Goal 3: Streamline Use of Technology to Support University Operations

Infrastructure
- Completed significant wireless and wired network upgrades ahead of schedule.
- Centralized desktop and classroom equipment inventory.
- Storage Efficiency - Recovered 10% of university electronic storage (17,000 accounts).

Student Focus
- Campus ESP FERPA module went live, allows students to give parents permissions to view schedules, grades etc.
- New Curriculum Approval Process in CourseDog implemented.
- Migration of MAX, Cooperating Teacher App and Schedule Builder to a more secure, higher performing, and highly available platform.
- MarAudit –Increased a student's visibility of their degree path in Degree Audit.

Security
- Migrated Millersville University community to Microsoft MFA (multi-factor authentication).
- Secure Printing Capacity - Ricoh StreamLine SLNX PIN printing roll out completed.
