Happenings

SPRING 2001

Cultural Entertainment

For ticket information, call 717-872-3811, 8 a.m.-4:30 p.m., Monday-Friday.

- "New Shanghai Circus"; April 8, 3 p.m.; Lyte Auditorium in Alumni Hall. Tickets for the public are \$10.
- "An Enchanted Evening of Music & Art"; May 5, 8 p.m.; Lyte Auditorium in Alumni Hall. An evening of music by the Millersville University Choir, the College Community Orchestra, Millersville faculty, alumni and guest artists. The performance will be preceded by an art auction/reception at 6 p.m. in Lyte Hall. Proceeds will benefit MU scholarships. See page 21 for more information. Tickets, at a cost of \$25 for the auction/performance and \$20 for the performance only, are available through the Office of Alumni Services, 872-3352 or 800-681-1855.

Lectures

- Dr. Annalisa Crannell, Women in Mathematics and Science Lecture, sponsored by Pfizer, Inc., and the Glenna Hazeltine Endowment, *Crayons and Computers: Awesome Pictures of Mathematics*, April 3, 9:30 a.m., Reighard Multipurpose Room, Student Memorial Center. For information/tickets, call 872-3407.
- Mimi Flaherty, Wolf Trap Foundation, *Building a Community of Partnerships*, April 3-4, 10 a.m.-noon and 1-3 p.m., Multipurpose Room, Stayer Education Center.
- Alice Walker, Hazel I. Jackson Lecture, Women's History Month Lecture and Carter G. Woodson Lecture sponsored by First Union Bank, *Zora Neal Hurston: Readings and Reflections on the Harlem Renaissance*, April 19, 7:30 p.m., Lyte Auditorium in Alumni Hall. For information, call 872-3775.

African-American Film Series

Shown in Myers Auditorium, McComsey Hall; Sundays at 7 p.m. Free admission.

- *The Color Purple*; April 1.
- *A Soldier's Story*; April 22.
- *Glory*; April 29.

Latino Celebration

- Roberto Suro, Lecture: *Strangers Among Us: Latino Lives in a Changing America*, April 4, 7 p.m., Lehr Room, Gordinier Hall.

Holocaust Conference

- Millersville's 21st Annual Holocaust Conference, April 22-23. Aristede de Souza Mendes Lecture by Robert Jay Lifton, M.D., *Nazi Doctors and Biological Evil*, April 22, 2 p.m.; Lehr Room, Gordinier Hall

Theater

- *A Shayna Maidel*; by Barbara Lebow; directed by Dr. Michael Phillips; April 19, 20, 21, 26, 27, 28, 29, at 8 p.m.; Rafters Theatre, Dutcher Hall. Set in 1946, *A Shayna Maidel* is a story of a Polish-Jewish family reunited in New York City after the devastation of Nazi concentration camps. Part of the 21st annual Holocaust Conference. For information, call 872-3129.

Art Exhibits

GANSER LIBRARY ART GALLERY

Open Monday through Friday, noon-4 p.m.; also Monday through Thursday, 7-9 p.m.; Sunday, 1-4 p.m.

- Dick Torchia: Photo Installation; April 2 - May 11.

SYKES GALLERY, BREIDENSTINE HALL

Open Monday through Friday, 8 a.m.-4:30 p.m. and Monday, 7-9 p.m.

- Daniel Burns: Paintings; March 26 - April 12.
- Young Artists-in-Residence; April 16 - May 3.
- MU Student Exhibition; May 8 - September 6.

Music

All performances are free and in Lyte Auditorium in Alumni Hall, unless otherwise noted. For more information on music events, call 872-3357.

APRIL

- 1 Faculty recital, Recital Hall. 7:30 p.m.
- 10 Louis Vyner Performance Award Winner Recital by Ruth DeLeón, piano. 8 p.m.
- 18 Faculty recital of the music of Sy Brandon. 8 p.m.
- 26 Jazz at the 'Ville: *Special Edition*. MU Jazz Bands; Keith Wiley, director, Gordinier Hall/Lehr Room. 8 p.m.
- 29 Millersville University Symphonic Band and Wind Ensemble; Daniel M. Heslink, conductor. 2:30 p.m.

MAY

- 2 Ensemble recital. Flute Ensemble, Joel Behrens, director; Guitar Ensemble, Marcia Englar, director; French Horn Ensemble, Cheryl Staherski, director. 8 p.m.
- 3 Ensemble recital. Percussion and Mallet Ensembles, Daniel M. Heslink, director; Clarinet and Saxophone Ensembles, Andy Wen, director; Chamber Ensemble, Madeleine Darmiento, director. 8 p.m.
- 5 Performance of Carl Orff's *Carmina Burana*. Millersville University Choir and Mixed Chorus, Buddy James, conductor. Millersville University Orchestra; Peter J. Brye, conductor; Lyte Auditorium in Alumni Hall. 8 p.m. Tickets are \$20. See "An Enchanted Evening of Music & Art," page 21.

Foreign Film Series

Shown in Myers Auditorium, McComsey Hall; Sundays at 7 p.m. Free admission.

- *La Cérémonie* (France); April 8.
- *Brothers in Trouble* (Great Britain); June 17.
- *Central Station* (Brazil); July 15.

Women's Film Series

Shown in Myers Auditorium, McComsey Hall; Wednesdays at 6:30 p.m. Free admission. All films are preceded by a guest lecturer and discussion.

- *Salt of the Earth*, April 5.

All events are free unless otherwise indicated.

More information is available in the University's Cultural Events Calendar, or on-line at www.millersville.edu

Spring Reunion
Weekend
May 3-5, 2001

Spring

ALUMNI REUNION

2001

CELEBRATE SPRING AT YOUR ALMA MATER
HIGHLIGHTS INCLUDE:

- Luau by the Lake
- Class Reunions: 1941, 1951, 1956
- Class photos
- An Enchanted Evening of Music and Art
- Honors and Awards Convocation
- All-Alumni Luncheon
- Hobbs-Wickersham Society Luncheon
- Senior Send-off and Alumni Night at the Village Night Club
- Ad Astra Society Reception
- Scenic Bus Tours of Campus
- Memorial Service

MILLERSVILLE
UNIVERSITY

SPRING REUNION 2001

Registration Form

Reservation deadline: April 25, 2001

Detach this form and return with payment to:

Alumni Services Office, PO Box 1002, Millersville University, Millersville, PA 17551-0302.

If paying by credit card, you may fax your reservation to (717) 871-5050.

Please print all information

Name(s) _____ Class Year _____

Address _____

City/State/Zip _____

Phone (with area code) Day _____ Evening _____

E-mail: _____

Special dietary or assistance requirements _____

Please note: The Alumni Association is pleased to offer complimentary lunch to our Ad Astra Society members (those who have graduated from Millersville prior to 1951), provided your reservation form is postmarked no later than April 25. Special guests for the day will be the Class of 1951, who are the latest class members to be inducted into this esteemed society. (All personal guests of alumni will need to pay the luncheon fee.)

THURSDAY

	NO. ATTENDING		\$ PER PERSON	TOTAL \$
Luau by the Lake	_____	X	\$ 13	_____
Senior Send-off & Alumni Night/Village	_____	X	\$ 5	_____

FRIDAY

Ad Astra Alumni Reception at Inn _____ Complimentary

SATURDAY

PAYMENT OPTIONS (Check one):

- ☐ My check is enclosed. Please make checks payable to **Millersville University**.

Bill my: ☐ Master Card ☐ Visa ☐ Discover Card #: _____

Expiration Date: _____ Exact name on credit card: _____

- If paying by charge, you may also FAX your reservation to (717) 871-5050.
- For questions, please call the Alumni Services Office at 1-800-681-1855 or (717) 872-3352.
- You may also complete the form on our alumni homepage, if paying by credit card:
www.millersville.edu/~alumni/springreunion.html
- Detach this reservation form and return with payment by April 25 to the:
Alumni Services Office, Millersville University, PO Box 1002, Millersville, PA 17551-0302.

NEED A PLACE TO STAY?

Call the Alumni Services Office, toll-free at 1-800-681-1855, for information on area hotels and motels, including those with special discounts. All reservations must be made separately.

Visit MU's alumni homepage at www.millersville.edu/~alumni

Mark your calendar for Homecoming 2001: October 20

The Millersville Review is published by Millersville University of Pennsylvania of the State System of Higher Education and mailed free to Millersville alumni, faculty, staff and other friends of the University.

State System of Higher Education:

James H. McCormick, chancellor

Board of Governors:

Charles A. Gomulka, chair, Kim E. Lyttle, vice chair, R. Benjamin Wiley, vice chair, Syed R. Ali-Zaidi, Angela M. Ambrose, Jeffrey W. Coy, Daniel P. Elby, Eugene W. Hickok, Jr., David P. Holveck, Vincent J. Hughes, James V. Manser IV, Tom Ridge, David M. Sanko, B. Michael Schaul, Jere W. Schuler '56, John K. Thornburg, Christine J. Toretti and Amy M. Yozviak.

MU Council of Trustees:

Sue A. Walker '64, chair, Abram W. Dittenbach '73, Gail D. Edwards, Ed.D., Charles W. Hash Sr. '42, Joseph E. Hennessey, Ph.D., Caroline M. Hoffer, Esq., '77, William B. McIlwaine, Ed.D., Margaret A. Sayago, Nelson Sears, Michael G. Warfel '84, Paul G. Wedel, and James H. McCormick, Ed.D., ex officio.

President of the University:

Dr. Joseph A. Caputo

Alumni Association:

Michael K. Henry '83, president; Joyce D. King '83, president-elect; Donald Rice '72, treasurer; and Richard Frerichs '64, secretary.

MILLERSVILLE

REVIEW

Spring 2001

Features

Page 7

Page 10

7 Careers: Getting a head start

Millersville's Co-op Education program has been offering students real-world insight into a myriad of careers for the past 25 years. Students have, quite literally, participated in co-ops and internships with organizations from Millersville to Mozambique, and career paths from advertising agencies to serving members of Parliament.

10 This is the life: A look at campus life

About a third of all MU students live in resident halls on campus. Learning to live with perfect strangers, making new friends, becoming independent, developing life skills and having fun are all part of the college experience. Life on campus is an interesting reflection of the times we live in, and students today enjoy more personal freedom than any generation before them.

CAMPUS NEWS

Two master's degrees approved

Master's degrees in early childhood education and business administration have been approved for Millersville by the State System's Board of Governors, following endorsement by the MU Council of Trustees in December.

Early Childhood Education

The Master of Education degree in Early Childhood Education is consistent with the plan and mission of the SSHE (Imperatives for the Future) for increased emphasis in graduate education.

It is expected to attract new students, as well as professionals interested in advanced knowledge and competence in early childhood education.

With current emphasis in the United States on the education of children during the early childhood years (birth to eight years of age), the new program will—more specifically—train practitioners who work in public and private elementary schools, in child care and preschool settings, and researchers from many disciplines. The degree program begins in the fall 2001.

Business Administration

The new Master of Business Administration will focus on collaborative leadership, information technology and international business contexts.

The MBA program will increase access to graduate education for a sizeable, new, non-traditional population of working professionals in the region. Those people are not currently being served by existing MBA programs, but desire a quality graduate program in close proximity to work and home. Additionally, the program will provide a career-relevant method for accounting students to satisfy the newly implemented American Institute of Certified Public Accountants' requirement of 150 credit hours.

Core courses will focus on business and its environment, managerial economics, marketing management, financial management, the management process, and managerial and cost accounting.

Enrollment in the degree program will begin with the fall 2002 semester.

Honors College approved

Expanding its commitment to providing academic challenges to students with talent, MU will offer an Honors College beginning in fall 2001.

The Honors College is a carefully articulated opportunity for learning within the framework of the larger university. Like the existing Honors Program, established 20 years ago, it is designed to enhance the academic climate of the entire University community while providing for students—with exceptional academic talents and motivation—the challenging opportunities to develop skills essential to post-graduate leadership. The difference between a college and a program is one of scale and commitment rather than numbers or structure, according to MU officials.

