling its commitment to provide business students with highly marketable skills.

Area employers and students flock to the University-sponsored job fairs.

School of Education

Teaching for tomorrow

The future of the world is in our classrooms today, and Millersville University's impact in the region is unparalleled. From hosting the Pennsylvania Governor's School for Teaching to preparing teachers to educate preschoolers through highschoolers, Millersville University graduates are "some of the finest teachers in the state, maybe in the nation," says Dr. Richard Frerichs '64, Coordinator of Field Experience at MU.

The path to a degree in education at Millersville intertwines the up and coming teachers with MU faculty and staff, with established teachers in their classrooms, with the community, government, and with real students—young minds who will look to these teachers in training for lessons on how to navigate their futures.

Jody Livzief, '85 is a Millersville-prepared educator whose professional road map has taken several twists and turns in the field she loves. After graduating, Livzief stayed right in the school district that encompasses Millersville, teaching in four different elementary schools within the Penn Manor School District. Upon completing a Master's degree in Gifted Education nine years ago, Livzief joined the Warwick School District, providing support to middle school students who have been identified as gifted. Although there is no required certification for teaching gifted students, Livzief credits Millersville for preparing a strong field of teachers to meet that need in Pennsylvania's schools.

Livzief says she now has the opportunity to "give back what I've been given." She recently returned to the elementary school level as principal of the East Pennsboro Elementary School in Cumberland County. Millersville's education students are not "just sitting in a classroom," says Livzief.

Frerichs confirms. "Our goal is to get our students out as much as possible." He places as many 300 students in field experiences each semester.

Millersville University's broad-based approach to teacher education begins even before students have made a definite commitment to pursue a career in education. As host to the state's first Governor's School, the University provides support to outstanding high school students who are exploring the possibility of a career in education. MU faculty, students and even the local government and other community leaders come together to support the five-week summer program designed to attract gifted and talented students to the profession of teaching.

Mary Ann Bollinger, Director of the Governor's School for Teaching, explains that the Governor's School is a

DR. BENNETT BERHOW,
Dean of the School of Education

- Millersville was originally founded as a teachers college.
- 25% of MU students major in teacher education programs.
- The Jenkins Early Childhood Center, located on campus, is a unique resource for students.
- Supervised classroom field experiences are required as part of the teaching curriculum.
- MU's Industry and Technology program offers degree programs in Technology Education as well as Industrial Technology specifically geared for business and industry.

Gifted teacher Jody Livziey, with her students at Warwick Middle School, encourages hands-on learning.

community partnership. The State Department of Education, Millersville University, Intermediate Units, and local school districts are all brought together to expose program participants to the field of education and its impact on the community.

"Many of the students do go on to become teachers, while some do not," explains Bollinger. "Our hope is that they will all be advocates for education as community leaders."

The majority of students who do pursue a degree in education from Millersville University will teach. However, the impact of MU's education program goes beyond the traditional classroom experience. Some graduates may prefer the flexibility of substitute teaching. Others may share their talents on staff in organizations that support youth programming such as the Boys and Girls Clubs, YMCA, or even day care centers. The corporate environment also benefits from the skills of professional educators for their ongoing training and education functions.

"I give credit to Millersville University for my career advancement opportunities," says Livziey. From its ties

to the Governor's School for Teaching, to its philosophy of providing students with strong field experience, to its commitment to continuing education in the form of seminars, workshops and graduate programs, Millersville University, she says, prepares teachers for "outstanding careers in education."

MU student and volunteer fireman, Mark Barto, understands from experience the life-saving potential of the jaws of life and the practical application of hydraulics.

From the classroom to the "jaws of life"

Industrial Technology students prepare for their future careers, not only through traditional classroom and laboratory settings but also by field experiences.

Recently, students from a Fluid Power Systems class visited Manheim Township's Edén Fire Company. Professor Dr. LaVerne Hauck explained that the class deals with hydraulics and pneumatics. "We have equipment in the lab that the students work with, but it's really helpful for them to see applications outside of the lab," he said.

Mark Barto, a student majoring in Industry and Technology and a volunteer firefighter at Edén Fire Company, assisted with arrangements for the field experience—a simulated entrapment and demonstration of the Jaws of Life. The large metal shears, weighing approximately 50 lbs., is used by firefighters at automobile accident scenes to extricate people trapped in the vehicle. The mechanism cuts support posts around windows; the glass is then removed and the roof may be pulled back to extricate trapped occupants.

"People hardly ever see the Jaws of Life at work unless they're involved in an accident. The field experience provided an opportunity for the students to be exposed to the equipment in a positive light," Barto commented. A volunteer firefighter since 1989, he joined Edén Fire Company and continued to serve in local fire companies even when he joined the Navy in 1991. After being injured in the Gulf War, Barto left the Navy in 1996 and returned to Lancaster. Since then he's been serving with both the Edén Fire Company and the Neffsville Fire Company.

"The term firefighter is really a misnomer today. Very little of what we do is actually fire fighting; most of the time we're exposed to other situations such as accidents, pumping basements in sudden downpours or floods, responding to fire alarms at companies. The type of calls for service a fire company gets depends largely on their service area—a rural farming area may respond to more barn fires while a heavily populated residential and commercial area may get more fire alarm calls," he explained.

In addition to a demonstration of the Jaws of Life, the fluid power systems students also were shown Eden Fire Company's 102-foot ladder truck. The ladder unit not only extends but also rotates on its axis. "Fire equipment contains a lot of hydraulic components; the mechanisms on the ladder truck that permit the ladder to extend and rotate are critical to its use," Dr. Hauck said.

Both Barto and Dr. Hauck agreed that students who viewed the Jaws of Life and ladder truck demonstration have an enhanced understanding of the role of firefighters. "Most of the firefighters in Lancaster County are volunteers. When people get to see some of the jobs we do and see the equipment up close, they begin to understand why it's important to support their local fire company," Barto explained.

"Students got to see the Jaws of Life at work. They also had a chance to pick up some of the other equipment that firefighters use and closely examine it. This is the kind of experience that you can't get in the lab," Dr. Hauck commented. Field experiences are valuable learning tools not only in this particular class but also throughout the entire Industrial Technology program.

Designing products for the future

Enthusiasm for MU's Industrial Technology is soaring. Just ask Josh Mullen, a senior who will graduate in May. "I love it. It fits me perfectly. I've always liked building and designing things." He adds, "The program really is well-rounded in a lot of things."

Professor Dr. Richard C. Johnson explains that the program with a CADD (computer aided drafting and design) specialization has been extremely effective in producing alumni who are involved in product design and manufacturing engineering. It provides students with an excellent foundation in liberal arts, as well as technical and management preparation.

"Although design methodology is part of the program," says Johnson, "What we are really teaching is creativity and problem solving skills."

The preparation for marketplace circumstances is outstanding according to Nate Saint, vice president for product development for Graco Children's Products, Inc. The company, based in Chester County, has been very happy with the MU graduates it has hired.

According to Saint, the students have "a good mix of hands-on reality. And, they understand how to apply those skills." At Graco, design engineers typically handle all aspects of developing a new product—taking an idea from concept to production. For example, the development of a child safety seat would encompass everything from working with vendors for the right materials, testing the new product with children, meeting compliance standards, and troubleshooting on manufacturing and marketing issues.

Saint isn't sure if the key is Millersville's ability to attract the right type of individual, or if the University is really good at training. Whatever the secret is, it is a winning combination for Graco whose need for

experienced people, strong on practice, is being met by MU. As the company's product development department has expanded over the past four years, it has hired a handful of graduates, and each has been very well-prepared for their professional challenges.

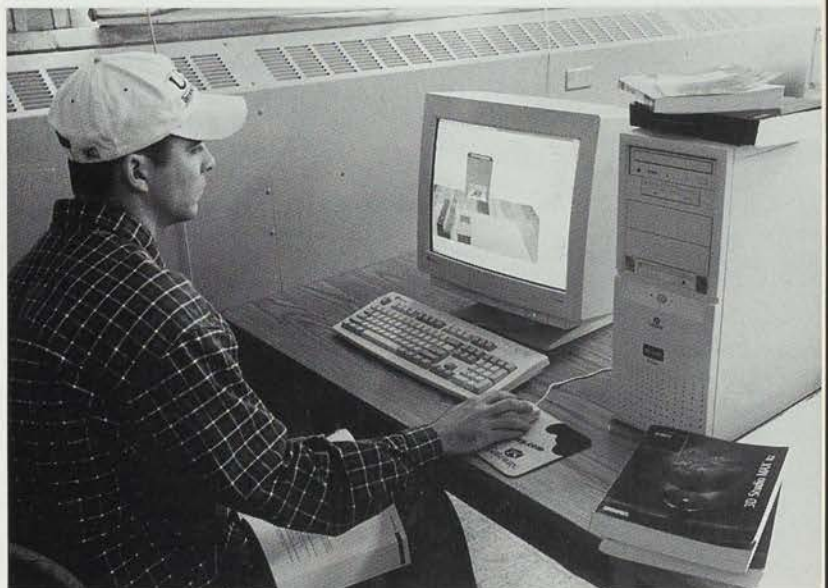

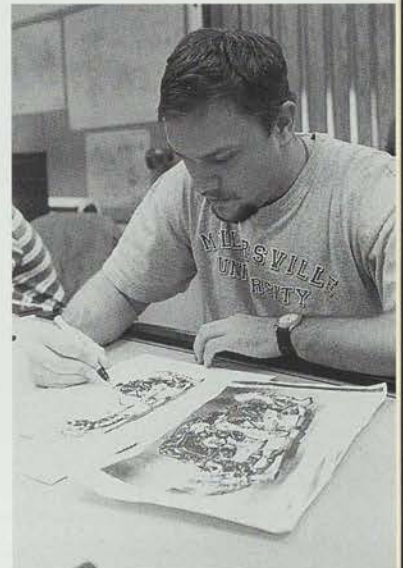

Saint serves on the Industry and Technology Department's Advisory Committee, along with other business and industry executives. He continues to be impressed with the "good foundation of design and engineering skills," and the writing skills of the program grads in expressing their ideas and providing technical assessments.

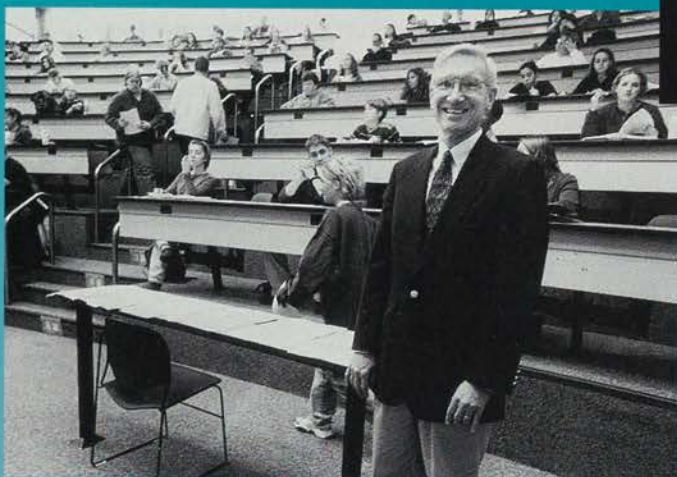

The program obviously emphasizes technology—from computer design, to 3-D modeling and creating prototypes. But, hands-on training includes skills such as technical illustration techniques. According to another senior, Matt Riland, sketching by hand is all part of learning to visualize ideas.

"For conceptual designs, someone wants to see your drawings before building it."

Design tools can facilitate the process. However, there is no substitute for creativity and problem solving—and the need for human ingenuity in creating new products, especially as we enter a new century.

MU industrial technology students learn a range of skills needed for product design. Senior Josh Mullen (right) concentrates on a detailed technical illustration. As part of an independent study project, senior Shawn Hayford (below) works with a three-dimensional, animated software program.

DR. EDWARD SHANE,
Dean of the School of Science and Mathematics

- In 1964, Millersville had 300 science majors and 25 faculty members. Today, the number of science majors has grown dramatically to 1,700 and 80 faculty members. 60% of MU's science majors are women and 8% are people of color.
- The new Science and Technology Building can now provide the much needed laboratory experiences in the natural sciences and technologies.
- The Summer Science Training Program offers hands-on science and mathematics activities for a select group of eight and ninth grade students.
- An annual Women in Math and Science Conference fosters and encourages interest in math and science among area high school students.

School of Science & Mathematics

Academic Nursing Center: Rx to health

A collaborative effort between the Nursing Department of Millersville University and Millersville Manor, a privately owned, low-income apartment complex for senior citizens and handicapped individuals, has created a highly successful academic nursing center. One of the very first in Pennsylvania, MU's Academic Nursing Center has proven itself as a true asset to the community, providing benefits for all those involved—the 135 residents of the Manor complex, the students within MU's nursing programs and the department's faculty members who oversee the Center's work.

For over seven years, registered nurses enrolled in MU's RN-BSN or graduate level (Family Nurse Practitioner and Case Management) nursing programs have staffed the academic nursing center, which is located within the Lee Avenue apartment complex, several blocks from MU's campus. This arrangement has provided numerous free, healthcare services to the Manor's residents, while at the same time enhancing the clinical skills and community health experience of the nursing students.

C. Virginia Palmer, RN, DNSc, associate professor of nursing, oversees the Center's activities. Palmer reports that a primary goal of the Center is to help residents "age in place." She explains that this phrase refers to keeping senior citizens in their own homes, functioning as independently as possible, for as long as possible. "The services offered at the Center help to promote and maintain healthy aging," states Palmer. The Center, which is open every Wednesday morning, provides various healthcare services to the residents, including health monitoring (blood pressure, blood sugar, cholesterol, weight), preventive healthcare education, health screenings and assessments, counseling on geriatric issues and referrals to other healthcare professionals and community services as appropriate.

Students involved in the Center's efforts are enthusiastic regarding the opportunity to gain experience in geriatric healthcare and to serve as healthcare advocates for many of the residents. Michelle Sweigart, RN, a current student in MU's BSN program, reports that her work at the Center allows her to "fine-tune" her assessment skills. "Seeing how a nursing center runs is very beneficial," states Sweigart. "Nursing centers are an up-and-coming service and they are proving to be a great asset." MU Alumni Jill Miller, RN, BSN, CHPN, agrees. "I believe in the mission statement of the Nursing Center and believe that this Center serves as a model for others." Miller, who graduated from MU's

As part of Millersville's academic nursing center, Dr. C. Virginia Palmer (right) supervises a student nurse providing care to a resident.

RN-BSN program in 1993, reports that the experience she gained from her time at the Manor helped to clarify for her the scope of nursing practices in an independent setting. "At the Center, we do what we can within our scope of nursing practices. When we see it is time for medical intervention, we then encourage the resident to contact their physician." Miller, a nurse with Hospice of Lancaster County, continues to be active with the Manor, filling in for current students during semester breaks and holidays to ensure patient continuity.

In addition to providing students with invaluable experience in community nursing, this collaborative relationship also benefits faculty members. "Nursing is a science, but it's also a practice discipline." Palmer adds, "Overseeing the Center's activities assists the faculty in keeping up to date with clinical practice."

According to Kathy Anderson, director of Millersville Manor, the Center has been very beneficial to many of the residents. "Because of limited income and transportation, a number of our residents don't have a personal physician," reports Anderson. "Several of our residents are getting care that they wouldn't be getting if it weren't for the Center." Because the nurses at the Center can follow up on patients released from local hospitals, the length of residents' hospital stays have decreased.

The success of MU's Academic Nursing Center at Millersville Manor has encouraged other educational institutions to consider providing similar services. "Our Center has served as a role model," explains Palmer. "It has helped to promote and maintain healthy aging among the residents at the Manor. And when members of your community are healthy, it makes for a better community."

The air that we breathe

A growing population between Lancaster and York counties means more vehicles and increased levels of ozone which affects how well human lungs function as well as impacting on the health of our natural resources.

By determining the transport and mixing of ozone on the surface and aloft in Lancaster County, the accuracy of ozone forecasts is enhanced. Dr. Richard Clark, a professor of earth sciences at MU, is heading such a study which has been funded by MU's Environmental Institute and the Lancaster Environmental Foundation. Along with his student assistants, he researched how pollutants are transported by the wind overnight and are then mixed down to the surface during the day, adding to the local production of pollutants.

Dr. Clark explains that under the right atmospheric conditions, winds from the south draw air from urban areas (Baltimore, D.C.), which contain contaminants from previous days' pollutants, and transport them into the region where they can mix with pollutants generated locally. "The combination can lead to deteriorating air quality," reports Clark, adding, "It is a complicated process and the purpose of the study was to try to isolate the mixing process that occurs and better understand the physics involved." He explains that this information is beneficial to modelers who forecast ozone exceedance levels.

These ozone exceedance levels that Clark refers to are based on a benchmark known as the National Ambient Air Quality Standards (NAAQS) and are one of several indicators of air quality. "We already know from previous studies that local levels can exceed acceptable standards," reports Clark. "We focused on gathering information to help investigators better understand the mixing process, allowing that information to be incorporated into mathematical models and provide more quantitative ozone forecasts."

To gather scientific information, Dr. Clark and three student assistants launched a tethered blimp to a height of 1000 feet for a period of three days in July of 1998. The field site for these launchings was located at the Lincoln Junior high School in Lancaster, which is near the Department of Environmental Protection Lancaster air quality monitoring site. The blimp, which is the size of a small car (approximately 16 feet long and seven feet in diameter), carried instruments to measure temperature, relative humidity, pressure, wind speed and direction, and ozone concentration. The blimp

Community Nursing Centers

Community Nursing Centers were very popular in the 1800s before the emergence of different payer sources and institutional care. These Centers experienced a rebirth in the early 1990s after educational institutions and their respective nursing faculties had difficulty placing students in the community to gain clinical experience. Many have proven to be an asset to their communities, providing cost-effective care that assesses and refers clients appropriately.

was launched at dawn and brought down by noon each day. From the instrumentation readings, researchers learned that the mixing process changed as soon as the ground began to heat up. "It occurred very quickly, going from very stable, with little mixing activity, to a sudden change in the depth of the boundary layer," reported Clark, explaining that this boundary layer is the layer of air that is influenced by the earth's surface.

Dr. Clark presented the observational results of the study to scientists from around the country at a meeting in Dallas, Texas. "The information was provided to those who are directly involved in efforts to integrate air chemistry with atmospheric models," stated Clark.

On a local level, Millersville University's Environmental Institute (MUEI) and the Lancaster Environmental Foundation will be sponsoring the first Lancaster Environmental Symposium on February 12, 2000, at Millersville University. The theme of the symposium is "Human Impact on Natural Resources: A Regional Perspective." The symposium will take a comprehensive look at the effect of human activity on the environment of the lower Susquehanna region, including air quality, water resources and pollution issues, biological resources and land use policies.

The symposium is intended to benefit scientists, urban and

county planners, developers, industrial and agricultural waste managers, farmers, and representatives of government agencies. For additional information about the symposium, contact Regis Kirchner at 717.872.3820, e-mail at chip.kirchner@millersv.edu, or check out the MUEI Web site at www.millersv.edu/~muenviro.