Millersville's Honors Program has been nationally recognized for the quality of its academic program and for its provision of cultural opportunities and other extracurricular activities for students.

Currently, some 300 students are enrolled in the program with about 80 freshmen admitted each year.

University contribution to local fire company

The MU Council of Trustees approved a special \$20,000 contribution to the Millersville Fire Company in December.

The special contribution to the fire company, whose area of coverage includes the University, will assist in purchasing a thermal imaging camera and a breathing air cascade system. The camera will give fire

fighters the ability to "see" through smoke, thus enhancing their efforts to locate people trapped inside burning structures. The breathing air cascade system, a method of storing breathing air, is comprised of eight large storage cylinders and a control panel and will be located at the fire station. It is used to replenish air cylinders after fire fighters return from a blaze.

We want to hear from you. Send your letters to Views, Communication & Marketing office, Millersville, PA 17551-0302. Letters may also be faxed to 717-871-2009 or emailed to Pat.Coulson@millersville.edu.

On the cover

Millersville University students feel at home on campus, see story beginning on page 10.

Collecting books for Africa

The effect of recent wars, calamity and continued poverty on developing countries in Africa have created a need for new university libraries and holdings.

In a project initiated by Dr. James Cosentino, professor of biology, MU has been collecting, storing, and shipping the books.

To help offset costs, MU has received a \$3,000 grant from the Fund for the Advancement of the State System of Higher Education. The monies complement a grant of \$10,000 from the International Organization for Chemical Sciences in Development that was initiated by Cosentino. He became aware of the need for books at African universities

while visiting there as part of a World Health Organization research project.

"I was so inspired by the need for books that, when I returned to Millersville, I started the book collection project—calling colleagues and friends at other universities and enlisting student volunteers to help."

As the project grew, so too did the costs of collecting, organizing, storing and shipping the volumes, he said. "State System library deans were receptive to the idea of initiating a collection process at each of their universities to benefit the African institutions. Once collected, the System universities will send their donations to Millersville where, along with our contributions, they

will be disseminated to the recipient countries abroad."

Volumes focusing on science and any other university-level discipline (no more than 15 years old and in good condition) will be sent, as well as journals covering time periods of not less than a year. Five shipments of 28,000 pounds each will be made during the effort's initial one-year period.

Cosentino hopes that the project will become an on-going State System effort to create a bond with the African institutions.

To donate books, contact Dr. Cosentino at 717-872-3034.

Acting dean named for School of Humanities and Social Sciences

Dr. Samuel Casselberry, chair of the Department of Anthropology and Sociology, has been named acting dean of the School of Humanities and Social Sciences.

The vacancy was created in November when Dr. Barbara Montgomery, dean, accepted a position at the University of Southern Colorado as the Provost and vice president for academic affairs.

Dr. Samuel Casselberry

Dr. Barbara Montgomery

Under Montgomery's leadership, MU initiated programs such as the Center for Regional Studies, the New Media Classroom, the Shanghai Executive Training project, the Summer Arts Institute and the Leadership Institute.

The University has launched a nationwide search for a new dean.

December 2000 commencement

Approximately 390 people received degrees in the ceremony held December 17. John F. Stacks, a Lancaster native, and *Time Magazine's* distinguished editor for creative development, delivered the commencement speech.

In his talk, he referred to journalism as "a life-long graduate school education. This is why they call it the news business: you discover what's new to you." His advice to the newest MU graduates was clear: "It's a huge and astounding world. And you don't have as much time as you may imagine. Go see it. Go discover it. Let yourself be amazed by life."

Stacks began his career in journalism with Lancaster's *Intelligencer Journal*, where his father was the editor. He joined *Time Magazine* in 1967. During his career, he has interviewed world leaders including Bobby Kennedy, Nelson Mandela, Mikhail Gorbachev and Mother Theresa.

CAMPUS NEWS

PBS documentary features MU professor

Dr. Alice M. Meckley reads to children at MU's Jenkins Early Childhood Center.

Dr. Alice M. Meckley, play researcher and associate professor of elementary and early childhood education, has a starring role in a new PBS documentary, "The Promise of Play." The three-part series was produced by The Institute for Play and InCA Productions, and highlights the vital importance of play in the life of healthy individuals in a healthy society.

Meckley was selected as a consultant for the documentary because of her expertise on children's play and her position as president of the Association for the Study of Play, an international organization of play scholars. She is one of two play scholars who appear in the documentary.

The first part of the series, entitled "The Mother of Invention," features an interview with Meckley, and segments with the children of Jenkins Early Childhood Center which is located at the University.

The documentary previewed in January on WITF-TV, and is scheduled to air nationwide this spring.

State System chancellor accepts Minnesota post

Chancellor James H. McCormick, who has led the State System of Higher Education since its creation in July 1983, has accepted a similar position with the Minnesota State Colleges and Universities (MnSCU).

The chancellor, who previously served for 10 years as president of Bloomsburg University and as vice president for administration at Shippensburg University, expects to remain in Pennsylvania until June 30, in accordance with the terms of his current contract.

"I have spent my entire career in public education, in the Common-

wealth," said McCormick whose first job was as a classroom teacher in western Pennsylvania.

Under McCormick's leadership, the System has enjoyed tremendous growth. Total enrollment at the 14 state-owned universities has gone from just less than 82,000 in the fall of 1983 to 96,275 this fall.

The State System of Higher Education's 14 universities offer more than 250 degree and certificate programs in more than 120 areas of study. More than 360,000 System alumni live and work in Pennsylvania.

MU PEOPLE

Dr. Gene Carpenter, professor of wellness and sports sciences and head football coach, retired February 15. Dr. Carpenter led MU's football program for 31 years, tallying more victories than any active head football coach at Millersville or in NCAA Division II. (See story, see pp. 28-30)

Gene Carpenter

Betty Finney

Dr. Betty J. Finney, professor of psychology, will retire in May. She has been a member of the Millersville faculty for some 33 years. Her teaching responsibilities over the years have been varied, including courses in child development and mental health, assessment and gerontology. She also has been involved with the supervision and training of interns on campus and, in private practice, has worked with Psychological Associates of Lancaster.

Dr. Gary R. Hovinen, professor of geography, retired on December 29. Hovinen, a member of the staff since 1973, taught a variety of geography and geography-related courses. In

addition to his classroom duties, he served on numerous University committees and was chairperson of the Geography department. Hovinen has authored or co-authored a variety of publications, including *The Pennsylvania Dutch Country: A Pictorial History*.

Gary Hovinen

CAMPUS NEWS

Kathleen Babb-Hutcheson has been named coordinator of the Women's Center.

As Women's Center coordinator, she will organize all center programs and services, including speakers, workshops, discussion groups and creative exhibits. She also will represent the center on the Commission on the Status of Women and other University committees, and co-manage the operation of Montour House, where the center is located.

Previously, Babb-Hutcheson served as part-time phonathon coordinator and associate director for alumni programs and annual giving at Franklin & Marshall College.

She earned a bachelor's degree in individualized studies, race, ethnicity and gender in the U.S. at George Mason University and a master's degree in counseling and student affairs in higher education at Kutztown University.

Kathleen Babb-Hutcheson

degrees from Webster University, and is a doctoral candidate in human services at Capella University.

Dr. Paul W. Ross, professor of computer science, retired in December 2000. A member of the faculty since 1978, he taught a variety of courses, including advanced programming, systems analysis and programming, computer architecture, and microcomputer systems.

Earlier in his career, he was director of academic computing for Franklin & Marshall College, and head of a design team for the RCA Electronic Components Division, which had been based in Lancaster.

Paul Ross

Dr. Hans G. Skitter, professor of foreign languages, retired in December 2000. In addition to teaching a variety of graduate-level German courses, he served as chairperson of the Tenure and Renewal Committee and was resident director of the University's Junior Year in Marburg student exchange program.

Before coming to Millersville in 1969, he taught at Shippensburg University, the University of Freiburg in Germany and at Queen Elizabeth's School for Girls in London.

Marjorie A. Trout, director of women's athletics, will retire in June. Trout was hired as an instructor in health and physical education, now wellness and sport sciences, when she joined MU in 1964. In addition to

Marge Trout

her duties in the classroom, she has served Millersville in various other capacities through the years: basketball and lacrosse coach, coordinator of women's athletics, director of equal opportunity in sports, and associate athletic director before being named to her current position.

Deaths

Elva W. Biemesderfer, wife of former Millersville University president D. Luke Biemesderfer, died February 10 at Luther Acres in Lititz. She was 102.

A 1917 graduate of the former Millersville Normal School, she was a member of the University's Campus Club and served as its president until 1960. She remained an active supporter of the University.

Her husband, Dr. D. Luke Biemesderfer, was president of Millersville from 1943 to 1965. The Biemesderfer Center, which served as the Millersville University library from 1894 to 1967, was renamed in his honor. He died in 1989.

Several years ago, the Elva W. Biemesderfer Scholarship was established at MU for students majoring in speech communication with an area of expertise in theater.

A Denver native, Mrs. Biemesderfer was a graduate of Denver High School, where she later taught. She was preceded in death by a son, Robert.

Surviving are a daughter, Martha A., a son, C. Daniel, and ten grandchildren.

Elva Biemesderfer

Albert J. "Bud" Woolley, Jr., a professor of health and physical education from 1966 to 1993, passed away on October 9, 2000, in Lancaster. At various times during his many years at Millersville, he served as head coach for soccer, golf and baseball.

Mark McKinney

Mark A. McKinney has been appointed assistant director for social equity and diversity.

McKinney will plan and manage budgetary expenditures, investigate discrimination complaints, and

assist in the implementation of the Campus Climate Survey and the Diversity Master Plan. He also will continue to work toward building an inclusive community by establishing a working relationship with Millersville University students, faculty, and staff and the greater Lancaster community.

Before coming to MU, he was a personnel administration supervisor with the U.S. Army.

He holds a bachelor's degree in communications from the University of Nevada-Las Vegas, two master's

Animals: What are they thinking?

For Eugene Linden, the issue of whether animals think is just one aspect of a larger issue: The position humanity holds in the larger universe.

"A great deal of research has been perpetrated in the belief that we are the only sentient beings on the planet," he says. "It's important that we begin to see ourselves as part of a greater natural order."

For over 30 years, Linden has been an author, correspondent and speaker on science, technology and the environment. In 1987, he joined the staff of *Time* magazine.

He began his exploration into animal intelligence in the early 1970s with the publication of *Apes, Men, and Language*, which discussed the implications of experiments attempting to impart human languages to apes. He followed up that work with *Silent Partners*, which explored our ambivalent relationship with the natural world.

Linden's presentation to Millersville contained a collection of anecdotes gleaned from his research with scientists, animal trainers and zoos across seven continents.

Research into whether animals think can be traced to the "Clever Hans" phenomena, a horse that

lived around the turn of the century who could "add." Hans' owner would ask the horse what the sum of two numbers was, and in turn Hans would stomp out the answer with his hooves. However, it turned out, Linden said, "when Hans was blindfolded he was a dunce."

Why? Because the horse had learned to watch his owner, who unintentionally made slight body motions when Hans stomped out the appropriate number. When Hans recognized his owner's movement, he would stop. When he couldn't see his owner, he was clueless.

Still, researchers continued to ponder the possibilities of animal intelligence, and their work took on new light in the 1960s with experiments teaching sign language to chimpanzees. At that point the argument began to center on whether or not the chimps truly understood the meaning and context of the words they had learned to sign.

One day, one of the chimps, named Washo, saw a swan on a lake, turned to her trainer, and made the signs for water and bird. The debate raged anew: Did Washo really know what she had done or did she just stumble upon this?

"This issue has been debated since 1972," Linden smiled. "We've ended the Cold War and scientists are still arguing about the two words this ape signed."

Linden then related his anecdotes, many from his most recent book, *The Parrot's*

Lament: And Other True Tales of Animal Intrigue, Intelligence and Ingenuity.

He told the tale of FuManchu, "the Harry Houdini of orangutans," who was able to escape from his cage by looping a piece of wire around the latch on his door and pulling it open. When searched by his captors, FuManchu was found to be hiding the

wire between his cheek and gum.

"At the very least, this phenomena involves tool-making and use," Linden noted. "But it also involves engineering and deception, which is a higher mental ability."

"It then dawned that maybe animals do their best thinking when they do things for themselves, not to please their trainers," he concluded.

From elephants working together at the Bronx Zoo to con more treats from their trainers, to Orky, a killer whale at Marineland who used his head to boost a diver up into a net to help save his baby, Linden related tales of animal ingenuity.

While he allowed the audience to form its own conclusions, Linden added, "The possibility of intelligence in animals makes, for me, the universe a little less lonely."

He told of Bongo Marie, an African parrot who hated Paco, another parrot in the house. One day, as their owner took a cooked Cornish game hen from the oven, Bongo said, "Oh no, Paco!"

Startled, the owner pointed to Paco in his cage and reassured Bongo that Paco was still there. When Bongo Marie saw Paco still alive, she cried the first thing that came into her head: "Oh, no!" Thus, the parrot's "lament" became the title for his most recent book.

"The possibility of intelligence in animals makes, for me, the universe a little less lonely."

Eugene Linden

On Campus: October 26, 2000
Science lecture sponsored by the Mr. and Mrs. William F. Brossman Charitable Foundation

BOOKS BY EUGENE LINDEN (a partial list):

- *The Parrot's Lament: And Other True Tales of Animal Intrigue, Intelligence, and Ingenuity*
- *Apes, Men and Language*
- *The Education of Koko (with Francine Patterson)*
- *Silent Partners: The Legacy of the Ape Language Experiments*
- *The Future in Plain Sight: Nine Clues to the Coming Instability*
- *The Alms Race: The Impact of American Voluntary Aid Abroad*

Cooperative Education:

Careers: Getting a head start

MILLERSVILLE
UNIVERSITY
COOPERATIVE

EDUCATION

"Cooperative Education

° is an academic program that allows students to work in their major or career area. It combines the knowledge students have learned through their academic studies with career experience"

The college experience at Millersville University has many different facets; not only are there educational challenges, but students also experience personal growth through their classroom experiences, and extra-curricular activities. Another avenue to academic, personal and professional growth is the Cooperative Education program, which has consistently received rave reviews since its inception 25 years ago, from the students and employers who have taken advantage of co-op opportunities.

"Cooperative Education is an academic program that allows students to work in their major or career area. It combines the knowledge students have learned through their academic studies with career experience," explained Diane Fleishman, director of Cooperative Education.

Cutting across all academic disciplines and careers, co-ops offer students an opportunity to earn credits, earn money, build their resume, try out their major, and network in their field. Working in a job setting gives students a chance to see if a career or specialized area of study is a right fit for them. It may be a reality check to see if their dream job really measures up.

The value is immeasurable. It sometimes causes students to change their major. Or it can confirm that they are on the career path that is right for them. Either way, it provides great insight into the "real world." In fact, while many students only do one co-op in their senior year, Fleishman encourages students to do multiple co-ops and begin as early as possible.

"We've had students from Millersville to Mozambique," Fleishman said.

One of the best aspects of the Co-op program is that it can provide students with experiences of a lifetime. Consider Scott Maddox '99 who did a research project in the Amazon rain forest and is now serving in the Peace Corps in Central America.

Or Jason Porterfield, a political science major who will graduate in May '01, who spent a semester overseas through MU's International Studies Program at the University of Northern London. While there, he worked for Barbara Roche,

Cooperative Education

Diane Fleishman, director of Cooperative Education for the past ten years, takes her job to heart. The achievements of co-op students are a source of great pride to her, and she stays in touch with many former students.

a member of Parliament, in her North London constituency office. He was the first intern of the University of North London/MU Partnership. Since Jason, other students are broadening their international experience by working in their field while overseas. For example, MU education majors are student teaching in English schools and seeing first-hand the differences in the educational structures and practices between the United States and Great Britain.

Approximately 80 percent of the co-ops are paid; some co-ops may offer a stipend. Last year, 350-400 students earned a total of \$930,000 through their co-ops. In the 1990s, students earned an estimated \$6.6 million. And, the income is in addition to the academic credits they earned. Most co-op experiences earn three credits, which are counted as electives in the student's major.

When senior Kim Quigley started college, she didn't "have a clue" about what to major in. However, by her second semester at Millersville, she was a declared computer science major and hasn't looked back since. Her co-op at Hershey Foods last year was a great experience, exposing her to the

realities of the business world such as the legal issues surrounding the Internet. It also helped her realize that she wanted to work for a smaller company.

Graduating in May, she already has a job as a web support specialist at IBSI, a Lancaster business specializing in e-marketing insurance services. "I think everyone should do an internship" Kim said. It's a belief shared by 99 percent of MU Co-op alumni surveyed. They agreed that students would benefit from an internship or co-op.

"We do a mini-career counseling session with each student to determine their interests, abilities, skills and need for transportation. We match this information with jobs in our database and develop a list of job prospects for the student who then sends his resume to the prospective employer," Fleishman explained. Employers interview the students and offer the position to a qualified candidate. Students negotiate the terms of the co-op such as the hours and start and end date with the employer.

"One of the benefits of the co-op experience is that it takes students through the whole job search process, which is a valuable skill they will use the rest of their lives," she remarked.

Students win

Students who have participated in a co-op have a stronger resume. Not only do they have solid experience in their career field, but they also have references from professionals within their career field. "This whole experience gives the student a leg-up on the competition," Fleishman said.

Marcos Emig '99 can attest to that. The communications major spent three co-op semesters at WGAL-TV. Each co-op focused on different areas, providing a constant learning experience. It also provided him with a "leg-up" in a very competitive field. He is now an assistant producer at WGAL-TV.

At Weber Advertising, an advertising agency based in downtown Lancaster, marketing major Brad Backenstose '98 started as an unpaid intern. Jim Weber, president of the company, was so impressed with him, he provided financial assistance for Brad to complete his degree. Brad has been an

The co-op experience helped web specialist Kim Quigley make the right choice in choosing her future employer. She graduates in May and already has a job.

At Weber Advertising, Co-op student Ryan Miller (center) fits right in with MU alumni Brad Backenstose '98 (left) and Tony Roda '95.

employee since. Last year, Tony Roda '95 joined the firm as art director, and Ryan Miller, an art major graduating in May, worked at the agency last summer.

Accounting major Tyrone Washington '97 did his co-op in the job accounting department at R.R. Donnelly and Sons. This experience led to a summer job, and then an offer for a full-time position as an inventory accountant after he graduated in December 1997.

"I can honestly say that my co-op experience at R.R. Donnelly and Sons really jump-started my career as an accountant... I really learned a lot about the importance of being detail oriented to be successful as an accountant," said Tyrone. "I also learned about the importance of teamwork at R.R. Donnelly and Sons. My team in inventory accounting was excellent and we really supported each other in every aspect of the job which allowed us to work efficiently together and have a good time."

Tyrone is now a supervisor in the cash accounting department of E*trade Bank in Arlington, Va. The online bank was originally called Telebank, and was acquired by E*trade in January 2000, making it a combination of an online bank and brokerage.

Employers win

During the last academic year, 322 Pennsylvania businesses and organizations participated in the MU Co-op program. In addition to that number are the organizations across the country and globe.

"Employers who are using co-op students for the first time are often surprised at the quantity and quality of work performed by our students," Fleishman remarked. Millersville has established an ongoing relationship with several local employers including Lancaster Laboratories, Dodge-Regupol, Inc., Smoker & Company, and Emerald Asset Management. Currently several geography majors are working with the Lancaster County Planning Commission to develop applications using the County's GIS (Global

Information System) mapping software.

Fleishman indicated that some employers specifically ask for a graduating senior because they're looking to fill a position, while some employers keep entry-level positions open for co-op students so that they can mentor students. Yet others use co-ops as their main recruiting tool. In fact, a survey of MU alumni who had a co-op experience between 1990 and 1995 indicated that nearly half (44 percent) of the 200 respondents were offered positions from their co-op employer.

Although Cooperative Education has a large number of jobs in its database—over 3,600 jobs at 2,700 different companies—they are always looking to add jobs and companies to the mix. Proactive steps encourage new companies to become part of the program by participating in two co-op job fairs a year, working with the University's international partners, continually forming new alliances with businesses, and posting job information on its website (a job description form can be completed by the employer online)—
www.millersville.edu/~coop/.

For Fleishman, one of the most rewarding referrals is when a former co-op student contacts her office in the role of an employer seeking a student.

"In one sense [the number of students who participate versus those who are eligible to participate] the Co-op program is one of the best kept secrets. But for those who do participate it is a win-win situation. The kids grow tremendously from it, and the employers gain as well," she concluded.

Employers interested in participating in a co-op, please contact the Cooperative Education office at:

This is the

Life

A look at campus life at Millersville University in 2001

Back in the 1970s, students attending Millersville University often showed up with a foot locker filled with jeans and sweatshirts, a milk crate with albums and maybe a lava lamp. In 2001, campus life is a lot different. Students bring everything but the kitchen sink, and that means everything.

"Students come to Millersville from homes where they often have a room of their own. They're not used to sharing and they're not used to doing without," said Phil Riordan, director of Housing and Residential Programs and assistant vice president of Student Affairs at Millersville.

Used to the luxuries of home, students typically arrive on campus with a van packed with their many possessions. Some parents even rent U-Hauls or mini-vans to haul everything their college student needs to survive on campus. Even those who come from nearby tend to bring everything they could possibly need to be happy and comfortable at college.

Tiffany Anthony of Ephrata didn't have to travel far to Millersville. She's a junior living in Hobbs Hall with one roommate. Among the possessions she and her roommate brought to school were computers, printers, a TV, a stereo, a mini

refrigerator, a microwave, a VCR, an iron, lots of tapes and CDs, a fan, lamps, posters, calendars, carpet, curling irons, blow dryers, lots of clothes, lots of shoes and much more.

"Our closets are bulging, but we have plenty of room. We like having everything we need," she said.

Her friend, Caroline Mundorff, also from Ephrata and a junior, agreed. She's in Lenhardt Hall, which has the added luxury of carpet. She spends the week on campus, but goes home most weekends to work at a part-time job. Still, when she's living on campus, she wants all the luxuries she's used to—from her computer and printer (a must) to her TV and VCR. While the female students bring enough items to open up a small shop, the male students tend to pack a little lighter.

"I don't think the guys bring quite as much, but they still have a lot," said Clee Brun, a freshman from Unionville, Pa.

He lives in Hobbs Hall and has all the essentials, such as the computer and printer, stereo, TV, VCR and posters. Now he is living in a double room, but when he arrived in the fall, he was in a triple.

Due to overcrowding at the beginning of the 2000-2001 academic year, many freshmen had to triple up. For that reason, Brun and his roommates didn't bring quite as much as they might have. They knew they would be in tight quarters. Now, things are a little roomier, since he just has one roommate.

Fall overcrowding

According to Riordan, Millersville University has the capacity for 2,500 resident students on campus. Freshmen and sophomores are required to live in campus housing. However, when the 2000-2001 year began, the demand for on campus housing exceeded the availability. There were 2,630 residence students, so many of them had to live in triples that were

Making room for all the "essentials" for campus living can be a challenge.

originally intended as doubles.

He attributes the overcrowding to the increased enrollment at all colleges in the United States. The 2000-2001 school year brought record enrollments at most colleges. Formulas that used to work to determine the size of the freshmen class didn't work last fall, because there were simply so many high school graduates heading off to college. According to Riordan, colleges accept a certain number of students, anticipating that a certain percentage of them will select other schools.