Depending on the weather

Planning a ski trip this winter? An outdoor wedding in the spring? Or just trying to decide your weekend activities?

Eric J. Horst may have some information for you that can impact the success of your plans.

Since the new state-of-the-art Weather Information Center at Millersville University opened earlier this year, Director Eric Horst has answered countless questions about weather events and climatology. In his role as director of the Weather Information Center, Horst supports the academic meteorology program at Millersville, as well as filling a community need for weather and climate related information.

"When I joined the program here 12 years ago," explains Horst, "there were about 20 students in Millersville's meteorology program. Now there are more than 80."

Credit the increase in interest in meteorology at least in part, says Horst, to what he refers to as "the Twister effect."

"After the movie, 'Twister,' there was a lot of interest in weather. A lot of high school students saw that movie and thought tornado chasing looked like a neat career."

But meteorology is a rigorous, science-based curriculum, explains Horst. "Many of the students who graduate and pursue a career in meteorology have been fascinated since childhood. Their love of the subject is what helps them succeed."

Horst also explains that weather and climatology are more visible now as news events. The Weather Channel, cable television, movies and other media have increased the public's interest in weather. Even the Internet plays a role. An Internet newsletter through the Weather Information Center's website offers information about notable weather events local to Millersville as well nationally from the past month. (You can visit the Weather Information Center at Millersville University's website at www.ATMOS.Millersv.edu/.)

The Weather Information Center at Millersville fields calls from around the world as well as the local region about weather events. From answering questions about climatology for the Lancaster Newspapers, to offering expert opinions to the Pennsylvania Department of Transportation, Horst depends on the information available from the Weather Information Center at Millersville to keep the public informed about the weather and our climate.

So, Eric Horst, about that outdoor wedding in the spring ... "If you want to know if the spring will be wetter or drier than normal, that's the kind of information the Weather Center can tell us about. If you are asking now about a wedding date on a Saturday in the spring, ask the Monday before!"

Millersville's afternoon rush hour on George Street adds to emissions and pollution affecting the ozone.

At the new weather station, students track current weather patterns and mapping information by print-outs and up-to-date satellite information electronically.

Student Affairs & Athletics

The college experience extends far beyond academic studies. It is a time to question, to grow, to expand horizons and form often lifelong friendships with peers and faculty. Through participation in campus activities, student organizations and athletics, students have seized the opportunity to hone their leadership skills and have an impact on their campus—and their communities.

Fashions, hairstyles and ideas have changed throughout the past century. So have the clubs and events, but many have weathered a century of change.

Thanks to a century's worth of Touchstone yearbooks and the students who captured their unique era for posterity.

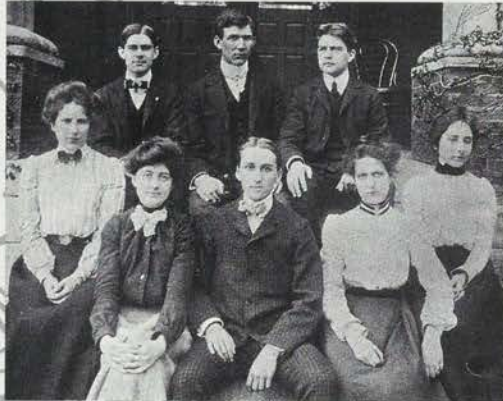

DR. ROBERT O. THOMAS,
Vice President, Student Affairs

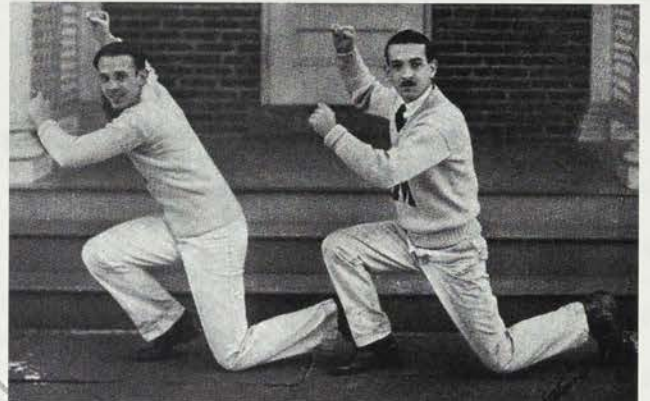

- In 1859, Millersville became Pennsylvania's first State Normal School.
- Approximately 7,500 students are currently enrolled at Millersville—nearly double what it was 20 years ago.
- An average of six applicants vie for every seat in the freshmen class.
- 35% of MU students are from Lancaster County.
- 60% of its graduates settle within the regions of Lancaster, Berks and Dauphin counties—joining the estimated 17,000 alumni in the area.
- MU offers athletes 19 intercollegiate sports.
- Extracurricular activities include cultural events, notable speakers on campus, student organizations and clubs.
- 83% of MU faculty have their doctoral degrees.
- Millersville has been consistently recognized by *U.S. News and World Report* as one of the top regional public universities in the North. In addition, *Kiplinger's Personal Finance Magazine* has included Millersville as one of the top values in state universities in the United States.
- The center of MU's lovely campus is its tree-lined lake, complete with a resident pair of swans, Miller and S'ville.
- Millersville has its very own hot air balloon, often seen at sporting events on campus and floating above other locations around the area.
- Former MU faculty member, Eliphalet Oram Lyte, who served the University from 1887 to 1912, is known for writing the song, "Row, Row Your Boat."

ALUMNI INTEREST

Career services for alumni

Job Fairs

Two job fairs are planned in collaboration with area colleges and universities:

- CPEC (Central Pennsylvania Employer Consortium) on Wednesday, February 23, at the Lebanon Valley Expo Center
- Teacher Recruitment Day, Thursday, April 6, at Millersville University.

Both fairs are free to alumni, but require pre-registration before the event. Contact Career Services at 717-872-3312.

Interviewing Skills

Last spring, Career Services piloted a mock interview program for education majors and alumni. Due to its overwhelming success, the program is expanding to include non-education majors. The schedule for mock interviews is:

- Non-education majors - Tuesday, February 15, 4:00-8:00 p.m.
- Education majors - Wednesday, March 28, 4:00-8:00 p.m.

Would you be willing to help? Are you a polished job interviewer? Do you want to assist MU students who are nervous about the little known thing called interviewing? Contact Career Services at 717-872-3312.

In search of all Millersville alumni

To bring alumni from around the globe together, the MU's Alumni Association will publish an all-new Alumni Directory, both a book version and a CD-ROM format.

Scheduled for release in the fall 2000, it will be the most up-to-date and complete reference of more than 40,000 Millersville University grads ever compiled. This comprehensive volume will include:

- current name and name when a student (if different)
- class year(s)
- degree(s) earned from MU
- home address and phone number
- names of spouse and children
- detailed professional information
- email address

Jobs online for alums and students

MU College Central Network (MUCCN) is a free online job posting and recruitment system that provides students and alumni access to regional and national job databases, an Internet resume posting system, online resume forwarding system to employers and on-campus interviewing sign-up system.

Registering is easy; access MUCCN by going to:

- <http://www.collegecentral.com/millersville/msvstudents.cfm>
- clicking on "Alumni Central"
- click on "post a resume" (you can cut and paste your existing resume or fill out the online form). Posting your resume is optional.

Concerned about having your resume being viewed by strangers? MUCCN is a password-protected site with Career Services screening MU employers before they have access to MU students and alumni. Or, you can register without posting your resume and still view job postings.

Information will be able to be accessed alphabetically, geographically, by class year and by occupation.

The publishing company will soon begin researching and compiling the data to be included in the directory by mailing a questionnaire to each alumnus. Please complete and return it as soon as possible. (If we don't have your current address, contact the Alumni Office to ensure you receive a directory questionnaire.)

With your participation, the 2000 edition of the Millersville University Alumni Directory is sure to be a great success.

Branch event wrap-up

Lancaster County

The August 8 excursion to Camden Yards was great fun—despite a few rain delays. The Baltimore Orioles beat the Detroit Tigers. The Alumni Branch plans to sponsor the trip again in the future.

Watch your mail for invitations to these upcoming events:

- **Saturday, April 8, 2000**
Gourmet Shopping Trip to NYC
- **Saturday, May 6, 2000**
Annual Meeting/Dessert Social
Guy Lombardo and the Royal Canadians with Al Pierson
- **October 7 & 8, 2000**
Overnight Trip to Finger Lakes, NY
Winery Tours

Joint Event—Lancaster/York County

A joint trip to the Washington Zoo and Inner Harbor held on Saturday, September 26 was sponsored by the Lancaster County and the York County Alumni Branches. All children under the age of 12 received a MU T-Shirt compliments of the Alumni Association. Future joint trips are being planned.

York County

The Annual York County Alumni Reception and Dinner is scheduled for Friday, April 7, at Rutter's Restaurant. Watch for your invitation in the mail.

Online Community Update

Exciting news about MU's Alumni Online Community! There are over 500 alumni now signed up for the Online Community. Don't miss out on this opportunity to connect with fellow alumni. Visit the community at www.millersv.edu/~alumni/ and click "Alumni Connections Community" icon. If you've forgotten your password or need your security code to enter the community for the first time, call the alumni services office at 1-800-681-1855 or e-mail a request to mualumni@millersv.edu.

Call for award nominations

The MU Alumni Association is seeking nominations for the Distinguished Service Award and the Honorary Alumnus Award for Outstanding Service.

The Distinguished Service Award, the highest honor bestowed by the Alumni Association, is given to an alumnus who has brought honor to him/herself, the University, and the Alumni Association.