"The kids took it pretty well," noted Riordan. "It was actually the parents who seemed most upset. They didn't like seeing their kids crowded into small rooms."

Typically, the spring semester has fewer students, so the reduced enrollment alleviated the overcrowding quickly. Surprisingly, many of the students who had been in triples had trouble separating from their two roommates. They had grown close and enjoyed having two roommates.

"Some of them couldn't decide who they wanted to be with. They liked both roommates," said Riordan.

Students bring everything but the kitchen sink, and that means everything.

Juniors Tiffany Anthony and Melissa Tredinnick have been roommates since their freshman year.

This is the Life...

Of the 7,500 students enrolled at Millersville University, more than 2,500 live in campus housing. Approximately 3,000 students (including 900 graduate students commute) to the University. Many of the juniors and seniors – about 1,900 students – live off campus. This includes privatized housing through Student

"Safety is a priority here at Millersville"

Lodging, a non-profit organization offering apartments for upperclassmen. For that reason, the University has no plans to increase the number of resident halls on campus. Instead, it will rely on Student Lodging, Inc., to construct apartments in close proximity to campus. MU does, however, plan to improve on-campus housing for students.

Long-range plan

In order better serve current residents and to meet the needs of the future, Millersville has developed a long-range plan for student housing. As part of the planning process, the Anderson Strickler consulting firm conducted a comprehensive study on campus which included an extensive assessment of each of the residence halls, and recommendations for improvements.

Fire safety is a top priority, according to Dr. Phil Riordan.

Long-range plans include the construction of structures to connect residence halls as shown here for Gilbert and Bard halls on the North campus.

Although the ten residence halls are structurally sound, there is a need for modernization – especially with the interior systems and finishes. An ambitious five-year plan is now in place to update and renovate each of the facilities.

The step-by-step improvement program proposes to renovate bathrooms, upgrade mechanical systems such as plumbing, electricity, and lighting. More electrical outlets will be added to in each room to handle the increased use of appliances and electronic devices. New finishes and furnishings, and security and access systems, will also be part of the upgrading.

Installation of sprinklers in all residence halls at Millersville is a top initiative of the capital improvement program. Riordan expects that the sprinklers will be installed starting this summer, and completed within five years in all buildings. This effort stems from a commitment by the State System of Higher Education to ensure that all campus residence halls at the 14 state-owned universities are equipped with automatic sprinkler systems.

Currently, the buildings have fire safety equipment to provide fire detection and early warning systems for building evacuation. Frequent fire drills and active fire

education training are part of the ongoing safety programs.

"Safety is a big priority here at Millersville," said Riordan, noting that the sprinklers will be installed before other renovations to the residence halls.

The long-range plan proposes most of the residence halls to be reconfigured to accommodate the creation of more single rooms and a limited number of suites.

Movin' on in. Even the littlest of hands are put to work.

Construction of connecting buildings between residence halls will unify the separate facilities into more of a residence complex, or commons area. The structures may also provide additional community and living/learning space, classrooms, sound-proof study areas, social lounges, and possible retail space. Current plans call for connecting Bard and Gilbert on the North Campus, and the South residence halls of Harbold and Diehm and Hobbs and Hull.

The study included surveys and focus groups. Among student preferences for housing amenities are:

- air conditioning
- improved shower and more private bathroom facilities
- carpeted hallways
- storage areas for summer break
- computer lab
- game room
- fitness center or weight room

A supportive community environment

According to its mission statement, the Department of Housing and Residential Programs is "committed to designing and maintaining a supportive community environment that enhances the academic, personal and social development of residential students."

Each of the rooms in the residence halls is equipped with furniture (beds, closets, dressers, desks, desk chairs, window shades or blinds, curtain rods), telephone jacks and cable TV jacks. Students bring their own touch-tone phones.

Rooms in the residence halls are equipped with one or two telephone jacks. Millersville University provides free, unlimited basic/local telephone service. A special, discounted long-distance service, via calling card, is available. Students are also provided with voice mail.

Obviously, regulations to avoid energy overload and fire prevention are necessary. For example, students are not allowed to bring space heaters, potpourri pots, hot pots, refrigerators over four amps, cooking appliances, ceiling fans or air condi-

Computers are basic equipment for today's students.

tioners. These restrictions are due to safety regulations, especially with heat-producing appliances.

Residence halls

There are ten residence halls, some serving special purposes or academic areas. All are co-ed facilities except Hull Hall which houses only women (see pg. 15 for more about the residence halls).

For security reasons, residence halls on the Millersville University campus are equipped with electronic computerized card systems. While in operation, these systems permit access to the hall by residents of that building only. In all card access controlled buildings, the system is operational 24 hours a day. If someone wishes to visit a resident who lives in a card access controlled building, that person needs to announce his or her arrival by using the exterior telephone provided at the door. The residence host must come to the entrance and escort the guest to his or her room, and later out of the residence hall.

Beginning in January, halls without electronic access are now locked 24 hours a day. Residents are provided with a key for the front door. By fall 2001, all residence halls will be equipped with the card access system.

Special purpose halls

Hobbs Hall is one of the special residence halls on campus, serving as

A big screen TV allows these fellows to watch sports or play video games when they want.

the home base for the Center for Service Learning and Leadership. At Hobbs Hall, there is a unique dedication to a lifestyle that serves the community. Its residents logged 900 hours of community service in the greater Lancaster area during the fall 2000 semester.

Performing a variety of services to the community at large, students on one floor helped special needs children compete in the Special Olympics. Another provided services to the elderly of Millersville, and yet another cared for children at a local shelter. The students focus on service learning, which is described as "community service performed with deliberate reflection."

During the semester, each wing offers various service activities. Some students prefer to serve individually. For example, one resident is serving the area as an EMT (Emergency

Medical Technician), while others volunteer at retirement homes and non-profit organizations.

Select wings are also dedicated to International Studies students. There

"I can't even imagine what it would be like to not have a computer."

— Clee Brun, MU student

Then & now...

1906 - Women's dorm
(Old Main)

2001 - South campus
residence halls

1906 - Typical dorm room

2001 - Typical dorm room

Over the years, excerpts from Millersville student catalogs reflect the college experience...

1880-1881

- Students must repair to their rooms at the ringing of the bell for evening study, and not leave them without the permission of the teacher in charge; and within fifteen minutes of the ringing of the retiring bell, all lights must be extinguished and all noise cease.
- Students rooming in the buildings are requested to provide themselves with *slippers*. [emphasis supplied]
- No water, dirt, or other material shall be thrown from the porticoes or windows.

1926

- Rooms are supplied with furniture, rugs, and bed-clothing, *except blankets,...* [emphasis supplied]
- Students will furnish their own blankets, towels, soap, and napkins and must have all articles of clothing marked with indelible ink with the full name. Each student is entitled to have fifteen pieces washed a week without extra charge. He will be charged for additional pieces. Electric light is furnished by the school, and other lights are not permitted.
- Students must have their rooms in good order and ready for inspection by 9 a.m.
- Except for special reasons, no visiting will be permitted on Sundays or in the evening. Permission to receive visitors shall be obtained before the visitors come to school.

1951

- Present dormitories for men and women—separated by the administrative unit, chapel, and dining room—comprise the largest structures on the campus. In such numbers as they can be accommodated, students room in the dormitories. Rooms are single and *en suite*.
- Permission to leave the campus during class days will not be granted without good reason. Women students desiring to make week-end visits other than those to their own homes are permitted to do so only upon the written request of parents, submitted directly to the Dean of Women. Written invitations must also be sent to the Dean of Women by the persons in whose families the students desire to visit.

1971

- Rooms are provided with furniture and bed linens. Students furnish their own blankets, drapes or curtains, waste cans, towels, and desk lamps.
- The College provides laundering of bed linens only. Laundromats for personal laundry are available in the residence halls and in the community.
- Possession, serving, or use of alcoholic beverages on the college campus or any activity sponsored by a college organization is prohibited.
- Any student apprehended for illegal possession, use, or sale of drugs on the campus is subject to immediate suspension...

Current

- All halls have 24-hour visitation.
- Visitors/guests of the same gender who want to sleep over may do so anytime, but only with the permission of the roommate(s). Special fees and length-of-stay limits apply.
- Cohabitation is not permitted.

This is the Life...

are opportunities for both U.S. and international students to experience, appreciate and learn about new and different cultures. There is no language requirement and admission is open to all, on a first-come, first-served basis. Men are housed in co-ed Harbold Hall, while women are in all-female Hull Hall. Residence in these facilities is also offered to students participating in the Honors Program.

Technology on campus

One of the biggest changes in campus life at Millersville University in the past ten years is the advancement of technology. Nowadays, many students

do research on the Internet, send and receive email messages from professors and even turn in papers via email. Many of the students bring their own computers, having been raised in the era of technology.

"I can't even imagine what it would be like to not have a computer," said student Cleo Brun. "It's a part of our lives."

Millersville University has recently completed the process of wiring each residence hall room for access to the MU computer network. With a connection to the network, students are able to access the Internet, MU's online library system, instructional materials, the University information services and

Residence Halls

All of the residence halls are co-ed, except for Hull Hall which only houses women.

- Bard Hall - 162 students
- Burrowes Hall - 356 students; smoke free, air conditioned
- Diehm Hall - 252 students
- Gage Hall - 345 students
- Gilbert Hall - 175 students; smoke free, air conditioned
- Harbold Hall - 242 international students and honors students
- Hobb's Hall - 254 students and the Center for Service Learning and Leadership
- Hull Hall - all women; 230 international studies and honor students
- Landes Hall - 246 students
- Lenhardt Hall - 320 students

Below: In the early 1970s, a student security guard provides access to a co-ed in light of the "liberalization" of women's hours. Bottom: Most MU residence halls now offer electronic access.

Comfort is high on the list as students make a home away from home.

With creative space planning, it's amazing what some students fit in their rooms.

This is the Life...

What students bring to campus

alarm clocks	trash cans
computers	bed linens
stereos and CD players	and towels
TVs and VCRs	rugs
telephones	dishes
FAX machines	posters
refrigerators	plants
(under 4 amps)	curling irons
microwaves	hair dryers
(under 9 amps)	furniture
irons (with automatic shut-off)	clothes
fans	books

computer software provided by the University. There are no additional charges for use of this service. To use this resource, students need to provide their own Ethernet-equipped computer.

Almost as important as computer services are TV services. Students love their TVs. At MU, basic cable service is provided to individual student rooms by Comcast Cable Company, which enables students to receive local channels, educational channels, national news, CNN, ESPN, MU closed-circuit programming and many other stations. Cable is provided to students by the University at no additional cost. Each room is equipped with a cable-ready connection.

Needless to say, the combination of computers, TVs, stereos and other appliances requires greater energy demands than ever before. So far, the University has been able to provide for these increased demands.

Treated with respect

At Millersville, students are generally regarded as adults and treated in that way. As Riordan pointed out, they do not have curfews. They are informed of the essential rights of students and expected to allow their fellow students to enjoy those rights. Among the rights that are considered basic are the rights to read and study without disturbance from loud noises, the right to sleep, the right to one's personal belongings, the right to a clean environment in which to live and the right to express grievances.

Since most students are under age 21, the laws of Pennsylvania closely regulate all activities related to alcoholic beverages. The University administration takes alcohol use and abuse very seriously.

However, as Riordan admitted, "It's very difficult to keep college students from drinking."

A guidance system

To help guide the underclassmen, the University has a system that involves resident assistants, graduate assistants and the Resident Students Association (RSA).

Resident assistants (RA) are full-time undergraduate resident students who provide overall leadership to residents on a floor or wing. Handling everything from assisting students with personal and academic concerns, to helping resolve any conflicts that might arise, RAs also are expected to help build a positive and inclusive community by initiating and organizing wing, floor or hall activities and programs.

Graduate assistants, who are also full-time students, live in a residence hall and provide leadership for the resident assistants and the students living in the building.