Alumni, faculty, administrative staff or any person familiar with the person's achievements may nominate a candidate by submitting a letter of recommendation. It should outline the individual's achievements in detail: service qualifications (including location and length of service), how the service was accomplished, a thorough description of relevant achievements, and a summary of the nominee's achievement. The recommendations should specify what beneficial impact the nominee's service had on the Alumni Association and the University.

The Honorary Alumnus Award for Outstanding Services is awarded to non-alumni who have performed continuous service to the University or have made significant contributions of time, talent or wealth to it. Nominations should include detailed information concerning the individual's service.

Nominations also may include additional materials to substantiate the value of service; submitting a photograph is also encouraged. Materials for either award must be submitted to the alumni office no later than March 15 for consideration. Recipients of both awards will be honored at a special Convocation, held on May 6, during Spring Reunion Weekend.

Dolphins to celebrate 50 years

Celebrating 50 Years of the Dolphins, MU's synchronized swimming team, a reunion dinner will be held following their Spring Showcase on Saturday, March 4, 2000. The showcase will begin at 1 p.m. Reception begins at 3 p.m. and dinner will follow in Gordinier Hall at 4 p.m. Tickets for this event are \$25 per person. For information or reservations, contact the Alumni Services office at 717-872-3352 or 1-800-681-1855.

Alumni Calendar of Events

Details will arrive by mail as we near each date in your particular area.

For information and to make reservations:

Phone: 800-681-1855 • Fax: 717-871-5050

E-mail: Send to Sarah Bernot, alumni services secretary,
mualumni@millersv.edu

For the very latest calendar of events, check out the Alumni home page:
www.millersv.edu/~alumni

Date	Event/Area
February	
5	100 th Anniversary of Men's Basketball: Game at 3 p.m. vs. Kutztown, followed by a reception and dinner in Gordinier Hall
6	State System Baltimore Alumni Reception & Tours at Camden Yards
12	"The Music of Andrew Lloyd Webber," York County Branch at Strand
26	Alumni Board of Directors Meeting, Old Main Room, Gordinier, 10 a.m.
March	
4	"Aida" (Broadway's new musical love story from Elton John & Tim Rice), New York City, MEDAL Fund Travel Program
4	Dolphin Club's 50 th Reunion (see article at left)
18	Florida Alumni Event: Clearwater area (details to be announced)
19	Florida Alumni Event: Port St. Lucie area (details to be announced)
31	York County Alumni Branch Event at Strand: The Canadian Brass
April	
1	"Wise Guys" with Nathan Lane and Victor Gerber on Broadway, New York City, (tentative), MEDAL Fund Travel Program (tentative)
7	York County Alumni Branch Annual Dinner Meeting at Rutter's Restaurant
8	Lancaster County Alumni Branch Bus Trip: New York City Gourmet Shopping
15	How To Get Into College Seminar
18-May 2	The Alps, Waterways of Provence & Paris, MEDAL Fund Travel Program
May	
4-7	Spring Reunion Weekend, featuring Guy Lombardo and the Royal Canadians with Al Pierson on Saturday night in Alumni Hall
6	Lancaster County Annual Dessert Social, pre-Guy Lombardo concert, Lyle Hall

The Alumni Office is also responsible for the MEDAL Fund Travel Program which features one-day and extended trips and is open to all alumni and friends. 2000 programs include: Spain and Portugal; The Scandinavian Capital Cities (June 20-July 5), an Alaskan Cruise (July 24-31) and "The Lion King" August 12, 2000 on Broadway.

For more details on any of the included events listed or travel programs, contact the Alumni Services Office at 1-800-681-1855.

ALUMNI NOTE: If you live in Lancaster and/or York Counties, you will receive a separate invitation for the alumni events in your area.

ALUMNI INTEREST

A Millersville legacy

On October 2, the MU Alumni Association President and Mrs. Caputo welcomed legacy students and their alumni parents at a reception held in Biemesderfer Center. MU currently boasts over 200 legacies enrolled.

First Row: Larry '73, Kathleen '76 and Colleen McKenna; Bob '76, Jody '75 and Adam Lausch; Brenda '69 and Jill Herring; Gwen and Jane '73 Sample; Shirley '69 and Derrick Kreider.

2nd Row: Dr. Ed Thomson, Associate V.P. for MU's Student Affairs and his daughter Jennifer; Philip '73, Beth '73 and Amanda Wade; Carol '69, Harry and Elizabeth Steely; Paul '74 and Maribeth Titter; Jeffrey '73, Carol '73 and Brooke Shroyer; Frank Antes '68 and (not appearing in photo) his daughter, Quinn Antes.

3rd Row: Paul '65 and Alison Smith; Michael Choroneko '83 and Heather MacMillan; William '68, Barbara '68 and Melissa Garrett; and Martha MacAdam '83, Director of MU's Advancement Services and her son, James D. P. MacAdam.

Seven seats to be filled on Alumni Board

The nominations and awards committee of the Alumni Association is now accepting nominations for its board of directors. Seven vacant seats, all for two-year terms, need to be filled.

The board of directors comprises a president, president-elect, secretary, treasurer and 15 elected at-large members. Board members are required to actively participate on one standing committee. These committees include: financial planning, student advancement, nominations and awards, alumni development, community relations and alumni programs. The board meets three to four times annually, usually on Saturday mornings. Nominations are open to all alumni, and may be submitted either in writing or by phone. The deadline is April 1, 2000.

Candidates who are interested in placing their names on the ballot may attend the February 26 meeting by calling the Alumni Services Office.

Mailing address: MU Alumni Association, c/o Alumni Services Office, Millersville University, PO Box 1002, Millersville, PA 17551-0302. The phone number is 800-681-1855. For additional information, please call Alumni Services Director Steven DiGuseppe '82.

African-American and Latino alumni reunion planned

Mark your calendar now for the MU African-American/Latino Alumni Reunion Weekend, scheduled for June 23-25, 2000 on Millersville's campus. Plans are being made and the alumni office needs your help. If you would like to serve on the committee to plan this weekend, please call Amy Jeffries, assistant director of alumni services at 1-800-681-1855. Watch your mail in early spring for a brochure with lodging information, schedule of events and registration form.

Camden Yards tour

Baltimore area State System alumni and friends are invited to attend an afternoon at Camden Yards on Sunday, February 6, beginning at 1:30 p.m. A ballpark fare buffet will be served. Tours of Camden Yards (weather permitting) will include the Oriole's dugout, club level suites and media levels. Price per person is \$20 and includes parking at Camden Yards. Special invitations are being mailed; deadline for reservations is January 24.

Dance around the clock

MU's second annual dance marathon needs YOU. For 24 hours beginning at 6 pm on February 18 and ending at 6 p.m. on February 19, students will dance to raise money for Children's Miracle Network (CMN). The proceeds will benefit local children served by the Hershey Medical Center.

Alumni help is needed for "Morale Teams" to keep up the dancers' spirits and to assist with on-site preparations. Donations of food, beverages, entertainment and money are welcome. Alums are also being asked to write anonymous letters to students to be distributed to the dancers during "mail call."

Last year, CMN Dance Marathon's nationwide raised a combined total of more than \$1,000,000 with over 40 universities participating. Show your support of MU students by contacting the Dance Marathon office at 717-871-2107 or Wellness Center at 717-872-3841.

Special ticket offer

The York County Branch of the MU Alumni Association has a limited amount of tickets available for "The Music of Andrew Lloyd Webber" at the Strand-Capitol Performing Arts Center in York, Pa. The show is Saturday, February 12, 2000 at 3 p.m.; tickets are \$47 per person. To reserve your seat, contact the Alumni Services office at 717-872-3352 or 1-800-681-1855.

CLASS NOTES

Pre 60s

Mabel Snyder Fitzkee '24, York, was visited recently by her great-niece Veda Noel Henry '63. During the visit they reminisced about their days at Millersville. Mrs. Fitzkee especially remembered her journeys to get to the campus. She rode the trolley car from York, but since there was no bridge to drive across the Susquehanna River, she walked across the railroad bridge, then continued on by trolley.

Ethel Moore Broske '30 and husband **George '35**, Mount Joy, recently celebrated their 60th wedding anniversary.

Dr. B. Anton Hess '36 recently celebrated his 85th birthday. In attendance were **Kathleen Hess Paquette '73**, her husband Carl and daughter Lindsey; **Margaret Hess Greenawalt '73**, her husband Andrew A. '73, and children; **Dr. David F. Hess**, his wife Linda and children. Dr. Hess is a past president of the Millersville University Alumni Association and former member of the MU Foundation Board.

Charles N. (Chuck) Meole '40, Baton Rouge, La., recently won a gold medal in the 1999 Pan American Master's Weightlifting Championship in Collingswood, Canada and another in the 1999 World Master Weightlifting Championship, Glasgow, Scotland.

Mervin G. Sneath '40, Norristown, assisted in The Halford Civic Association's 40th annual Fourth of July celebration, as he has for the past 39 years, with the raising of the colors at his home. Lt. Col. Sneath is a World War II veteran and recipient of a Silver Star, Bronze Star with two Oak Leaf Clusters and the Infantry Combat Badge.

Dr. Richard C. Keller '45, Lancaster, retired history professor, was interviewed recently at Wheatland for C-Span's series on U.S. presidents.

Dr. Edward H. Silverman '54, Mohnton, recently had 23 paintings shown at the Boulevard Cafe in Wyomissing.

William P. Bankert '59, Hanover, retired from teaching after 40 years at South Western High School.

Darrell E. Clepper '59, Carlisle, recently retired from the Carlisle Area School District after teaching mathematics for 40 years.

L. John DeLaurentis '59, Huntingdon Valley, recently retired as principal of Upper Moreland High School after 40 years with the school district.