The Resident Students Association serves, primarily, as the "voice" of

resident students. It receives funds from the Student Senate to schedule social activities, educational and cultural programs, and services to the University.

A lot has changed since students arrived at Millersville with their steamer trunks in the 19th century. For example, it is unlikely that many students today could have passed the mandatory inspection held every day at 9 a.m. during the 1920s and before.

But even the good "old" days had some advantages. The school used to launder students' clothing and bed linens weekly for no extra charge. And, the laundering of bed linens was still in effect in the 1970s. Of course, so was a curfew for female students.

Regardless of the decade or century that students attended Millersville, the memories of their college days are special. In addition to academics, it was a time rich in growth, where lasting friendships began, and lifetime skills were honed. And, living on campus played a role in providing a comprehensive and enhanced college experience for students including greater involvement in University activities and being with peers 24/7. It's one thing that hasn't changed.

ALUMNI INTEREST

IMPORTANT NOTICE TO TEACHER EDUCATION GRADUATES

An important notice has been posted by the Department of Education:

In November 1999, the state legislature passed Act 48 which requires all persons holding Pennsylvania professional educator certification to complete continuing education requirements every five years in order to maintain their Level I and Level II certificates. **The law applies to all public school certificate holders no matter where they are, what they are doing or when their certificates were issued.** Inactive certification will prevent an educator from serving in a professional position in the public schools of the Commonwealth.

Educators must maintain their certificates as active by earning six collegiate credits or six PDE-approved in-service credits or 180 continuing education hours or any combination of the above every five calendar years. The first five-year period began on July 1, 2000, and included the 600,000-plus educators whose records are

maintained by the Bureau of Teacher Certification and Preparation at the Department of Education.

Educators who are not employed as professional or temporary professional employees by public school entities may elect to request voluntary inactive certification status from the department in order to suspend the requirements of Act 48.

At least 12 months prior to the end of the five-year period, the department will notify educators regarding their continuing education status and the remaining credits/hours, if any, to be completed. The department will again notify the educator at the end of the five-year period.

Information regarding Act 48 requirements and your continuing education status is available through the department's web pages at www.pde.state.pa.us

Research grants awarded

Eleven undergraduates were awarded a total of \$3,914 in grants for research from the MU Alumni Association. The Neimeyer-Hodgson Research Grant program, established in the early 1980s, assists undergraduates each semester with monies to support special research programs completed at MU. Since the programs inception, the Alumni Association has awarded over \$75,000 to 300 students. The fall recipients were well represented in the academic departments of Biology, Communication, History and Chemistry. The recipients along with their hometown, year, major, and project are:

- Charissa Adamczyk, Macungie, senior, molecular biology major, "Functional Characterization of the Yeast Gene DEG1 Using Deletion Analysis"
- Amy Anderson, Philadelphia, senior, speech communication major, "Color Catcher"
- Megan Baumgartner, Trenton, N.J.,

senior, art/history major, "Irish History at the Turn of the 20th Century through the Eyes of W.B. Yeats and Jack Yeats"

- Jennifer Ernst, Allentown, senior molecular biology major, "Microhabitat Effects on Pig Decomposition in Lentic Environments"
- Kimberly Hellwig, Kutztown, senior, speech communication major, "Volunteer Management as a Public Relations Function"
- Jaclyn Iera, Pittsburgh, sophomore, biochemistry major, "Lectins in Food"
- Jonathan Kasitz, Boyertown, junior, biology major, "Silver Mine Park Removes Half of Nitrates in Water from Silver Mine Run"
- Greg Lang, Pittsburgh, senior, molecular biology major, "Identification of Functional Domains in the Yeast Gene DG1"
- Joseph Piga, Scranton, senior, chemistry major, "Electrochemistry of Hemoglobin at Surfactant Coated Electrodes"

Alumni directory released

The 2001 Millersville University Alumni Directory was published in February by the Bernard C. Harris Publishing

Company. Over 3,600 orders have been placed, including 3,000 of the print version (71 percent of those are for the deluxe edition) and more than 400 CD-ROM versions.

Of the 38,000 data forms sent to MU alumni, we received over 25,000 responses. The Alumni Services office and the MU Alumni Association would like to thank all who responded to our survey requests—and for purchasing the directory. This publication is a great resource for everything from finding a former classmate to networking in your professional field.

- Robert Smith, Millersville, senior, chemistry major, "Determination of the Effect of External Heavy Atoms on the Phosphorescence Lifetime of Naphthalene"
- Diane Wilson, Lancaster, junior, chemistry major, "Hardening Variations and Blooming Problems in Encaustic Paints"

The Alumni Association's Nominations and Awards Committee reviews all applications. Members include:

- Joyce King '83 (chair)
- Dr. Dominick DiNunzio '53
- Michael Henry '83
- Phil Loht '65
- Elaine Lyons '56
- Joyce Nolt '62
- George Robb '54
- MaryLiz Rutherford '41
- Dr. Helen Stine '64
- Linda Thompson '84
- Steven DiGuiseppe '82 (director of Alumni Services/executive director of the MU Alumni Association).

ALUMNI INTEREST

MU turns 150 in 2005

Millersville University is quickly approaching a major anniversary of our institution: In 2005, 150 years will have passed since Millersville became the first normal school in the Commonwealth of Pennsylvania.

Become a part of our history as we begin to plan our celebration of the 150th anniversary of Millersville University. The archives at Ganser Library would like to encourage our alumni and friends to search their closets, attics and basements for memorabilia, artifacts or other items that document the history of Millersville University.

The University Archives is actively seeking memorabilia such as correspondence, scrapbooks, programs, photographs, films, videos and artifacts such as banners, logos, pins, patches, freshman beanies, athletic uniforms, team jackets and other items unique to Millersville University for display in the upcoming anniversary.

If you would like to donate memorabilia, please contact Dieter Ullrich at the Special Collections Department, Helen Ganser Library, Millersville University, Millersville, PA 17551-0302; email: dieter.ullrich@millersville.edu or call 717-872-3624.

Homecoming 2001: Special reunions

Some organizations have contacted the Alumni Services office recently to start planning for special reunions to be held during Homecoming 2001 weekend—October 20. These include:

- Kappa Delta Phi Sorority
- Marauder Wrestling team, celebrating the 50th Anniversary of the Pa. State Conference Championship
- Honors Program

If you are a member of any of the above organizations and are interested in planning these events, please contact the Alumni Services office at 800-681-1855

Homecoming 2000 Scorecard

Once again alumni came to our aid in responding to the annual Homecoming survey, which helps the Alumni Programs Committee of the Alumni Association plan for future events. Approximately 800 surveys were mailed randomly, and 200 were returned.

Just who were the alumni who returned survey forms about the four-day homecoming extravaganza? They were primarily female, who traveled less than 150 miles, and brought their children.

Which decade had the highest response rate? The '90s grads, with over 60 responses, followed by 51 from the '70s.

Here are what alumni said about Homecoming 2000:

Events that scored with high percentages in the excellent/good rating included:

- Alumni & Friends Golf Outing
- Athletic Hall of Fame Reception & Dinner
- 20th Anniversary of Phi Kappa Sigma/Kappa Beta Luncheon
- The Fifth Quarter Post Game Social
- John Newman Alumni Picnic
- Alpha Chi Rho Alumni Reunion
- Kenny Rogers Concert

Comments included the following:

- "Fireworks were outstanding this year! And the kazooos were a hit!"
- "The food is always good at MU."
- "The Millersville Parade was wonderful—what a great community/university effort."
- "I was disappointed in the number of people that came to the 1975 class reunion. More people should take pride in their alma mater and come back and meet old friends and reminisce."
- "Homecoming theme was fun—including the treasure chest with prizes."
- "Perhaps the University Store could be open prior to the parade start time."
- "Activities have expanded (for the better) since the sixties."
- "What a great concert [Kenny Rogers]—we would like to see more 'big name' entertainers come to MU." Some suggestions for future entertainers: Tony Bennett, Neil Diamond, Beach Boys, Barry Manilow, Phil Collins, the Greaseband, Billy Joel, Carly Simon, Jimmy Buffet, Harry Connick Jr. and too many more to list.
- "I'd like to see more club activities."
- "The amount of money raised by the students was outstanding. It made me very proud to be an alum and a parent of a student there."
- "The discount at the bookstore was a great idea."
- "I got up Sunday morning and my face was sore from the sunshine at the football game and from all the smiles and laughter I experienced all day Saturday. Thanks for a great day!"

Mark your calendars for Homecoming 2001—October 20. Don't miss this great weekend of fun, food, reunions, athletics, lectures, concerts, laughter and more. Watch the *Millersville Review* summer and fall issues for updates and calendar information.

Branch News

On November 11, eighty-five alumni and guests danced the night away at the annual Harvest Ball.

Sponsored by the Lancaster Branch of the Alumni Association, in the Student Memorial Center, the night was billed as "An Evening at the USO" in honor of Veterans Day. This year's entertainment was "Big Band Nostalgia." Guests enjoyed an evening of swing, the foxtrot, Latin, Dixieland, light rock, the waltz, slow dancing...and more. The evening also included a full buffet reception of hot and cold hors d'oeuvres, the University's homemade finger desserts, wine, beer and softdrinks.

Back by popular demand, this event will be held in November 2001. Watch the alumni calendar of events for the exact date.

Young alumni: From Manayunk to Lancaster

A special after-work reception was hosted in Manayunk on November 16 with over 75 young alumni attending. The Manayunk Brewing Company has become our nightspot for future young alumni events in the Philadelphia area.

Additional events for young alumni are being planned in other areas as well—Lancaster is next on our calendar (May 3), followed by Harrisburg/York (in late May). Alumni in those respective areas will receive announcements under a separate mailing.

Spring reunion fun

MU "Graduates of the Last Decade" (MU G.O.L.D.) are cordially invited to two fun events this May in Lancaster County. First up is the Luau by the Lake, Thursday, May 3, 5:00 p.m., on campus.

This annual event, which welcomes our new graduating class to the Alumni Association, also encourages our alumni from 1990-2000 to return and have a fun-filled dinner. A

Alumni in 45 countries around the world

One-hundred and sixty-two Millersville University alumni with foreign addresses are living in 45 countries scattered across the world, according to a report prepared by the Office of Advancement Services. Millersville alumni also reside in every state in the Union. All living MU alumni total approximately 45,000.

Of the total number of alumni residing in other countries, Germany has the most—26. That's followed closely by Japan with 25, then Canada with 20, Malaysia with 11, the United Kingdom with 10, and Australia and Kenya each with seven.

The countries in which MU alumni live and work include:

Afghanistan - 1	Guatemala - 1	Puerto Rico - 1
Australia - 7	Italy - 1	Russia - 2
Belize - 2	Japan - 25	South Africa - 2
Brazil - 1	Kenya - 7	Spain - 3
Canada - 20	Kuwait - 1	Sri Lanka - 1
Central African Republic - 1	Liberia - 1	Sweden - 1
Chile - 1	Malaysia - 11	Taiwan - 1
China - 1 and Hong Kong - 3	Mexico - 1	Tanzania - 1
Costa Rica - 1	Morocco - 1	Thailand - 3
Cuba - 1	Nepal - 1	Trinidad and Tobago - 1
El Salvador - 1	Netherlands - 2	Turkey - 1
France - 4	Niger - 1	United Kingdom - 10
Finland - 1	Nigeria - 2	Venezuela - 1
Germany - 26	Peru - 2	Western Sahara - 1
Ghana - 2	Philippines - 2	

fantastic menu has been planned with the Caribbean sounds of a steel drum band. (See the insert in this magazine for reservations.)

The evening's highlight event takes place at the Village Night Club in downtown Lancaster. The Alumni Association has booked the club from 9-11 p.m. with the "Fuzzy Bunny

Slippers," a favorite cover band from the Philadelphia/New Jersey area. (Doors will open to the public after 11 p.m.) Alumni: \$5 cover charge. No advance reservations are needed at the Village.

So come on out, bring a friend too, for a fun evening at the MU Lake and the Village.