1960s

Patricia B. Keene '60, Lancaster, was reelected to the board of trustees of the Lancaster County Historical Society.

Geraldine Olshefsky Heaslip '61, Green Valley, Ariz., recently retired. She was a teacher and chair of the English department at Pennsylvania High School, Fairless Hills, Pa.

Dr. Beverly Trosley '63, Morton, was featured in an article in the Town Talk newspaper. Trosley is employed by the Ridley Middle School as a Gifted Education teacher. She has been with the district for 30 years.

Palmer E. Poff '67, Dallastown, retired after teaching fifth grade in the Red Lion School District for 31 years.

Tamara Shorb Teaff '67, Lexington, Va., is an elementary media specialist at Eagle Rock Elementary. Recently she was selected as the Roanoke Area Reading Teacher of the Year by the Virginia State Reading Association.

Shirley Coble Hite '68, York, retired from teaching in June. She taught for more than 30 years in the Dover Area School District.

Kenneth L. Moyer '68, Doylestown, has retired as an Industrial Arts and Technology teacher in the Centennial School District. He will be working at Paul B. Moyer & Sons, a small engine business.

Richard Graham '69, Red Lion, retired from teaching at Ore Valley Elementary School after 30 years.

Dr. Raymond A. Horn '69, Nacogdoches, Tex., is an assistant professor of secondary education and education leadership at Stephen F. Austin State University.

Kent B. Rynier '69, Lancaster, retired from teaching in the Pennsylvania public school system, and has accepted a two-year position as a math teacher at the Tarsus American School at Tarsus, Turkey.

1970s

currently the principal of Buehrle Alternative School in Lancaster.

Richard F. Barbacane '70, Conestoga, was voted president-elect of the National Association of Elementary School Principals in a recent nationwide election. He is

Dr. Kathleen Legenstein Brabson '70, Lancaster, principal of Hambright Elementary School, was recently elected to the board of directors of the National Association of Elementary School Principals. She is a member of the Millersville University Alumni Board of Directors.

Barry L. Decker '70, Quarryville, was named Lampeter-Strasburg School District's teacher of the year for 1998-99. He teaches science at the Martin Meylin Middle School, and has been with the district for nearly 30 years.

James J. Lombardo '70, East Petersburg, was recently honored by the Public Risk Management Association's annual conference. Jim received the 1999 Service Award for Pennsylvania, one of only 18 awards given nationally. Jim serves as Deputy Executive Director for the governor's Center for Local Government Services in Harrisburg.

William P. Del Collo Jr. '71, King of Prussia, received a master's degree in school administration and secondary and elementary principals certification from Widener University. Del Collo has accepted an administrative position in the Phoenixville Area School District. He is a member and current president of the Upper Merion Area School District board of directors.

Linda Mylin Ross '71, Marietta, was featured in the *Intelligencer Journal* for her exhibition at the State Museum in Harrisburg.

ALUMNI INTEREST

There was no place like HOMECOMING '99

Homecoming 1999 boasted picture-perfect autumn weather and a fabulous turn-out for events spanning a week of activities. Among the highlights were dedication of the new Science and Technology Building and the DeSouza Weather Station, the Peter, Paul and Mary concert, post-game social, lectureships, Athletic Hall of Fame inductees, the Millersville Parade, class reunions and more.

1999 Charity King and Queen: Benjamin Abeles, representing Harbold Hall, raised \$5,997 for the American Cancer Society, while Samantha Bjone, representing the MU Student Ambassadors, raised \$11,378 for the American Liver Foundation.

Alpha Phi Alpha fraternity celebrated its 25th anniversary.

Mrs. Sandra DeSouza, widow of professor Dr. Russell L. DeSouza, participated in the dedication of the DeSouza Weather Station.

Inducted into the Athletic Hall of Fame were Janice Valentine Roak '76 (Basketball/Lacrosse), Edwin H. Wiest '42 (Football/Baseball), and Brenda Bannan-Ritland '86 (Lacrosse).

MU alumni strutted their stuff at ACMO's Star Lyte musical performance.

ALUMNI INTEREST

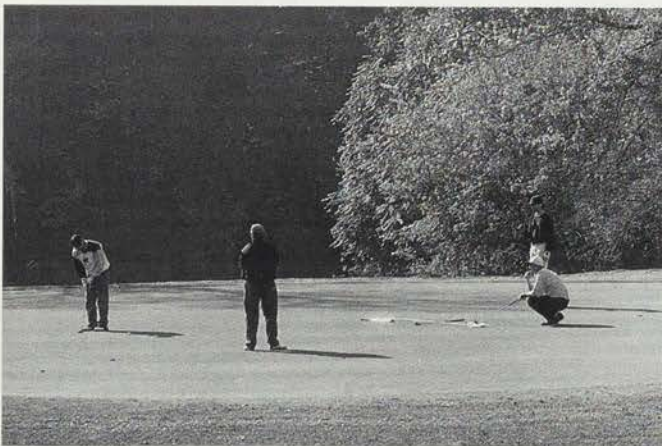

Documenting the construction of the Science and Technology Building were photos taken by MU employee and alum Tony Reimel '79, '84.

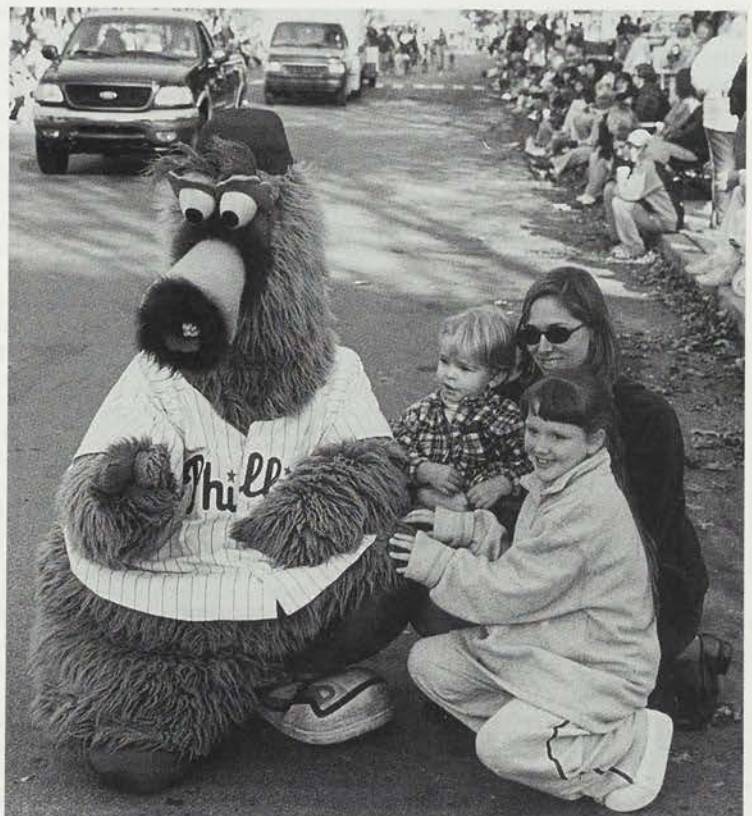

Marauder's football team gave the crowd a lot to cheer about as they defeated the Kutztown Golden Bears.

Folk legends Peter, Paul & Mary's music rang true at the sold-out concert in Pucillo Gym.

There was fun on the links with alumni golf outing.

Phillie Phanatic delighted the parade watchers.

CLASS NOTES

Class Notes, continued from page 25

commercial lines by Douple Agency Inc., an independent insurance agency.

Gary D. Gordon '82 and Kristin M. Stoudt, on June 21, 1999, in Las Vegas, Nev.

Neil L. Wiker '86 and Donna M. DeLong, on June 26, 1999, in Little Britain.

George A. Graupera '87 and Marysol Bolanos, on June 19, 1999, in Stevens.

Dawn R. Wentzel '87 and Shane D. Mentzer, recently, in Lancaster.

Beth Wagner Shoffstall '87 and Timothy M. Keller, on February 5, 1994.

Alan M. Shaffer '88 and Kristin K. Brivchik, on June 13, 1999, in Lancaster.

David M. Beltz '89 and Tammy D. Schiavone, recently in Trexlertown.

Donna Hassel '89 and Randy Harnish, on June 12, 1999, in Willow Street.

Rosemary A. Heesen '89 and Michael P. Goresch, Jr., on July 10, 1999, in Lancaster.

Gregory de Vitry '90 and Gina M. Baldwin, on July 10, 1999, in Lancaster.

Lisa Dymond '90 and Jason Burkholder, on June 14, 1999, in Ocho Rios, Jamaica.

Melissa Hartline '90 and George Griffaton, on August 14, 1999, in Reading.

Brian K. Mantel '90 and Christine Beers, on September 14, 1996, in Allentown.

A. Matthew Shelak '90 and Sue E. Harrington, on June 13, 1998, in Norristown.

Susan M. Wolf '91 and Keith D. Nixdorf, on June 12, 1999, in Conestoga.

Francine A. Effinger '92 and Anthony Rickert '95, on July 25, 1998.

Michael T. McCarter '92 and Tracey Herring, on May 15, 1999, in Milton, Fla.

Denise S. Baird '93 and David E. Hibshman '95, on June 19, 1999, in Wilmington, Del.

Heather Carpenter '93 and Jeremy Harvey '93, on May 29, 1999, in Alexandria, Va.

Mark E. Cole '93 and Traci L. Smith, on July 3, 1999, in Lancaster.

Mark A. Lindsay '93 and Angela J. Bowersox, on May 15, 1999.

Janelle K. Mohler '93 and Dwane M. Reitz, on August 21, 1999, in New Holland.