ALUMNI NOTE: If you live in Lancaster and/or York Counties, you will receive a separate invitation for the alumni events in your area.

Thank you, MU volunteers

What makes our events and operations successful at MU? Volunteers. Volunteers by the hundreds. Particularly the hundreds of alumni and friends who volunteer their time in a multitude of responsibilities.

Our volunteers come in all class years—from the 1920s to 2000—occupations, and specialties.

They serve countless hours on boards, committees, initiatives—some monthly, some annually, some longer. Then there are the volunteers who work with special events—from brainstorming a plan of action to hosting an event, from advising students and fellow alumni, for assisting with fundraising solicitations.

All of these acts help make Millersville a better place for everyone.

Millersville University is most appreciative of everyone's efforts that make us one of the best universities in the United States—with over 45,000 alumni, 7,400 students and 1,100 faculty and staff. We salute all of you!

Above (seated), Denise Chandler '80 and Nelson Parrish '81 offer advice to MU students before the job fair.

Alumni volunteers help make the annual dance marathon a successful fundraiser for the Children's Miracle Network.

Springtime at the Lake

Catching a lift on the lake from a swan was Naomi Hess Langford, the 1935 May Queen.

1939 May Queen Dorothy Hess Girvin glides across the lake on a lily pad.

Be cool was a slogan these MU students took to heart in 1971 when they took a dip in the lake with inner tubes and other flotation devices.

an Enchanted Evening of Music & Art

*Coming soon,
an extraordinary
evening...*

**An Enchanted
Evening of Music
and Art,
Saturday, May 5**

The Friends of Millersville, a group of community volunteers, University faculty and staff, have planned two premier events which will raise funds for art and music scholarships.

A Silent Auction will begin at 6 p.m. in Lyle Hall (first floor), adjacent to Alumni Hall. Guests will enjoy a dessert reception while perusing over 50 items up for bid. During the evening, there will also be a "Live Auction." Auction items will include:

- artwork (sculptures; pottery; paintings, stained glass—completed by local artisans, faculty, students and alumni)
- vacation getaways
- gourmet dinners
- memorabilia items
- gift baskets; fine wine and spirits
- a hot air balloon ride
- day spa treatments
- and more

Following the auction, there will be a musical performance—an evening of Orff and Opera, as the Millersville University Orchestra, the Millersville University Choral Union and the Pennsylvania Academy of Music Children's Choir take center stage in Lyte Auditorium in Alumni Hall at 8 p.m.

Conductors Peter J. Brye, Buddy James and John Brooks will collaborate with international soprano and faculty member Jean Bradel and tenor Clifford Bechtel '94 for an outstanding musical experience. From the dramatic opera choruses of Verdi to the lyrical dance music of Bizet's Carmen to the intensity and power of Carl Orff's Carmina Burana, the evening promises to cover the entire range of human emotion through some of the world's finest music for the stage.

For guests attending the auction and musical performance, tickets are \$25 per person; for just the musical performance, tickets are \$20 per person. Tickets for both events can be purchased by contacting the Alumni Services office, after March 30 at 800-681-1855.

CLASS NOTES

Pre-60s

Jason W. White '25, Lewisburg, was featured in a recent *Sunbury Daily News* article about his membership in the Penn Wheelers square dance group at 95 years old. He retired in 1975 from Kutztown University where he taught mathematics.

Robert V. Duffey '38, Chambersburg, was recently featured in *Mercersburg's Journal* about his work tutoring math and English at James Buchanan Middle School. He is a retired professor of early childhood-elementary education.

Louise G. Williams '39 and husband, Robert F. Williams '38, of Lancaster, were featured in a Lancaster *Sunday News* article about celebrating their 60th wedding anniversary with a tennis tournament at the Westside Tennis Club.

George M. Ehemann '40, was inducted posthumously into the MU Athletic Hall of Fame. He was an Associated Press all-state first team selection his senior year (1939-40).

Chuck Meole '40, Baton Rouge, La., won a gold medal in the 2000 IWF World Masters Weightlifting Championship in Orlando, Fla.

Richard K. Leiphart '43, Leola, was featured in a *Sunday News* article about being reacquainted with fellow U.S. Coast Guard crew members 55 years after serving with them on the USS Joseph T. Dickman in the Pacific during WWII.

John W. W. Loose '47, Lancaster, has been elected president of the Lancaster Torch Club.

J. Freeland Chryst '50, Lancaster, received the Pa. State System of Higher Education Eberly Award for volunteerism. He is currently involved in the Student Affairs Focused Campaign at MU.

Joanne A. (Long) Blankenstein '55, Millersville, recently published her children's book, *The Swans of Millersville*, under the pen name Jonee.

Ron Grove '59, Shrewsbury, plans to open and manage a 100,000 sq. ft. building project in Southern York County to include an antique mall and farmers market.

1960s

David H. Spahr '60, Doylestown, has retired after 31 years with the Central Bucks School District.

Ruth H. (Hoffman) Longer '61, Duncansville, is the first woman to serve as Rotary District Governor in District 7350, which includes 46 clubs in Pa., Md., and W.Va.

John Pavlick '61, Fort Washington, retired from teaching biology and coaching football in Upper Dublin School District.

Patsy A. Hartranft '62, Harrisburg, retired from the Central Pennsylvania Conference of the United Methodist as the director of program administration after 41 years of service.

Arthur Drescher '64, Glenside, retired last June after 36 years of teaching, mostly in the Abington School District. He currently volunteers for the National Park Service at the Vietnam Memorial in Washington, D.C.

Donald H. Esbenshade '64, Bird-in-Hand, was one of five athletes recently inducted into the Conestoga Valley High School second Hall of Fame class. He won the James Neely Award in 1953 as the most outstanding soccer player in Lancaster County.

G. Terry Madonna '64, Lancaster, was featured in a recent *Sunday News* article about the media exposure his department, MU's Center for Politics and Public Affairs, received during the presidential election. Student placement in opinion research, government and political jobs has benefited from the media attention.

Robert S. Walker '64, East Petersburg, was honored by having the post office in Millersville named after him by the U. S. House of Representatives for the former congressman's longtime involvement with the town.

Sally Ann (Ringlaben) Watkins '64, Lititz, was named academic dean at Linden Hall School for Girls.

Thomas A. Kloss '65, Paradise, had his artwork featured in Lancaster County's Museum of Art's holiday exhibit in November 2000.

John V. Bratton '67, Intercourse, was featured in an *Intelligencer Journal* article for his work with Conestoga Valley High School's Technology Student Association, whose members set off fireworks at all home football games. He is a technology education teacher.

Roger Alan Raspen '67, Langhorne, was enshrined into the MU Athletic Hall of Fame in October 2000. He was a three-time basketball NAIA All-American and All-PSC selection from 1964-67.

Gordon Neal Diem '68, Durham, N.C., was recently hired by Harb-Adult as fund development director.

Elizabeth Ann (Smith) Oberdick '68, Brogue, is presently teaching in Nova Scotia, Canada, through the State Department's Fulbright Teacher Exchange Program.

1970s

Ronald C. Burger '70, Stockbridge, Ga., received both the Rev. Everett Hageman Award from the National Association of Local Boards of Health and the Center for Disease Control's Volunteer of the Year Award in 2000. He is a senior response coordinator for the CDC in Atlanta.

James M. Melhorn '82, Rindge, N.H., received his master's degree in divinity from Lancaster Theological Seminary in May 2000 and was ordained. He now serves as pastor of First Congregational United Church in Rindge.

William H. Wolfe '82, Harrisburg, was enshrined into the MU Athletic Hall of Fame in October 2000. He was a three-time NCAA-III All American and was a two-time PSAC champion in the javelin throw. He also captured the IC4A title in 1979.

Kevin Miller '83, Lancaster, recently earned board certification by the American Board of Podiatric Surgery.

He is a podiatric surgeon with the Physician's Alliance Ltd.

Ross C. Reed '83, Memphis, Tenn., received a second master's degree, in jazz and studio, from the University of Memphis. He holds a doctorate from Loyola University in Chicago.

Nancy J. Beerkircher '84, Brussels, Belgium, studied painting at Tyler School of Fine Arts. She currently takes commissions on a part-time basis.

Amy E. Gippich '84, Ephrata, was enshrined into the MU Athletic Hall of Fame in October 2000. She earned All-American honors plus conference and regional all-star acclaim during her basketball career at MU.

Lisa J. Oberholtzer '84, Lititz, was recently named one of the "Lancaster Area's Leading Business Women" by the *Intelligencer Journal* for her successful family business, Confidently Your Electrolysis in Lititz.

Brenda A. Kline '85, Harrisburg, was featured in a recent WITF-TV publication about her work coaching the Harrisburg area synchronized swimming team, the Spiralettes. The youngest team member is 8 years old.

Catherine A. Rudman '86, Lancaster, was hired as a new long-term substitute teacher in the Pequea Valley School District. She taught previously in that district.

Patricia E. Kline '87, was hired as a new long-term substitute teacher in the Pequea Valley School District. She previously worked at Warwick Middle School.

Lawrence J. Nowlan '87, Havertown, was commissioned by MTV Enterprises for his sculpture, an 8-foot statue of Jackie Gleason as Ralph Kramden of "The Honeymooners."

Joseph V. Paster '87, Houston, Texas, was awarded the NASA Manned Space Flight Awareness Award for the U.S. Microgravity Lab STS-50 for his work contributing to flight safety. It is the highest award presented to a civilian working for NASA.

Samuel J. Romesberg '87, Rockwood, was featured in a recent Somerset, Pa., *The Daily American* article about his home business, SamSigns, operating since 1990. He is also an art teacher at North Star High School.

Daniel G. Daneker '88, Lancaster, was awarded Wal-Mart Foundation's Teacher of the Year Award. He is a science teacher at Conestoga Valley Middle School and an instructor at MU in the Education Foundations Department.

Bruce E. Eyer '88, Lancaster, was hired by Life Management Associates as a child and family therapist.

Alumni Snapshot

Stephen Powell, Class of '72

Belief in a dream, coupled with an old-fashioned work ethic, has proved to be a winning combination for Stephen L. Powell '72.

Back in the early 1990s, Powell was an employee of S.S. Fisher Steel Corp., which was heading for bankruptcy. It was then that Powell began the transition from employee to entrepreneur. But for Powell, who is president, CEO and owner of Powell Steel Corporation, none of it has come easily. For over two years he tried to secure financing from banks and private investors. The answer was a consistent "no."

But Powell did not give up, and eventually his tenacity paid off. He purchased the company in 1994. Starting with eight employees, Powell Steel Corporation has grown to over 80 employees and gross revenues in excess of 20 million dollars.

Located in Lancaster County, the company fabricates and erects multi-tonnage structural steel throughout the Northeast, with 98 percent of their projects awarded through the competitive bid process. In 1999, Powell was named Central Pennsylvania's Entrepreneur of the Year in the emerging businesses.

In addition to his CEO demands, Powell is deeply involved in many community and professional organizations. As a successful African-American businessman, he serves as a willing and accessible role model.

At the end of the day, from November to March, Powell trades his hard hat for a whistle as head coach of Lancaster's J.P. McCaskey basketball team. For eight years, he has been coaching the Tornados, an experience he refers to as "a labor of love." He strives to instill in his players important "life skills" such as a strong work ethic and sense of commitment. And, in Powell's case, he teaches by example.

Janet (Stephens) Libera '88, Colchester, Conn., has been promoted to surgery critical care clinical specialist at Hartford Hospital.

Michael Stettner '88, Bensalem, earned his master's degree in education from Villanova University in December 1999. He teaches earth and space science in the Lower Merion School District.

Peppy Rausch '89, Lancaster, was named accountant for Knezic/Pavone Advertising in Harrisburg.

Marlene R. (Turner) Sloat '89, Wrightsville, provides psychological assessment services for Life Management Associates. She is a licensed psychologist.