Sheila L. Neff '93 and Gregory G. Schmitt '97, on June 26, 1999, in Conestoga.

Donna M. Rich '93 and Ryan R. Schlinkman, on August 14, 1999, in Southampton.

David A. Troxell '93 and Gretchen Gutleber, on April 10, 1999, in Coplay.

Jeanene M. Wentzel '93 and Kyle M. Denlinger, on July 10, 1999, in Lititz.

Dawn M. Wilson '93 and Joel A. Jasinski '90, recently, in Exeter Township.

Lynda A. Balmer '94 and Christopher A. Lupp '94, on May 22, 1999, in Middletown.

Kelley L. Collins '94 and Todd J. Vickers, on September 26, 1996, in Dagsboro, Del.

James T. Dunn '94 and Cindy Wittick, on June 12, 1999, in Lancaster.

Aaron P. Francis '94 and Megan E. Tomlinson on May 22, 1999.

Mary L. Graff '94 and Phillip S. Blanchard, on May 1, 1999, in Elizabethtown.

Diane A. Hathaway '94 and John M. Allen, on July 24, 1998.

Julie Krajcivovic '94 and Craig Brophy, on August 29, 1998, in Allentown.

Jeanmarie Penko '94 and Matthew D. Navea '94, on August 8, 1998, in Southampton.

Julianne Pratt '94 and Robert R. Taylor, Jr., in April 1996.

Emily A. Scott '94 and Robert Geddes IV, on June 26, 1999, in Ridley Park.

Tiffany A. Vaughn '94 and Robert M. Burns, III, on August 1, 1998, in York.

Brenda Wagaman '94 and Will L. Stout, on June 26, 1999, in Lancaster.

Christina A. Gangemi '95 and William R. Nottingham, III, on May 31, 1997, in Wilmington, Del.

Melissa L. Graves '95 and David R. Readinger, recently, in Reading.

Denise A. Grittner '95 and Michael H. Torrey, on October 24, 1998, in Montgomery.

Amy L. Moore '95 and Timothy J. Boyle on August 29, 1998, in Kimberton.

Suzanne E. Spath '95 and Gordon L. Young, on June 12, 1999, in Lancaster.

Melissa L. Tator '95 and Craig J. Kaliser, on June 27, 1999, in Ivyland.

Heather M. Traver '95 and David C. Noll, on August 7, 1999, in Brownstown.

Steven B. Walker '95 and Kimberly A. St. Clair, on July 18, 1998, in Henrietta, N.Y.

Wendy E. Zazo '95 and Dinias B. Phillips, recently.

Kristin DePrince '96 and Marshall Mattie, on September 5, 1998, in Wayne.

Mary E. Gamble '96 and Craig Fischer, on August 8, 1998, in Cape May, N.J.

Leah C. Harvey '96 and Roy R. Mellott, Jr. '93, on June 5, 1999, in Lancaster.

Maureen Haynes '96 and William C. Wentling, on July 17, 1999, in Lancaster.

Brent M. Martin '96 and Lisa Budd, on July 10, 1999, in Lancaster.

Sharon A. McQuate '96 and Jeffrey H. Goodman, on November 23, 1997.

Julie M. Neff '96 and Ronald F. Martiello '97, on July 31, 1999, in Lansdale.

Amanda J. Sayre '96 and Brent J. Peiffer '96, on July 17, 1999, in Millersville.

Michael R. Shubert '96 and Sarah S. Dion, on October 10, 1998.

Keith L. Umble '96 and Linda R. Groff, on August 21, 1999, in Lancaster.

Jacqueline M. Barnett '97 and Gene L. Theodori, on June 5, 1999, in State College.

Nicole M. Boyer '97 and Scott W. Salinsky, recently in Pottstown.

Tracy L. Burkhart '97 and Bradley J. Hass, on June 19, 1999, in Paradise.

Beth L. Childs '97 and Robert P. Paul Jr. '97, on May 16, 1999, in Millersville.

Amy J. Hart '97 and James S. Bernoudy, on June 26, 1999, in Jamestown, N.Y.

Allison L. Kuechler '97 and Bryan D. Shaner, recently, in Jamaica.

Angela K. Nicholas '97 and Jason G. Karol, on October 10, 1998, in Emmaus.

James A. Colino '98 and Lisa M. Miller, on June 26, 1999, in Red Lion.

Tara L. Denunzio '98 and Randy L. Clemens, recently, in Shillington.

Megan Diviney '98 and Nathan Updyke, recently in New Oxford.

Sami J. Ganci '98 and Daniel A. Trout '98, on July 11, 1998, in Pottsville.

Drena R. Harbaugh '98 and Joel F. Brubaker '98, on August 21, 1999, in Millersville.

Jennifer L. Healy '98 and James Reilly '98, on June 26, 1999.

Melanie J. Heslink '98 and Jose L. Sanchez, on July 24, 1999, in Millersville.

Therese M. Legenstein '98 and Joshua N. Lewis, on July 3, 1999, in Lancaster.

Tretha J. Milkani '98 and Joseph S. Chromey, on November 14, 1998, in Dickson City.

Melinda M. Vazquez '98 and D. Stephen Markley, Jr. '96, on June 19, 1999, in New Holland.

Leah M. Vekios '98 and Daniel S. Gillespie, on August 7, 1999, in Lancaster.

Stacey Widder '98 and Jonas L. McGallicher, on June 19, 1999, in Ephrata.

Katie J. Good '99 and Shawn J. Landis '95, on June 5, 1999, in Annville.

Heather M. Myers '99 and Jeffrey P. Long, on June 26, 1999, in Willow Street.

Jennifer N. Peters '99 and C. Stephen Barrall, on June 26, 1999, in Lancaster.

Kristina L. Weaver '99 and Rodney J. Winkelspecht, on August 7, 1999, in Mount Joy.

Births

Michelle Minuto Mullin '79 and husband Dan, a son, Patrick Christian, in December 1998.

Jill Manning Laise '81 and husband David '80, a son, Ryan Eric, on January 3, 1999.

Judy Rapp Kamp '82 and husband Dennis, a daughter, Kathleen Michelle, on September 21, 1998.

Donna L. Sharer '83 and husband Dessler Watson, a son, Dessler Charles, on June 11, 1997, and twin sons, Luke Brady and Aaron Gregory, on April 21, 1999.

Lisa La Re-Richter '85 and husband William '87, a son, Caleb Ethan, on May 11, 1999.

Susan Althouse Westhoff '86 and husband Blaik, a daughter, Rachel Susan, on March 3, 1999.

Beth E. Shoffstall '87 and husband Timothy Keller, a son, Jeremy Brett, on November 25, 1997.

Jodi Myers Eberly '88, and husband Harold '88, a daughter, Madeline Kate, on March 3, 1998.

Amy Petersen Chessock '89 and husband John, a daughter, Michelle Deanne, on May 12, 1999.

Deborah Stroup Morris '89 and husband Robert, a daughter, Kessa Lynne, on April 7, 1999.

Gregory S. Lashley '90 and wife Sylvia, a son, Kenneth Daniel, on June 9, 1999.

Brian K. Mantel '90 and wife Christine, a son, Colin Michael, on May 7, 1999.

Cherie Meiklejohn Spilis '90 and husband Steve, a daughter, Alexa Quinn, on June 25, 1999.

Debbie Bellanca Wallitsch '90 and husband Bill '91, a son, Michael Domenick, on April 7, 1999.

Lisa Faus Wagner '90 and husband Randy, a son, Jack Henry, on October 13, 1998.

Marcia Gemmitti Liddick '90 and husband Robert, a son, Matthew Robert, on May 17, 1999.

Tricia Kaminski Landis '90 and husband Matt '91, a daughter, Robin Emily, on April 15, 1999.

Todd W. Walter '91 and wife Kathleen, a son, Zachary Todd, on May 25, 1999.

Beatrice Wang Chin '91 and husband Gregory, a daughter Alexis Renee on April 21, 1996, and a son, Jordan Daniel, on May 6, 1998.

Karla Lengle Kay-Conway '91 and husband Matthew, a son, Alexander Xavier, on April 12, 1999.

Lashon A. Avery '92 and husband Steven '94, a daughter, Taylor Autumn, on May 6, 1998.

Heidi Schneck Williams '92 and husband Todd '93, a son, Ryan Nikolas, on March 10, 1999.

Joy Landes Bradley '92 and husband Timothy '92, a son, Noah Michael, on April 24, 1998.

Kerry Jordan Keagy '92 and husband Todd, a son, Ryan Thomas, on March 13, 1999.

Kimberly Kuder Seiz '92 and husband James, a son, Evan James, on April 2, 1999.

Noelle Dongas Green '92 and husband Kevin, a son, Jacob Michael, on June 25, 1999.

Holly Hoff James '93 and husband Bryan '93, a daughter, Kara Marie, on May 2, 1999.

Amy Barkdoll Dias '93 and husband Dennis, a son, Thomas Paul, on January 17, 1999.

Angela Bortz Knarr '93 and husband Lee, a son, Sean Glenn, on March 22, 1999.

Lynda Franz Howard '93 and husband Michael, a son, Patrick Tyler, on January 13, 1999.

Natalie Mancini Lawton '93 and husband Mark '93, a son, Jack Ryland, on July 27, 1999.

Christa Meyers Dickenson '94 and husband Robert '93, a son, Robert William, on February 27, 1999.

FAMILY ALBUM

A passion for Millersville and its history

Dominick and Helen DiNunzio

Fifty years ago Dr. Dominick DiNunzio '53 arrived at Millersville as an eager freshman. And, in many ways, it is if he never really left.

Today he remains a frequent visitor to campus and ardent supporter of University events and alumni activities, having served on virtually every Alumni Board committee

as well as holding offices, including president.

The first in his family to attend college, he and his two brothers would all graduate and go on to earn their doctorate degrees. A life-long resident of Bucks County, Dominick began his career teaching math and drafting, and later went into administration. In 1992, he retired as the assistant superintendent of schools for Pemberton Township in New Jersey.

Retirement has allowed him to concentrate on a project of personal importance: gaining recognition for one of the founders of Millersville Academy, Reverend Lewis Merwin Hobbs. Helen, Dominick's wife, is the great granddaughter of Rev. Hobbs. The DiNunzios can trace 24 family members as being part of Millersville's legacy including a member of the very first class at Millersville—Anna Hartman, a niece of Hobbs.

Among Dominick's favorite remembrances is Old Main with its large, elevated patio, potted plants and rocking chairs; it was a popular gathering place after dining. The faculty was extremely accessible, even eating with students in the dining hall. At the time, the building housed the separate dormitories for women and men.

Much has changed since his student days at Millersville. But Dominick believes that one thing that hasn't changed is the friendliness of the students. It's one of the reasons he keeps coming back. In fact, during his approximate 50 years of involvement with Millersville, he has attended most of his reunions and missed only a few homecoming celebrations—two of which were while he was serving in the U.S. Army.

In describing his feelings for his alma mater, he says, "I just love it. I can't talk enough about it."

Looking toward the future, Dominick is particularly interested to see how the long-range planning of facilities and the campus develops. With the opportunity for a new field house and performing arts center, he hopes for more aesthetically appealing buildings, especially the exteriors. "The buildings should be beautiful." He'd love to see a replica of Old Main or the original Science Building be incorporated into new construction projects.

For him, it is another way of keeping Millersville's history alive.

CLASS NOTES

Julianne Pratt Taylor '94 and husband Robert, a daughter, Meredith Leigh, on August 1, 1998.

Sue Barley Forry '94 and husband Dan, a son, Daniel Barley, on October 1, 1998.

Jeffrey T. Miller '95 and wife Ann, a son, Zachary Jacob, on April 30, 1999.

Erin Stettler Kitsch '95 and husband Peter, a son, Nicholas Robert, on January 12, 1998.

Jacquelyn Bollinger Sengia '95 and husband John '95, a son, John Christopher, on September 27, 1998.

Charles Parker '96 and wife Colleen, a daughter, Mary Shannon, on June 19, 1999.

Michael R. Shubert '96, and wife Sarah, a son, Ryan Michael, on May 23, 1998.

Doreen Fure Fahringer '97 and husband Dan, a son, Andrew Michael, on November 10, 1995, and a daughter, Kelly Marisa, on April 2, 1999.

Deaths

Frances Betty Brubaker '20, Malvern, passed away on October 19, 1998. Mrs. Brubaker taught for many years with the Baltimore City schools.

Marian Brown Wilson '21, Renovo, passed away on July 31, 1999. An elementary teacher for many years, Mrs. Wilson was 102.

Margaret Furry Roudabush '22, Shippensburg, passed away on September 9, 1999. A former teacher, she was 98 years old.

Arlene Hartman Perry '24, Fort Lauderdale, Fla., died on March 24, 1999. Mrs. Perry, a former principal in the Boyertown School District, taught in Pennsylvania schools for more than 40 years. She was 92 years old.

Marion Rohrbach Merrion '25, Lititz, passed away on July 9, 1999. An elementary teacher for many years, Mrs. Merrion was 95.

Charlotte Seitz Zelle '26, Upper Frederick, died on July 29, 1999. Mrs. Zelle, a retired elementary teacher, was 94 years old.

Matilda Hills Humphreys '28, Whiting, N.J., passed away on May 9, 1997 at the age of 88.

Edna Cutler Leshner '28, Reading, died on July 11, 1999 at the age of 89. Mrs. Leshner taught elementary school and helped her husband run The Leshner Store, Reamstown, one of the first full service department stores between Lancaster and Reading.

Ruth Eberly Brown '29, Lancaster, died on August 6, 1999. A former teacher in the Philadelphia area and

Conestoga Valley School District, Mrs. Brown was 92.

Edna Frantz Hall '29, Lancaster, passed away on June 27, 1999. Mrs. Hall taught for many years before becoming the librarian at North East High School, North East, Md. She was 90 years old.

Olive Yoder Solliday '29, Blooming Glen, passed away on April 9, 1999. Mrs. Solliday attended the Blooming Glen School as a student and taught in that one-room school until it closed. She also taught at Margaret M. Seylar School.

May D. MacBride '31, York, passed away on April 5, 1999.

Martha Weiker Ludwig '32, Leola, died on July 20, 1999 at the age of 86. Mrs. Ludwig taught elementary school for thirty years in the Lancaster School District. She also served as a missionary in Ethiopia from 1950-54.

John S. Diller '35, Royersford, passed away on April 3, 1999. He taught biology for the Spring-Ford School District for more than 40 years. Mr. Diller was 85.

Helen Landis Beaverson '37, Manchester, passed away on July 13, 1999. Mrs. Beaverson taught in elementary schools for 24 years in the Northeastern School District. She and her husband Kenneth '37 celebrated their 59th wedding anniversary in June. She was 84.

Kenneth W. Beaverson '37, Manchester, died on July 8, 1999, at the age of 84. He taught in York County and was an elementary school principal in the York Suburban School District. In 1988, he was inducted into the York County Baseball Hall of Fame.

Edwin C. McCaslin '37, New London, N.H., passed away on March 5, 1999 at the age of 84. He had been a Senior Captain for Eastern Airlines.

Adella Curry Ramsey '37, Southampton, passed away on January 2, 1999.

Clauda P. Todd, friend, spouse of the late Richard C. Todd '38, Greenville, N.C., formerly of Lancaster, died June 29, 1999 at the age of 91. She and her husband were recognized in 1993 for their lifelong commitment to education when Millersville University named its admissions facility the Richard C. and Clauda P. Todd Admissions House. The Todds also have endowed various scholarships at Millersville University as well. Mrs. Todd held various positions in several corporations, most recently at Duke University in the alumni office.

Daniel W. Miller '41, Barnesboro, passed away on December 24, 1998. Mr. Miller was a woodworking teacher for 41 years. He was also the head football coach at Northern Cambria High School for 16 years, and a member of the Pennsylvania Coaches Hall of Fame. Mr. Miller was 79.

G. William Allabach '43, Swedesboro, N.J., passed away on August 13, 1999 at the age of 80. He was a retired assistant superintendent of the Deptford, N.J. Board of Education.

David L. Hunter '47, Northumberland, passed away on May 3, 1999. Mr. Hunter taught industrial arts in the Williamsport School District for 25 years. He was very active in the Adopt-a-Highway beautification program.

Mary Elizabeth Loney '57, Paradise, passed away on August 19, 1999. Mrs. Loney retired in 1978 after 21 years as a school nurse in the Manheim Central School District. She was 86.

L. Patricia Overbeck Worrest '57, Bozeman, Mont., passed away on February 28, 1999. Mrs. Worrest taught for several years.

Hettie Peters Shenk '59, Manheim, died on July 27, 1999. Mrs. Shenk was an elementary school teacher in the Warwick School District for 10 years. She was 61 years old.

Jack Kiefer '61, Stuart, Fla., passed away recently at the age of 59. Kiefer was a PGA club professional for more than 25 years in Pennsylvania and New Jersey before joining the Senior PGA Tour in 1991. In the mid '70s he operated a golf driving range next to the Lancaster Airport and later another in Sussex County, N.J. In 1990, Kiefer won both the New Jersey Senior Open and the New Jersey Senior PGA. He was inducted into the New Jersey PGA Hall of Fame in 1997. He won two titles: the Senior Canadian Open in Toronto, Canada, in 1997 and Ralph's Senior Classic in Los Angeles, Calif., in 1994. In 1997, Kiefer played in 34 events placing him 16th on the money list. For five straight years, Kiefer, known as an "ironman" on the tour, played in more than 30 events per year.

Barbara Becker Wendt '61, Susquehanna Township, passed away on November 30, 1998. Mrs. Wendt taught in the Central Dauphin School District. She was 59.

Glenwood S. Weinert '64, Eugene, passed away recently.

Jean Dicy Lear '68, Lancaster, died on July 24, 1999, at the age of 71. A former secretary for Slaymaker

Locks, Mrs. Lear also taught elementary school in the Warwick School District. After her retirement, she worked as a counselor for the Lancaster County Office of Aging.

Rev. Carl E. Yost '69, passed away on June 15, 1999. Rev. Yost, an ordained Lutheran minister, was also a guidance counselor for Southern Middle School for several years. He was 84.

Sharon Burgen Keesey '71, Lititz, passed away on August 11, 1999, at the age of 50. Mrs. Keesey taught for 27 years in the Warwick School District.

Jerry R. Roberts '73, Red Lion, passed away on May 14, 1999. Mr. Roberts taught industrial arts and technical education in West York School District for 26 years. He was 51.

Kathryn Barnes Albright '84, Lancaster, passed away on July 13, 1999. Mrs. Albright was an administrative manager to the dean of the School of Science and Math at Millersville University since 1987. She was 39.

Mary C. Tranter '88, York, passed away on December 15, 1998.

Margaret Blackburn '90, Millersville, died on July 6, 1999. Miss Blackburn owned Artistic Impressions, Lancaster, and previously was employed with two local county jewelers. She was 32 years old.