Michael L. Spotts '89, Reading, was recently promoted to vice president of National Penn Bank.

Sherry D. Zubeck '89, Mount Joy, was named director of special education for the Derry Township School District. She was previously employed as an assistant supervisor for early intervention programs at Lancaster Lebanon Intermediate Unit 13.

1990s

Robin V. (Beaver) Limmeroth '90, Mainz, Germany, has started her own freelance translation business in Germany.

CLASS NOTES

Elizabeth Steele Campbell '91, Lancaster, was named to Lancaster Country Day School's board of trustees. She is employed as a sales manager/buyer for Doneckers in Ephrata.

Susan J. (Harlos) McCarthy '91, Beaver, W.Va., is currently employed by The College of West Virginia as the director of student support services.

Christopher J. Mulvihill '91, Bethlehem, was promoted to assistant dean of students/director of judicial affairs at Lehigh University. He received the 2000 Lehigh University IFC/Panhellenic Council Faculty/Staff Member of the Year Award.

Lori A. Scifers '91, Wichita, Kan., is employed by Raytheon Aircraft and was recently promoted to Raytheon Six Sigma Expert.

Janice Marie (Klien) Stratton '91, Lancaster, was promoted to assistant treasurer at Educators Mutual Life. She has been with the company since 1991.

Michelle L. Waltman '91, Deerfield Beach, Fla., recently co-founded and is publishing a national bimonthly magazine called *Pounds Aweigh* (www.poundsaweigh.com). She was also appointed manager of community services at eDiets.com, an online weight loss community of over 2.8 million.

Christy (Groves) Appello '92, Voorhees, N.J., is employed by Cherry Hill Public Schools as an elementary music teacher.

William C. Bohn '92, was enshrined into the MU Athletic Hall of Fame in October 2000. He was the only NCAA Division II first team All-American in Marauder men's soccer history.

Patricia E. Gobble '92, Palmyra, presented a program to the Derry Township Historical Society entitled "Trends in 18th Century Pennsylvania Redware." She is an adjunct professor in the Department of Sociology/Anthropology at MU.

Scott W. Herald '92, Emmaus, was promoted to assistant vice president in the real estate department of National Penn Bank.

Shane P. Long '92, Front Royal, Va., has joined the faculty of Linden Hall School for Girls as a full-time middle school teacher.

Scott H. McGee '92, Pembroke Pines, Fla., is currently the southeast U.S. safety and health manager for Exxon Mobil Corporation in Coral Gables.

Sharon (Glembocki) Miller '92, Round Rock, Texas, is a second grade teacher at Windermere Primary School in Pflugerville, Texas.

Elizabeth (Holmes) Taggart '92, Bensalem, received a master of arts degree from the College of Notre Dame

in Baltimore, Md. She is now teaching upper level Spanish at Pennsbury High School in Fairless Hills.

Laura J. Wozniski '92, Wernersville, was hired as vice president by Susquehanna Trust and Investment, a subsidiary of Farmers First Bank.

Rev. William F. Wurm, OSB '92, Latrobe, recently celebrated the 25th anniversary of his profession of vows.

Kristin Proctor Becket '93, Chester Springs, completed her master's degree in education leadership at Villanova University and is employed as a social studies teacher in the Upper Darby School District.

Cathy Busha '93, Tucson, Ariz., recently accepted a position as program coordinator for education and community outreach with the Southern Arizona Center Against Sexual Assault. She also serves as a board member for the non-profit, Southern Arizona Gender Alliance.

Sharon L. (Becker) Donelson '93, Armagh, is currently teaching at United High School.

Jennifer Market '93, Columbia, Mo., exhibited her work at the Visions Photography Show in September 2000, hosted by the First National Bank of Columbia, Mo.

Craig Rodenberger '93, Lancaster, was recently promoted to assistant vice president at Farmers First Bank. He most recently served as marketing manager.

Wendy L. Sweigart '93, Mount Joy, was named project manager by Godfrey Interactive.

Heidi R. Tinsman '93, Fleetwood, was featured in a *Reading Eagle* article about tracking the building of her family's dream home from pre-construction to finish.

Margaret M. Toland '93, West Chester, was recently promoted to senior account manager with Consolidated Risk Services, Inc. in Wayne where she will be responsible for client services and program management for Pa. self-insurance clients.

Steven R. Yacovelli '93, Orlando, Fla., began his Ed. D. in instructional technology and distance learning at Nova Southeastern University in Ft. Lauderdale.

Bethann (Kipphorn) Kessel '94, Frederick, Md., received her master's

degree in reading from Western Maryland College in August 2000. She is a first and fourth grade language arts teacher in the Frederick County School System.

Jonathon R. Klotz '94, Reno, Nev., was appointed environmental specialist at Larson Design Group.

Patrick Market '94, Columbia, Mo., received his Ph.D. in meteorology from St. Louis University in 1999. He is presently employed as an assistant professor of atmospheric science at the University of Missouri-Columbia.

Douglas Robert Myer '94, Sinking Spring, is the new women's basketball coach at Wilson High School. He teaches high school math in the Governor Mifflin School District.

Ellen M. Slupe '95, Lancaster, had her art work featured in the recent Hazelton Art League exhibit. She is represented by Central Market Art Gallery in Lancaster and Ward-Nasse Gallery in New York City.

Jennifer Leigh Brown '96, Reading, recently joined Godfrey Advertising as an account executive.

Klara Marijke Charlton '96, Putney, Vt., is the assistant manager of Sackett's Brook Gallery and is currently founding an artists co-operative.

Laura A. Drewniany '96, Lancaster, passed the CPA exam in May 2000. She works as a staff accountant for Walz, Deihm, Geisenberger, Bucklen and Tennis.

Jason W. Morgan '96, Budd Lake, N.J., was recently awarded the Certificate in General Insurance by the Insurance Institute of America. He is a commercial account underwriter with State Farm Insurance in their northeast regional office in Wayne, N.J.

Megan Ann (Smith) Shaffer '96, Lancaster, was recently awarded the 2000 President's Club Award from Clear Channel Communications, where she works as an account executive for WLYH-UPN15 television. She also won the top sales award in 1999.

Melissa C. (Groff) Atobelli '97, Huntington Beach, Calif., is teaching chemistry at Los Amigos High School in Fountain Valley, Calif..

Christopher J. Black '97, Mays Landing, N.J., is a 1998 graduate of the New Jersey State Police Academy and is a trooper stationed at the Woodbine Barracks.

Thomas D. DeAngelo '97, Shoemakersville, was selected as the high school technology coordinator for Blue Mountain School District in Orwigsburg.

Margaret A. Hennessy '97, Bensalem, is currently a software engineer for Lockheed Martin Management and Data Systems.

Gene Carpenter

A 'Ville Coaching Legacy

by Greg Wright

There will never be another coach quite like Dr. Gene A. Carpenter who retired in February. At the helm of Millersville's football team for 31 years, he has influenced the lives of thousands of young men over the years. Although the University will find a successor, the man known as "Coach Carp" will never be replaced in the hearts and minds of those who have played for him, served with him, or followed his football team's exploits every fall since 1970.

Carpenter's longevity has been something to behold; no coach in any intercollegiate sport at Millersville had served as long over a consecutive time period. But more than that, it is his integrity—and the selfless nature in which he gave so much to his student-athletes and to Millersville—that will be long remembered.

When he was appointed as head coach it was to revive a football program that had floundered for many years. The discipline instilled in

his players from Day One—discipline that was forged during his Marine Corps days—transformed the Marauders from also-rans into annual conference title contenders.

The results speak for themselves—212 victories at MU. Winning records in 28 of his 31 seasons. The 13 most victorious seasons in the club history. Scores of all-conference, all-region, and All-American performers.

The keyword of Coach Carpenter's career is *consistency*.

"I know I've demanded much from myself and from those around me, based on my core values. And I think this has provided our athletes to be successful, in the classroom and on the football field. I've been very fortunate—very fortunate—during my years at Millersville to be surrounded by loyal and dedicated coaches, administrators, staff, athletes and family. Whatever happened here in the past 31 years has been a team effort," said Carpenter.

Respect is an attribute that can be gained only over a long time frame.

Sporting a crewcut, Coach Carpenter came to MU in 1970.

Coach Carpenter flanked by Dondre Gilliam and offensive coordinator Brad Mangle (right) in sideline discussion last fall.

The last seniors to be coached by Carpenter. From left to right: Gene Carpenter, Mike Zellner, Dondre Gilliam, Drew Fomar, Sean Scott, Matt Shields, Matt Doherty, Andy Ryzewski, Matt Gingrich, and John Flamish; in military uniforms: Bill Havermeyer, retired MU staffer, and Bill Spayd, PSAC scholar-athlete whose last playing season was in 1999 and will graduate this year.

Coach gets "the victory ride" after memorable 1988 homecoming win over archrival West Chester.

Fans cheer on the Black and Gold.

outstanding coach and a first-class individual. Gene and I go back to 1976, so I know him not only as a coach but also as an administrator. I hate to see him go."

And, so do his players.

"Coach 'Carp' always talked about life," said senior all-star wide receiver and return specialist Dondre Gilliam. "He said, 'Fellas, there's another life after [football], so you need to take advantage and get your education. Be

experience to be coached by him."

Referring to Carpenter as a "master motivator," Tom Burns '91, academic all-American and now an attorney in New Jersey, said, "First and foremost, he's a role model with the things he teaches his players and the people he tries to mold players into. He does it through his own actions, not just words." Fairness was another of Carpenter's attributes. Remembers Burns, "Whether you were the last

"He's everything that's good in college sports."

And Coach Carpenter gained it—from both friend and foe alike. "He's everything that's good in college sports," said IUP head coach Frank Cignetti, whose squads faced Carpenter-led 'Ville elevens in the 1988 and 1999 NCAA-II playoffs. "He's an

a leader, and be proud of yourselves.' It was a pleasure to play for him."

Noted MU's all-time receiving leader, senior Sean Scott, "He is such a great coach and great person. I think about those players after I graduate. They won't have that

guy on the recruiting list or a top senior, coach treated you the same."

Forging relationships with his players. Instilling discipline and confidence in his charges. Building a program where young men would want to come to study and to play football. That is what Gene Carpenter accomplished. Through two simple words—"Marauder Pride"—he influenced and developed men who went on to become successful alumni in a variety of professional fields and within their communities.

According to Scott Francis '73, "Coach meant more to his ex-players as a person than as a football coach. He was more influential in the individual growth of the student-athlete than anyone I've ever known. He would worry more about our academic progress than about what happened on the football field. I think the most rewarding aspect of Coach's tenure has been the many young men who have received a degree and have gone on to excel in various professional capacities."

Carpenter—still clutching his trademark clipboard—is embraced by 'Ville all-star linebacker Lee Rizzoto after 1999 win over IUP.

Tom Burns '91 (left) considers Carpenter a role model.

"'Marauder Pride' is an attitude," Coach recalled. "It's about confidence. A feeling of satisfaction. It's almost something that's unexplainable. It's brotherhood, humility, responsibility, humor, selflessness. Those are the things I really believe in. I live by that. It isn't something you do every once in a while. It's something you do every day."

Millersville football may never be the same, but Gene Carpenter's legacy of sustained excellence will endure. It all goes back to consistency—of effort and caring about his players on and off the football field.

Greg Wright, assistant director of communications and marketing, serves as MU's sports information director.