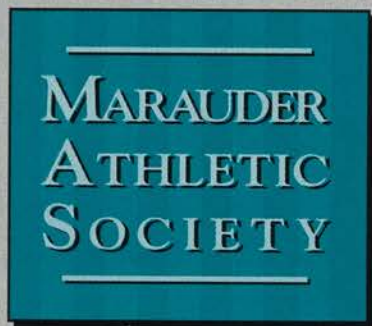

Kevin A. Gobrecht '91, New Oxford, died on October 2, 1999, at the age of 30. Mr. Gobrecht was the sprint car driver of Amoco Car 93 owned by Hylton-Blaney Motorsports. Gobrecht won more than 100 go-kart races throughout the Eastern and Southern United States from 1977 to 1991 and more than 100 Micro-Sprint races, including the Coors National Open, from 1992 to 1994. He was named Lincoln, PA Sportsman of the Year; National Sprint Car Rookie of the Year by the National Sprint Car Hall of Fame and Museum in 1995; debuted in the National Sprint Car Pole with a national ranking of fifth in April 1999; and placed third at Knoxville Nationals, Knoxville, Iowa in 1999.

William L. Johnson '91, Winchester, Ohio, passed away on June 8, 1999 at the age of 47. Mr. Johnson was a manufacturing manager at Diamond Power International.

Robert L. Scaramuzzino '94, Lancaster, passed away on September 4, 1999 following an accident, in Florida. He was 33 years old. He was employed by Kentucky Fried Chicken Restaurants.

Marauder Athletic Society established

Homecoming 1999 at Millersville marked the introduction of the Marauder Athletic Society (MAS). The Society is designed to provide support for scholarships and important program initiatives. It offers interested fans a way to ensure the continued success of one of the region's most exciting intercollegiate athletic programs.

MU has had a long and proud tradition of developing student-athletes who understand that both academics and athletics are an important part of the total higher education experience. Although the University, as a member of NCAA Division II, offers athletic scholar-

ships, no state appropriation or tuition monies can be used for this purpose. All scholarship funds must come from private sources and the Marauder Athletic Society.

Membership in the Marauder Athletic Society gives participants a direct impact on the quality of intercollegiate sports offered at Millersville. Benefits include: access to special events and ticket promotions, subscription to the quarterly MAS newsletter and invitations to hospitality events. All gifts to the Society are tax-deductible. Contributions of \$200 or more may be designated to a particular sport.

An advisory board for the Society will operate under the direction of the MU men's and women's athletics departments. Society members can choose to be more involved with the University by serving on committees, including the Athletic Hall of Fame, Development and Activity/Event committees.

For more information about the Marauder Athletic Society, contact the MU Development Office at (717) 872-3820.

Ronald McDonald House Fundraiser

Assistant Athletic Trainer **Teresa Zepka** coordinated a charity auction and raffle in mid-October benefitting the Ronald McDonald House Charities.

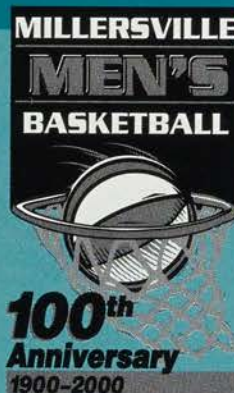

More than \$700 was raised from the auction and raffle. Prizes included hot-air balloon rides, gift certificates, dinners at area restaurants, plus opportunities for students to win dates with such prominent MU student-athletes as quarterback Drew Folmar and tennis ace Lauren Witmer.

In her seventh year at Millersville, Zepka assists in injury prevention and treatment for student-athletes.

Football player receives award for community service

Millersville defensive tackle **Jon Bucher** was among 22 college football players nationwide selected to the 1999 Good Works Team by the American Football Coaches Association. The team honors those athletes who demonstrate commitment to community service and to the betterment of the communities in which they live.

Bucher, a senior sociology major, was cited for his work as a counselor at The Terraces, a youth detention and drug rehabilitation facility in Ephrata, Pa.

Come celebrate!

- **Saturday, January 22**
Corporate Sponsorship Night. Marauders take on West Chester at 8 p.m. Pre-game and halftime receptions
- **Saturday, February 5**
100th Anniversary Dinner will highlight the greatest Marauder cage teams and players from the past century. The dinner will be held that evening following the home game at 3 p.m. with PSAC foe Kutztown. The reception and dinner will be held in the William H. Bolger Conference Center, Gordinier Hall. Tickets are \$25 per person.
- **Commemorative publication:**
100 Years of Millersville Men's Basketball. The booklet will highlight MU's basketball program over the decades, including photographs, statistics, and much more. To order, send a check for \$10 which includes shipping and handling. Checks should be made payable to Millersville University. To ensure your copy, advance orders are strongly encouraged. Send checks to the Alumni Services Office, Millersville University, P.O. Box 1002, Millersville, PA 17551-0302.

Note: Please include a note with your check indicating the address to which the commemorative booklet should be sent. Please allow 6-8 weeks for delivery.

For further information, contact the MU Office of Alumni Services at 800-861-1855 or 717-872-3352.

SPORTS

SPOTLIGHT

SPORTS

Football

The Millersville football team, led by record-breaking junior quarterback **Drew Folmar** and an array of talented performers, posted another winning season—the ninth this decade and 27th overall under Head Coach **Dr. Gene A. Carpenter**. The Marauders matched their 8-2 overall record of a year ago, and finished in second place in the PSAC Eastern Division.

Folmar broke all Millersville career records for pass completions, passing yards, touchdown passes, and total offense and increased his total records broken (game, season and career) to 20. Wide receivers **Sean Scott** and **Shawn Foxworth** each caught more than 50 passes, while junior halfback **John Flamish** surpassed the 1,000-yard rushing mark this fall.

The 'Ville special teams featured returner **Dondre Gilliam**, who ranked among the conference and national leaders in punt and kickoff runbacks all season. On defense, all-star middle linebacker **Lee Rizzotto** recorded over 100 tackles and also led the teams in tackles for loss (14) and sacks (10).

Women's Tennis

The Marauder women's tennis team, ranked second in the NCAA Division II East Region, posted its third consecutive PSAC championship October 17 at the Hershey Racquet Club. All six Millersville competitors earned all-conference honors, and **DeWitt Boyd** received his third straight PSAC Coach of the Year honor. Junior **Lauren Witmer** received PSAC Athlete of the Year laurels.

'Ville Cross Country Teams

For the first time in its history, both the men's and women's cross country teams at Millersville earned NCAA Division II national rankings in the same year.

The Marauder women have been rated as high as third in the East Region and 16th in the nation. The 'Ville men achieved #3 regional and #25 national ratings. **Jim Carney**, a bonafide All-America candidate, won three races and finished no lower than ninth—even against quality Division I competition—in any regular season meet this fall.

MU Volleyballers

The PSAC Eastern Division "dynasty" continued for the Millersville women's volleyball in 1999, as the Marauders claimed their seventh crown of the decade since 1992. Coach **Julie Hubbard's** squad edged Kutztown for this fall's crown with a 9-1 record, and raised its impressive win-loss record versus division foes the past eight years to 71-9.

Women's Soccer

The Millersville women's soccer team re-wrote its record book this fall, marked by its first 10-win season—and initial winning campaign—in the program's six-year history. The Marauders won 4 of their last 5 contests.

Becky Morris shattered her previous season records for goals (9), assists (8) and points (20) and goalkeeper, **Heidi Lininger**, keyed an improved Millersville defense that posted a record six shutouts.

Men's Soccer

In a season of fits and starts for a young Millersville men's soccer squad, the Marauders endured a scoring drought that exceeded five matches—without a goal in a three-week stretch. However, once Millersville finally ended the drought in a 2-0 win over Slippery Rock, the dam burst and the goals poured out. The Marauders recorded their highest single game total in 17 years in a 10-3 win over Bloomfield College. A week later, the 'Ville pumped in 11 tallies against Columbia Union College.

Women's Field Hockey

Victories, especially in PSAC play, were tougher to come by for the Millersville field hockey team in 1999. Nevertheless, senior All-American midfielder **Ini Hazatonos** of Lancaster enjoyed another standout season. Hazatonos paced the 'Ville fielders (9-11 overall) in scoring for the second straight season with 10 goals and 21 points.

MU's volleyball team celebrates another victorious season.

Senior linebacker Lee Rizzotto stops the opposing rusher in his tracks.

Kudos for MU Sports website

MU Athletics recently updated website was cited in an article by "The Collegian," Penn State University's student newspaper, as one of the best and most thorough college sports websites online.

Designed by junior **Kim Quigley**, a computer science major at Millersville, with input from **Greg Wright**, assistant director of University Communications & Marketing, the website features comprehensive and up-to-date information on all 19 Marauder intercollegiate sports.

and commitment...*

Bennett J. Cooper '67
Liberal Arts (History major)

Joanne (Wargo) Cooper '67
*Secondary Education
(Language major-French/Russian)*

For Ben and Joanne Cooper, their years at Millersville forever shaped their lives. They credit Millersville with providing positive experiences on all levels, for preparation for graduate school and "real life."

Among their treasure chest of memories from Millersville are enduring friendships among peers and faculty, Huey the Swan, ice skating on the lake, Old Main, approachable and dedicated professors, Homecoming parades, Marauder baseball and the library walk. To the Coopers, Millersville is a very special place—it was where they first met and fell in love.

Today, Joanne, who has a master's in education, is a reading specialist, and Ben is an attorney and senior vice-president with John Hancock Insurance. The parents of two grown sons, they reside near Boston but travel extensively. It might even be said that Ben is golfing his way around the world.

Wherever their journeys have taken them, Ben and Joanne have kept Millersville on their path of favorite spots—and, not just for events or special activities. They are committed to giving back to their alma mater.

"Millersville has given us so much. We are committed to providing opportunities for others to share similar experiences."

— Ben & Joanne Cooper