Excellence by the Numbers: The Gene Carpenter Legacy

- .700 Coach Carpenter's winning percentage at Millersville (212-89-6)
- .706 Coach Carpenter's overall winning percentage (including 1 year at Adams State (Colo.) (220-90-6)
- .747 Coach Carpenter's PSAC Eastern Division win percentage (133-44-3)
- 2 Harlon Hill Trophy finalists in Carpenter's tenure (WR/RS Kevin Cannon in 1995 and QB Drew Folmar in 2000)
- 2 NCAA-II playoff wins under Carpenter (27-24 over IUP in '88 and 21-14 over Shepherd in '99)
- 4 Number of NCAA playoff appearances under Carpenter (D-III in '79, D-II in '88, '95 & '99)
- 6 Number of undefeated PSAC East title teams under Carpenter ('77, '81, '88, '90, '93, '98)
- 9 Nine-win seasons (9-1 in 1986, 9-1-1 in 1995 and 9-3 in 1999). The '95 squad posted the first undefeated regular season (9-0-1) by a Marauder "eleven" since 1940. The '99 squad advanced to the NCAA-II quarterfinals
- 10 Record-setting win total in 1988, when MU earned the Lambert/Meadowlands Cup and ECAC-II Team of the Year award. That memorable team advanced to the NCAA-II quarterfinals (10-2 record)
- 10 Final count of PSAC Eastern Division championships accrued during Carpenter's tenure ('77, '79, '80, '81, '88, '89, '90, '93, '95, '98)
- 10 Current mark for consecutive winning seasons since '92 that will carry over to 2001 season
- 12 Seasons with eight victories or more, unmatched in MU football history
- 12 Consecutive winning season streak (1971 to 1982), longest in MU annals
- 16 Years served as MU director of men's athletics (1981-97)
- 19 Homecoming Day victories (19-11-1)
- 23 Family Day victories (23-8)
- 31 Number of years Coach Carpenter guided the Marauders. It is the longest consecutive tenure by any coach in Millersville athletics history
- 47 Total count of All-American honors earned by MU gridders during Carpenter's tenure
- 92 Total number of All-ECAC honorees in Carpenter era
- 100 Number of road victories in Carpenter regime (100-50-3)
- 112 Number of Biemesderfer Stadium wins in Carpenter era (112-39-3)
- 133 Number of PSAC Eastern Division victories from 1970 to 2000 under Coach Carpenter
- 212 The final win total for Coach Carpenter with the Black and Gold
- 220 Coach Carpenter's overall victory mark (212 at MU, 8 at Adams State)
- 291 Total of All-PSAC Eastern Division recipients during Carpenter era

Honors:

- PSAC Eastern Division Coach of the Year—1977, 1981
- Inductee, Central Chapter (1988) and Susquehanna Valley Chapter (2000), Pennsylvania Sports Hall of Fame
- Recipient, George W. Kirchner Award (2001), Lancaster Sportswriters & Sportscasters Assn. for outstanding contributions to Lancaster County sports
- Recognition Award, Lancaster-Lebanon Berks Quarterback Club (2001)
- AFCA Pop Warner "Huddle Prayer" Award recipient (1986)
- Philadelphia City All-Star Football Assn. "First and Goal" recipient as outstanding role model (1990)

SPORTS

Keeping score

The new Pucillo Gymnasium scoreboard, with its digital technology, keeps the fans in the know.

Millersville University's new state-of-the-art scoreboard made its debut in time for the start of the Marauders' 2001 basketball season.

The new board features LED digital technology, automatic time reset, and tenths-of-a-second timing in the final minute of each half. New clocks mounted at both baskets feature not only play time (30 or 35 seconds), but also the game time. Cost of the

board was \$23,000.

The scoreboard also features four, 24 inch x 10 foot backlit panels on all four sides for advertising. And, there are four quartz lights on the underside of the board that will provide additional lighting for MU wrestling matches.

The scoreboard replaces the original, incandescent-dot board that hovered over center court since Pucillo Gymnasium opened in 1971.

MU celebrates PSAC golden anniversary

Millersville celebrated the 50th anniversary of the Pennsylvania State Athletic Conference during the basketball doubleheader versus rival West Chester on Saturday, February 17.

A charter member of the 14-member Conference since its founding in 1951, Millersville commemorated the occasion with a brief ceremony.

Millersville PSAC championship teams include:

- **Men's Sports**—Baseball-1968, 1974, 1975, 1998; Basketball-1954, 1955, 1956, 1957, 1958, 1987, 1989 and 1993; Cross Country-1979; Football (Eastern Division*)1988, 1989, 1990, 1993, 1995 and 1998; Golf-1999; Tennis-1960 and 1985; Track & Field-1969 and 1970; and Wrestling-1951. (*division champions named after "State Game" 1960-87 was abolished)
- **Women's Sports**—Basketball-1984 and 1987; Field Hockey-1985 and 1986; Lacrosse-1998, 1989 and 1990; Tennis-1997, 1998 and 1999; Track & Field-1990, 1991, 1992 and 1996; and Volleyball-1995.

PSAC Commissioner Steve Murray presents a plaque to President Joseph Caputo, while Dr. Robert Thomas, vice president for Student Affairs looks on.

SPORTS

SPOTLIGHT

SPORTS

Men's Basketball—Third-year Head Coach **Fred Thompson** rejuvenated MU men's basketball fortunes this winter. The Marauders made significant improvements offensively (a 78-point average, up 11 from a season ago), shot the ball more accurately from the free throw line (70 percent, a 13 percent increase from a year ago), and turned the ball over less (13 per game).

However, the Marauders (15-11) faltered late in the season and sustained a rare five-game home losing streak to miss the PSAC playoffs.

The 'Ville was led by its ace perimeter trio of senior **Jasmine Williams**, sophomore **Gerald Redding**, and freshman **Phillip Alston**. Redding led the team in scoring for the second straight season (17.3 points per game), while Williams keyed the club in assists and steals and also contributed offensively (16.0 ppg); both were named to the All-PSAC East 2nd Team. Alston added a 14.7 point scoring average.

Women's Basketball—Head Coach **Mary Fleig's** cagers were ranked in the NCAA-II Top 25 most of the season, thanks to the leadership of their six seniors who formed the best class-male or female-in Marauder basketball history. Unfortunately, a PSAC tourney quarterfinal loss to West Chester and a third place PSAC East finish ended the 'Ville's season prematurely at 21-6.

Regional first-team all-star point guard **Safiyyah Bashir** moved into the top 10 in career points with 1,266 points and increased her club career steal total to 414. Wing **Sara Burcin**, the team's all-time leader in points (1,543) and three-point goals (248), joined Bashir on the All-PSAC East 1st Team for the third consecutive season. Forward **Ashley Hoffman** also joined the 'Ville 1,000-Point Club (1,086), and dependable center **Paula Keller** went over the 600-rebound mark and finished only 21 points shy of 1,000 for her career. Guard **Nicole Schneider** emerged as one of the PSAC's most accurate free throw shooters (80 percent), and reserve center **Amber Hickman** again supplied effective rebounding and defensive play.

Wrestling—The Marauder grapplers made exceptional strides this winter when they finished with a 10-3 dual meet record and captured their first NCAA Division I East Regional championship since 1993.

Senior **Omar Porrata** repeated as regional champion at 125 lb. A season-long standout, Porrata (28-4) earned titles at the Bloomsburg and MU Belles Tournament and was runner-up in the PSAC Championships.

Classmate **Alan Grasso** (174 lb.) won the second NCAA regional title of his career and also earned a trip to the Division I Nationals in Iowa. Grasso became the seventh Millersville wrestler to record 100 career victories. Junior **Greg Eynon** (23-12) was also a season-long mainstay for the Black and Gold at 197 lb. He led the PSAC in pins this season with 15.

Women's Swimming—Under first-year mentor **Mark Daum**, the Marauders posted a 5-8 dual meet record. Sophomore **Emily Lunde** broke her own school record in the 100-yard butterfly (1:00.68), and junior **Erin Eisenhofer** also established a new school mark in the 1,000-yard freestyle (11:00.76). The 'Ville established two individual marks and four relay records at the state meet enroute to a ninth place finish.

Indoor Track & Field—The Marauder women's distance medley relay established a school record at the Delaware Invitational on February 3. The women's quartet of **Jen Knuth**, **Beth McKay**, **Meghan Edmiston** and **Theresa Mazurek** broke the previous standard by 12 seconds with a 12:33.09 clocking. At the ECAC-II Championships at East Stroudsburg, Edmiston led the way with victories in the 1,000 meter run and the mile. Sophomore distance ace **Mark Stallings** paced the Marauder men's squad to a third place finish in the ECACs with victories in the 3-km and 5-km races.

Sophomore guard Gema Robles dives for a loose ball in PSAC East action. Robles has ranked among the league leaders in assists for the nationally-ranked MU women cagers.

Emily Lunde broke her own MU record in the 100-yard butterfly this season (1:01.89).

Omar Porrata (125 lb.) was runner-up at the PSAC Championships and has emerged as Millersville's top grappler this winter with more than 25 victories.

Sophomore wing Gerald Redding has contributed more than 17 points and five rebounds per game to the Marauders' improved attack this winter.

MILLERSVILLE UNIVERSITY'S SCHEDULE OF EVENTS

THURSDAY, MAY 3

5:00 - 7:00 p.m. Luau by the Lake - Campus Lake (Rain location: Pucillo Gymnasium). A special welcome to the newest members of the MU Alumni Association, the May 2001 graduates! Featured entertainment: a steel drum band. All alumni are invited. A fun food buffet takes center stage. **See reservation form.**

9:00 p.m. Senior Send-off & Alumni Night at the Village Night Club, 205 N. Christian Street, Lancaster (VNC: 397-5000). Join fellow graduating seniors and alumni with the Fuzzy Bunny Slippers (a local favorite coverband from the mainline area). Seniors: Free cover charge and shuttlebus transportation from MU campus, ticket for one drink or 2 sodas. Open to MU alumni and their guests; alumni cover charge: \$5. Doors will open to the public at 11:00 p.m. [MU IDs required; must be 21.] See reservation form or pay at the door.

FRIDAY, MAY 4

8:00 a.m. - Alumni Information Center - Lower Level, Alumni Services Office, Duncan Alumni House

POSTSCRIPT

Movers & Makers

OF THE
New
Millennium

Hazel Jackson

This poem was composed as a tribute to Millersville alumni.

Written by Professor Hazel Jackson, emeritus, she presented the poem at a reading to alumni during the October 2000 Homecoming reception. We thought all MU alumni would appreciate the sentiments expressed by the poem.

We come to celebrate another year of Life, Loyalty, Love and gratitude for years of learning, growing, and becoming.

We are proud graduates and affiliates of an institution that we proclaim our Alma Mater.

We came;

We studied, worked, and fulfilled our goal of the chosen profession, the degree that sometimes led us down other paths and in other directions.

Through it all, we remember our days and years at MU.

Sometime feeling alienated, confused, and uncertain.

Sometimes feeling loved, secure, confident and certain.

But always searching, hoping, and desiring to know who am I? Where am I going, and what is my purpose?

And now, some years later, we return to our early beginnings of discovering of self; having enduring pain, disappointment, and having realized some victory and accomplishment.

We are the fruits of the efforts of our past, The hope of our future, But the active movement and spirit of our present.

As we enter this new millennium, we have become some of all the definitive force that strengthens our families, our communities, our nation, but most significantly ourselves. We are lawyers, teachers, chemists, social workers, doctors, preachers, entrepreneurs, business men and women, parents, CEOs, supervisors; name the role, MU Grads are there, Ten-Fold.

And so we celebrate today, we celebrate yesterday and we reach toward tomorrow—knowing not what tomorrow holds but knowing who holds tomorrow.

We celebrate the relationships we developed, the friends and classmates that we knew and know.

We celebrate coming together to renew those friendships, to share our sorrows, our joys, our accomplishments and our aspirations.

We celebrate the new millennium that lies before us like a mysterious awakening dawn.

Let us, the graduates of MU, be faithful in our mission of loving and supporting each other and lifting and encouraging those young men and women who aspire, as we did, toward making a better life for themselves and a better world for us all.

Finally, We celebrate Life

We celebrate Love

We celebrate Loyalty

But most of all, MU,

We celebrate you !!!

Memories of May Day

Celebrating spring in high style with a May Day pageant was a beloved Millersville tradition. Shown here is the very first May Queen, Henrietta Swan. The year was 1926, and the royal court crossed the campus lake in a barge fit for a queen.
